Highlighted Comments

- Being a part of the Free College Promise has greatly helped my educational journey. I have been able to complete my general education and transfer requirements without worrying about the cost or about acquiring any debt. I was able to explore and decide on a pathway that will take me through my greater education without gaining any other debt as well. This program also gave me knowledge of the resources I have available to me as a student.
- Honestly I don't have words to describe how much I appreciate this program, I really wish we have program like this in 4 years university because this program took away all our headaches away. Because of this program we can really focus on our academic, we don't have to worry about financially and other expenses, which is big part of our higher education. I will always remember the contribution of this program and the value of this program. I really really appreciate all of the stuff of this program, you guys make the difference. I will Definitely pay back in the future and would make it easier for students the way it was for me because this program really help me through the 2 years at Crafton hills college.
- I had a hard time at the beginning of my journey at Crafton Hills. I was completely out of my element in online school and took on a bit more than I was capable. No one could have foreseen a pandemic right before my first semester of college, and it did take its toll on me negatively. As hard as it was, the Promise Program and all of those in charge helped me tremendously and were extremely patient with me. It put me on the right path to continue my education no matter how many bumps there were at the start. I'm not sure what I would have done if I wasn't a part of this program. I am endlessly grateful for my time here.

Please tell us how the CHC Free College Promise Program has helped you on your educational journey. (n=137)
All of the workshops and helpful resources have definitely helped to guide me on my journey
Allowed for me to gain insight on what I would like to do in the future career-wise. The Promise Program also gave me the chance to focus on things regarding finances and employment.
Allowed me to worry less on financial matters and focus on school as well as work.
At the beginning of the pandemic, I was graduating high school. I never had the "usual" graduation ceremony, lost many trips like grad nite and overnights with the band I was in, and missed out on education since it was different to adjust to an online setting. After getting into the CHC Free College Promise Program it definitely lifted the weight off of my shoulders. It is nice to be able to put my hard-earned money towards necessary bills and not have to worry about tuition costs.
Being a part of the Free College Promise has greatly helped my educational journey. I have been able to complete my general education and transfer requirements without worrying about the cost or about acquiring any debt. I was able to explore and decide on a pathway that will take me through my greater education without gaining any other debt as well. This program also gave me knowledge of the resources I have available to me as a student.
Being part of the promise program allowed me to be able to better afford going to a university in my upcoming years.
By allowing me to follow my dreams while not having the burden of money getting in the way.
By paying for my classes
CHC Free College Promise Program allows me to pursue my education goals without the financial burden that comes along with education. Now that the spring 2022 semester is coming to a close, I will be thankful for the opportunity but will need to find a new method to pay for my education.
CHC Free College Promise Program has genuinely helped me so much. As I was concerned about money when it came to college, the program allowed me to pursue my degree without the worry of financial difficulties. I couldn't be more grateful to have had access to such a wonderful program as it provided many benefits.

<p>CHC Free College Promise Program has helped me by allowing me to explore my education further without fear of debt or paying for classes I would have not been able to afford out of highschool. The program has given me the chance to experience college and earn a higher education despite my original plans out of highschool of not going to college. I am glad I got the chance to apply and be accepted so I could become a college student without worrying myself about finances. I am really glad I got this opportunity and sad to see it end so quickly. I think without this program I would have never even think about collage until I was financially stable to afford a full education. I made myself proud by exploring this new possibility. I hope this program continues to offer this chance to other student who do not have collage in their future plans due to their parents financial position or even their own. I also believe they should add another year for those wanting to continue on as it is honestly very helpful and useful. Thank you so much.</p>
<p>CHC Free College Promise Program has helped me pay my tuition which has taken a lot of stress away from me, without the promise program I wouldn't know how to pay for my tuition and would have a whole lot of loans to pay off when I'm finished with college.</p>
<p>CHC Free College Promise Program has helped me pay off my tuition for the two years at Crafton which has helped me have fewer loans to pay at the end of my education.</p>
