## **PAGE 5: Pilot College Involvement**

**Q16: Why do you want your College involved in being a PILOT college for Education Planning / Degree Audit System Development?**

Crafton Hills College is a small Hispanic serving college with limited resources within a multi-college district. We have experienced 18% growth this semester and are expecting to grow further. We want to develop the capacity to serve our growing and increasingly diverse population with the successful strategies outlined by the Student Success and Support Program. Our core team, which includes college and district personnel, continues to implement electronic education planning and degree audit technologies, however, these have been of limited utility to the college. We are excited to be at the table in this important statewide project.

## **PAGE 6: Support, Roles and Responsibilities**

Given the short timeline, we will ask to place this on the Senate agenda at the earliest opportunity in the Fall.

**Q18: Does your President / Superintendent / CEO support this application?**

Yes, enthusiastically.

**Q19: Have you read the "roles and responsibilities for PILOT Colleges" portion of the charge document and do you agree, and will commit to expectations?**

Yes
