

## **SLO**

### **CD 105 Child Growth and Development**

1. Analyze major developmental milestones for children from conception through adolescence in the areas of physical, psychosocial, cognitive, and language development using standard research methodologies.
2. Analyze how social, economic, political, historical and cultural context affect children's development.
3. Compare and contrast various theoretical frameworks that relate to the study of human development.
4. Using investigative research methodologies, apply developmental theory to the analysis of child observations, surveys, and/or interviews.
5. Differentiate characteristics of typical and atypical development at various stages.
6. Analyze the importance of the early years and the effects of interaction between maturational processes and environmental factors on various areas of development.