<p>CHC Free Promise Program has been a great help to my education. Not only did it give me the opportunity to focus on my school work with not have to stress about paying for classes but it also got me prepared for many things in life through the workshops encouraged. I would I have never known there were so many resources offered by the college. I am able to manage money well through the money management workshop, plan a nutritious diet through the nutrition workshop and I also received a stater brothers gift card which was a great financial help to me. Most of all I have been very prepared with transferring to a university with the help of the transferring workshops. I couldn't imagine these past 2 years without the support of the Free College Promise Program. I'm going to miss it so much when I start my next journey at CSUSB.</p>
<p>College promise has helped me tremendously. As a student it's hard to work and go to school so being able to get offered an opportunity like free college promise has been a blessing and great opportunity for me. My educational journey has been amazing since. Thank you!</p>
<p>College Promise has made it possible for me to complete my Associates Degree as fast as possible. It has guided me on the right path towards success.</p>
<p>Don't have to pay for classes</p>
<p>Due to the CHC Free College Promise Program, I was able to enjoy multiple benefits such as priority registration, free tuition & textbooks, and useful workshops. Priority registration has enabled me to register for classes that fit my schedule best. Free tuition & textbooks has lifted burden off of my and my mother's shoulders as we are a low income family. I attended workshops that covered topics such as mental health, career preparation, time management, and etc. I continue to use skills I've learned from those workshops in my classes so that I can succeed.</p>
<p>Free classes</p>
<p>Free College Promise had helped me with schooling by providing text books as well as having much more access to the internet.</p>
<p>Free college Stipends Workshops gift cards referrals</p>
<p>Gave me the access and resources to advance my education.</p>
<p>Having the opportunity to go to college with great amounts of help along the way, has made my college experience much more exciting, and I truly think it's a fantastic program for people trying to figure things out.</p>
<p>Help me a lot with money problems</p>
<p>Helped by checking up on me and my schedule for courses to keep me on the right track to my career goal.</p>
<p>Helped create a way to navigate through college without the financial burden.</p>
<p>Honestly I don't have words to describe how much I appreciate this program, I really wish we have program like this in 4 years university because this program took away all our headaches away. Because of this program we can really focus on our academic, we don't have to worry about financially and other expenses , which is big part of our higher education. <p>really really appreciate all of the stuff of this program, you guys make the difference. I will Definitely pay back in the future and would make it easier for students the way it was for me because this program really help me through the 2 years at Crafton hills college.</p>
<p>I am a first-generation college student and it has encouraged me to continue to my ultimate goal a Nurse!</p>
<p>I am grateful for not having to pay for my classes, it has been helpful and relieving of much stress.</p>
<p>I am grateful for the CHC Free College Promise Program as they have helped guide me toward my career path. I was able to attend college without having to worry about financial problems which encouraged me to do my best and work hard to achieve my goal. Also, the workshops and meetings that we had to attend gave me insight into what was coming. This helped me prepare and understand what the Promise Program expected and what I needed to do on my part to stay compliant. The assignments also helped me by staying on task and kept me in check, along with the counselor meetings. I really appreciate how the program has helped me on my educational journey.</p>
<p>I had a hard time at the beginning of my journey at Crafton Hills. I was completely out of my element in online school and took on a bit more than I was capable. No one could have foreseen a pandemic right before my first semester of college, and it did take its toll on me negatively. As hard as it was, the Promise Program and all of those in charge helped me tremendously and were extremely patient with me. It put me on the right path to continue my education no matter how many bumps there were at the start. I'm not sure what I would have done if I wasn't a part of this program. I am endlessly grateful for my time here.</p>
<p>I have been able to get free tuition for my courses and I learned a lot from the workshops I went to. The people in the program were kind and made sure I got everything done that I needed to get done for the program.</p>
<p>I have been able to save some money for personal use as well as for my eventual tuition. There has also been a lot of help opportunities along the way that have been very insightful on what o should be doing next on my journey.</p>
<p>I have had a fantastic educational experience because of the CHC Free College Promise Program, which has assisted me in my studies and encouraged me to focus on my goals and dreams.</p>
<p>I haven't worried about paying massive amounts of money for my prerequisites. All of my books have been paid for and a lot of the stress that comes with college is gone now that two years have been paid for.</p>
<p>It has allowed me to save lots of money to pay off the 2 years I will attend at CSUSB.</p>
