**What future pedagogical workshop topics would you like to see offered to support your teaching? (n=3)**

Exploring the ramifications of ChatGPT might be useful/interesting since it is so likely to have a major impact on the field of English. It will also force teachers to consider its influence on how we approach written assignments in the classroom. Besides, I'm curious to know if CHC has created or considered (or plans to create/consider in the future) any particular policy regarding its usage.

Time management for teachers and students

Ungrading, Chat GPT

**Feel free to provide comments and/or suggestions that may help in planning these workshops. (n=2)**

Let's try more shorter workshops.

Thanks for all the work you do! Would love for the dept. to sit down and talk about how to make part-timers feel more involved / welcome.
