

# CHC 2025FA Zero Textbook

These course sections exclusively use digital or other instructional materials that are free of charge to students and may have a low-cost option for print versions for students who prefer this format. Please note there may still be other non-textbook mandatory costs associated with some of these sections (e.g. scantrons, scientific calculators, laboratory supplies, etc.). Under some circumstances, faculty may have to adjust selection of instructional materials and this can effect student costs. It may also be necessary to replace instructors scheduled to teach sections. Replacement faculty have academic freedom to choose instructional materials regardless of costs and are not obligated to use free course materials selected by previous instructor. This list might be updated throughout the registration period. If you have questions, please contact the Crafton Hills College Instructional Office at 909-389-3203.