<p>I love the program, I definitely would have been lost without it. Not only does it motivate me to keep my grades up, but it has helped substantially with the cost of school. With the Pandemic, I wasn't working for a while, I never had to put myself in a position where I would have to choose school or work. I think that all of the counselors that are part of the program have been helpful in so many ways and are always friendly and professional. I'm so grateful for everything that this program has offered & helped me with throughout my time in Crafton.</p>
<p>I would say that the College Promise Program helped with having classes without worrying about stringent costs for nearly everything.</p>
<p>If it wasn't for this program i wouldn't have gone to college to begin with. I wouldn't be planning my career! This program has helped me so much.</p>
<p>It allowed me an opportunity to get my associates degree immediately after high school. It also helped manage college lifestyle during peak Covid 19 pandemic.</p>
<p>It gave me a great experience and it was nice to receive help throughout the semesters.</p>
<p>It has allowed me to continue with school especially when I was worried with how I was going to be able to pay for college. It made things possible :)</p>
<p>It has allowed me to focus on school and get good grades, without having to worry about paying for classes. The workshops have also helped me learn about careers and transferring.</p>
<p>It has allowed me to save money so that I can attend a 4 year university without a huge student loan.</p>
<p>It has eased my mind to focus on school without worrying about finances</p>
<p>It has given me a great opportunity from YHS to go immediately to college. It has also provided a safe place during Covid lockdown to get a college education from home. The CHC Free College Promise program was a huge aid in my education.</p>
<p>It has helped me afford college at a reasonable price that has allowed me to be more open to the more expensive colleges after I transfer as I will be spending less time there overall.</p>

It has helped me be able to afford an education. Without the program I would not have been able to afford to go to school.
It has helped me be able to do my first two years of college while working and savings As much as I can so when I go to a four year I will not have to take out loans. This program has also allowed me to feel okay when changing my major and not worrying about wasting money when I changed and allowing me to do summer classes to stay on track.
It has helped me be able to save up for the university I am transferring to in the Fall of 2022, and it also has kept me on a path so that I can transfer in a timely manner.
It has helped me be able to save up money for tuition when I starts at Cal State San Bernardino in the Fall of 2022. And I have been able to sign up for all the classes I have wanted and need since we have priority A registration.
It has helped me by being up to date to what is going on and also what we need to to tyo maintain at crafton.
It has helped me financially and find what my major is. It has helped me in my path to success. It has helped me in so many ways.
It has helped me find the specific classes for my major
It has helped me gain a valuable education with very little cost to myself financially, which has been the biggest blessing I could ask for!
It has helped me get my prerequisites and set me up for my journey at a four year university.
It has helped me have a worry free financial situation, and allows me to be more focused on my education rather than expenses.
It has helped me maintain good grades and helped me stay consistent with school.
It has helped me not stress out so much about paying for college and has allowed for me to save up more money when I transfer. If I didn't get into this program I may have skipped a year in order to find more money for school. I has also been very useful with the different workshops I have attended as well as the check in meetings we have had.
It has helped me on my educational journey by helping me focus more on my education that the program has been able to provide for me than to stress on money situation and being able to reach my goal on graduating on getting my associates.
It has helped me relieve some financial stress and taught me how to plan ahead for the future.
It has helped me so much. I wouldn't have done it if it wasn't free. It made me be a full time student which I needed. If I didn't do the promise program I would be lacking in classes and not finishing school. With this program I got my classes done within two years and will be continuing my education in a nursing program.
It has helped me stay motivated to reaching my goal and they have guided me well throughout my journey.
It has helped me with my transition from high School to College very well. I'm very much appreciated for the opportunity I got to be apart of this.
It has helped so much by providing us with books throughout the 2 years I've attended CHC.
It has helped to remove the cost of enrollment and partially my textbooks during the Covid-19 pandemic which has created mass uncertainty in my life.
It has made college so much more affordable for me and allowed me to save money for the next few years of college as I continue to pursue my degree.
It has made me not have to go into debt to attend community college, and therefore made my first couple years easier as I have been able to focus on college work
It has made taking the classes I need to take easier and has allowed me to fully focus on my studies and grades/classes since I do not have to focus on the money aspect. It has also allowed me to meet more people and make more connections with students!
