

Faculty Position/Petition to Retain Copy Center Services on the CHC campus

Given the vital role the Copy Center plays in helping to create an effective instructional environment for faculty and students on the Crafton Hills College campus, approximately forty faculty have indicated that they do not support ANY suggestions, attempts, or conversations focused on eliminating that necessary on-campus service.

Further, we believe that the Crafton Hills College administration should return the Copy Center to a fully functioning area by replacing the FT employee position that was lost in the Copy Center several years ago through attrition (retirement).
