

Student Learning Outcomes for Emergency Management Courses

Disaster Basics

PBSF 100

- Differentiates basic knowledge of important features and dynamics of disaster programs and activities.
- Demonstrates basic knowledge of disaster activities from incident response to recovery operations.

The Emergency Manager: An Orientation to the Position

PBSF 101

- Integrates the activities of all stakeholders to achieve a common purpose during a disaster.
- Uses Knowledge of resources and capabilities to network functions in all phases of hazard response.

Principles of Emergency Management

PBSF 102

- Integrates the activities of all stakeholders to achieve a common purpose.
- Develops and sustain relationships among all stakeholders.
- Integrates emergency planning into overall community planning.

Emergency Planning

PBSF 103

- Conducts analysis of hazards, phases, stakeholders and all impacts relevant to disasters.
- Employs emergency planning to mitigate against, cope with and recover from a disaster.

Effective Communication

PBSF 110

- Facilitates effective communication between stakeholders.

Introduction to Hazard Mitigation

PBSF 115

- Reduces community vulnerability through hazard analysis and mitigation.
- Builds and implements a community hazard mitigation plan.

Introduction to Hazardous Materials

PBSF 116

- Uses risk management principles to identify hazards, and conduct analysis of risk and impact.

Exercise Design

PBSF 120

- Integrates training, equipment, and planning to design and develop a small-scale functional exercise.

Introduction to Exercises

PBSF 121

- Utilizes an exercise program to build disaster-resistant and disaster-resilient communities.

Exercise Evaluation and Improvement Planning

PBSF 122

- Evaluates behaviors or activities against exercise objectives to develop an exercise improvement plan.

The Role of Voluntary Agencies in Emergency Management
PBSF 125

- Collaborates and coordinates with voluntary agencies to mitigate against, prepare for, respond to and recover from disasters.

Developing and Managing Volunteers
PBSF 126

- Conducts development and evaluation of volunteers to improve the capability of a community to respond to and recover from a disaster.