It has provided a space for me to grow within Crafton
It helped a lot on being able to save up for a university. It helped me on my major, for example, taking different workshops that can help in the future. It helped me talk to the counselors more often.

It helped keep me on track and meet with counselors. If I were not in the program, I think I'd be more hesitant with meeting counselors and keeping up with my plan.
It helped with having access to a computer at home as well as sliding me to save up money for an apartment.
It is giving me a steppingstone for furthering my education
It made it financially easier, but it also helped me transfer on time. The semester educational plans that we were required to do each semester helped me a lot in planning courses. The program overall just helped me become more aware of the resources at Crafton that I probably wouldn't have known about or checked out if it wasn't for the program.
It made me worry less about paying for college because half of my bachelors degree was paid for.
It was beneficial to have free college for the past two years. I will say there was time where communication with counselors was either impossible or irritable. It's understandable that it's been hard with Covid but communication seemed to be difficult at times. Nevertheless I enjoyed my experience.
It was such a blessing and helped me take control on my own responsibilities and use all the advantages I could.
It was very helpful to organize my career plan and no to pay for my classes
It's helped me in a myriad of ways. Without Free College Promise I would have had to waited to start college but with Free College Promise I was able to jump right into college and get started on my degree. It's helped me not only by covering the financials of these past years, but also allowed me to learn quite a bit through the workshops that were provided.
It's payed 2 years of tuition for me here at Crafton allowing me to complete an associates degree in digital animation.
Not having to worry about paying for my first 2 years of college has been a huge blessing. I have been able to complete a bunch of prerequisites for the university I am transferring to for free.
Not only did the CHC Free College Promise Program guarantee free school for the last two years, it also provided free books, resources, and allowed me to stay involved with campus activities, despite being online. I have endless good things to say about this program and the staff behind it. Administrators were also always present- responding promptly and showing they care about student success.
Not only has it paved the way for an opportunity to access higher education, but the quarterly requirements help keep me on track. Campus activities and counselor meetings keep me involved and assured I am on the right track.
Saved a lot of money while getting a good education which will benefit me for years to come
Saved money as of education Crafton has really given me a chance to succeed into having a good career and ultimately preparing me to be an asset rather than a liability within society.
Talking with councilors
Thanks to this program, I was able to further my education since I didn't qualify for much financial aid. It has truly been a blessing.
The biggest is financially it was extremely helpful but I was also helpful with all the workshops to help me succeed.
The CHC Free College Promise has been super helpful these past two years! They have helped and guided me through college to ensure that I have received the best college experience.
The CHC Free College Promise has freed me up economically allowing me to take all of the prerequisite course for my major at minimal expenses. This has allowed me to save money for my coming year in university.
The CHC Free College Promise has helped me become a more responsible and organized student. It has pushed me to try to keep my grades at the highest they can be. It has also given me a chance to save up money from my job for when I transfer to University.
The CHC Free College Promise Program and staff have made the experience of going into college during Covid very easy. They also allowed me to really focus on my major and complete all the necessary courses I needed to obtain a career. It is an awesome program!
