**Overview**

This brief provides information on Total FTES from 2009-2010 to 2013-2014 by location, term, and academic year. In addition, the number and percent change in Total FTES is provided from 2012-2013 to 2013-2014 as of April 15, 2014.

**Methodology**

The Spring 2014 Total FTES number will fluctuate in the next two months because of late start enrollments and positive attendance reporting. Total FTES includes both resident and non-resident FTES and is an indication of the total number of full-time equivalent students served in the San Bernardino Community College District. The Total FTES numbers provided here will not match what is reported in the 320 report because the 320 report only reports resident FTES and the reporting is not done by term (i.e. resident FTES from the summer can be split between reporting years).

**Findings**

The Total FTES for the District has increased from 13,396 in 2012-2013 to 14,300 in 2013-2014, a 7% increase. Overall, Crafton has had a 10% increase in Total FTES and Valley has had a 5% increase in Total FTES.
