

## Proposed SLO Cloud Updates for SAO Submissions

1. Change the name of the platform to *Outcomes Cloud*
2. Add a *Reports* function for submitted SAO information... this is currently only available for SLO submissions.
3. Link *Proposed Actions* to each outcomes statement
4. Include definition to rubric values (will need to agree on rubric definitions) – have rubric items above then hover
5. Allow mapping of multiple GEOs, ILOs, and SDs per outcomes statement – Faculty Chairs want to define mappings behind the scenes so that they are defaulted.
6. Consider eliminating *General Education* mapping for Student Services and Admin Services
7. Consider eliminating the *ILO* mapping requirement for Admin Services
8. *Proposed Actions* offered per SAO statement
9. *SAO Statement label on table* changed to *Outcomes Statement*
10. Add method of assessment in SAOs
11. Explore adding method of assessment in SLOs