The CHC Free College Promise Program gave me the opportunity to go to college stress free. I was going to college during the pandemic and I could only imagine how difficult it would be to get classes that I needed to

<p>register for. The program gave me the chance to finish my entire Psychology AA degree in only two years. This is sometimes not possible when students get put on waitlists and aren't able to register for the classes they need. Also, I didn't have to worry about how I was going to pay for my classes if it came down to it.</p>
<p>The CHC Free college promise program has given me a lot less to worry about in college. Without having to worry about how I will pay for college it has made it much easier to focus on my school work.</p>
<p>The CHC Free College Promise Program has helped me focus on my academics and pushed me to get involved in campus activities throughout my time here. This program also helped me maintain communication with a counselor to keep my academic goals within reach and on schedule.</p>
<p>The CHC Free College Promise Program has not only provided me two years of a community college, but has only made this possible because it was free. COVID-19 ending my senior in 2022 made me feel as though I was completely dropped off without any direction. I had hopes to attend Cal Baptist University but the price tag was far too high, so I applied for the Promise Program and got accepted. This has changed my future for the better, this program made it possible for me to obtain a degree, or at least some college credits before Transferring. I am beyond happy with my two past years here at Crafton Hills, but excited to transfer to GCU. Thank you for providing me with this opportunity to not only stay in school but truly flourish and see the importance of an education.</p>
<p>The CHC Free College Promise Program was honestly one of the best things I could have participated in. They have very simple rules and you have to take part in very few things to be eligible to have 2 years of college completely paid for. I was so scared of my future because my financial situation wasn't the best, I found it hard to get a job because of my disability. I was afraid of going into debt to go to school for something that I wasn't even sure I was interested in, but the Free College Promise Program helped me get those two years of schooling, debt-free, and now I'll be graduating with a degree. The Free College Promise Program helped me, not only by paying for schooling, but gave me time to decide on what I wanted to do with my future. I'm two years older and two years more mature, the time I wouldn't have had without the Promise Program. Thank you :)</p>
<p>The College Promise Program definitely has helped me grow in the art field and gave me an opportunity to learn new trades from Crafton. Taking general education again, refreshed me on a variety of topics again and having classes with my major has made me grow tremendously from the last two years especially with the pandemic that hit. This program and all the people within who had helped me within this program has one hundred percent of my gratitude.</p>
<p>The college promise program has helped me have more knowledge such as workshops be more organized get things done on time and having more logic for what's to come.</p>
<p>The College Promise Program has helped me on my educational journey by providing me the resources such as textbooks at no extra cost, allowing me to be able to focus on my studies. It has also helped ease the transition from high school to college, with knowledgeable and resourceful employees that help me with any of my concerns.</p>
<p>The free and easy registration for classes was a huge help. Since I don't get much financial aid, it was very beneficial in ensuring that I would be able to attend school.</p>
<p>The Free college program has given me the opportunity to attend college and save money to finish my bachelors degree at a cal state.</p>
<p>The Free College Promise has greatly helped me. Thanks to the program, I could focus on school without having to work to pay tuition costs. By having my units payed for, I was able to attend the Crafton Hills Fire Academy and use my savings for uniforms and testing fees, which would have been very difficult if I had to pay for the 21 units as well. The program has helped me in other non-financial ways, by providing frequent workshops and information to students that we otherwise would never have received. The requirement to see a counselor every semester greatly helped me chart out my academic plans, and I otherwise would not have seen my counselor as much.</p>
<p>The Free College Promise has helped me attend college, something in which I thought was not possible for me. Without this program I would have not went to college and I am very thankful to have been apart of such an amazing program. This program is very useful to other students such as myself, allowing us the opportunity to pursue an education after high school. The program has also taught me how to navigate through college and be able to obtain the necessary knowledge in order to transfer into a university.</p>
<p>The Free College Promise program has made my education very affordable and I am grateful.</p>
<p>The Free College Promise program has provided me with plenty of resources and help in order to keep my education plan on track.</p>

<p>The Free College Promise Program helped me choose which school to go to and how I need to get there. It has helped me financially tremendously and everyone has always been super helpful and nice.</p>
<p>The program has been great financially, and it has given me one less thing to be stressed about in the past few years. It has not been easy to navigate a global pandemic, a chronic illness, family issues, and more, but not having to worry about paying for classes has been incredibly helpful and something I've been very grateful for. While I don't qualify for FAFSA money, I also don't come from a rich family so this has genuinely been helpful. Having to find workshops to attend for assignments allowed me to learn a lot, and put myself out there when I typically wouldn't have. I enjoyed the Each Mind Matters workshop I went to very much, and I wish I had more opportunities to go to one again. So far my educational journey has been pretty stressful, but this program has taken out one of the most stressful aspects.</p>
