

Resolution S08.03: Implementation of the FW Grade

Whereas, hundreds of students every semester receive a grade of F for courses they were not attending but failed to drop;

Whereas, a grade of FW would provide more accurate information regarding student achievement, distinguishing between students unable to earn a grade higher than an F and students who simply failed to drop a course they no longer were attending;

Whereas, the accuracy of such information could prove pivotal for Financial Aid and Veterans Affairs, and would be more informative for advisement by Counseling, EOPS, and DSP&S,

Resolved, That the Crafton Hills College Academic Senate recommend the implementation of the FW grade for students who have stopped attending but have failed to withdraw from a course officially.