<p>The program has helped me stay on task with my courses and the needed requirements for me to get the degree I want.</p>
<p>The program has helped me with my financial aid and academy support.</p>
<p>The program has helped me with the financing of my classes as well as provided me with the necessary information for transfer to a university.</p>
<p>The program has provided me with resources within Crafton such as the tutoring center and workshops in order to succeed in my class and transfer to a 4 year college.</p>
<p>The promise program has allowed me to save money for when I attend a university. Not having to pay tuition for two years has allowed me to put money aside to further my education after my time at Crafton. The promise program has allowed me to place more focus on my courses and not stress as much about the financial aspect of higher education.</p>
<p>The Promise Program has eliminated the anxiety and stress of paying for college, by being able to take this path allowed for me to attend college.</p>
<p>The Promise Program has helped boost my communication skills and helped me become more responsible in general.</p>
<p>The promise program has helped me by keeping me on track with my educational plan and encouraged me to be in contact with my counselor often.</p>
<p>The promise program has helped me by paying for my classes, giving me important updates with the school, and by sharing interesting opportunities.</p>
<p>The Promise Program has helped me on my educational journey TREMENDOUSLY. Without it , I would have so much stress on my back and my grades probably would not be what they are today. So i thank you for this program and hope it stays .</p>
<p>The promise program has helped me so much! Not just mentioning the financial support the program gave. That in itself was wonderful. But, the personal help I have gotten from people in the program has been wonderful. They help you with everything you need and are very understanding. It keeps you on track and involved with the school. I think I needed that ac#ability leaving high school, especially during the pandemic. I can whole heartedly say that without the promise program I would have dropped out from school. I was so sad to hear it wasn't a school option anymore.</p>
<p>The Promise Program has helped me through my education in significant ways by allowing for opportunities such as workshops and covering my first two years here. This opportunity has allowed me to grow and further and prepare myself even more for university. If it hadn't been for the promise program, I wouldn't know where I'd be and if I could've of had afforded college. Thank you To the Promise Program for providing me the this opportunity to attend CHC without having to worry about financial issues as much.</p>
<p>The promise program has helped me throughout my two years here at Crafton. The journey has been really smooth. I really enjoyed my time here.</p>
<p>The Promise Program has helped me tremendously in my schooling. I was able to save quite a bit of money for my University payments. I didn't have to worry about paying too much at Crafton and now I can pay for more things during University. I'm very thankful to have been part of this program.</p>
<p>The promise program has helped me with my educational journey</p>
<p>The promise program has really made my two year journey stress free. Not having to worry about paying for classes or books really takes a lot of stress off my shoulders. Also, the program making us meet with counselors</p>

<p>and etc. really helps. I would probably slack on it if I wasn't in the program. Overall, I would suggest for new students to join this program.</p>
<p>The way this program helped me was to focus more on school than worry about Money which I believe help improve my grades</p>
<p>They have helped a lot by guiding me in the right direction for my education. Providing lots of information on clubs and workshops that benefit me. This program really changed my life and I appreciate everything that they helped me with.</p>
<p>They have helped me so much in everything and I am forever grateful.</p>
<p>This has greatly helped me and my family financially in this rough time. I am now transferring to my dream school debt free and have completed my first 2 years worth of college.</p>
<p>This program has been great, especially during the pandemic where it was hard to find a job to actually earn money while taking classes. It was free and always offered assistance and information on transferring</p>
<p>This program has helped me to achieve the goal of continuing my education after high-school. Without this program I would have never been able to accomplish what I have so far.</p>
<p>This program has made the entire process of college much easier than I anticipated. It gave me an opportunity to learn about my life and education stronger than without. Not only this, but the financial aspect has allowed me to save and prepare for my education in years to come. The requirements were easy and beneficial, which is much appreciated.</p>
<p>This program has really helped me with providing free books and free courses for both years at Crafton. I also found the workshops requirements extremely helpful with teaching me important tips for my future careers, communication, and schooling. I was able to learn a lot from these workshops and it helped me with staying organized with my assignments. This program also helped with making sure I took my required classes that would have me graduate from Crafton in two years.</p>
<p>This program took a lot of weight off my shoulders after my father lost his job, my grades are still on the mend as things have been stressful still, but I know that I won't be drowned in debt. It has kept me engaged in continuing my education, and is a critical step in my journey forward.</p>
<p>Yes it helps me keep on track.</p>
<p>You have made it possible for me to attend classes and workshops free of worrying about how I am going to pay for them. I greatly appreciate this opportunity</p>
