

## Crafton Hills College (CHC)

### SLO/SAO Assessment Cycle

Dear Faculty, Staff, and Administrators

The Crafton Hills College Outcomes and Assessment Committee has developed an additional method for collecting learning outcomes information for Accreditation Reporting. Outcomes information needs to be collected for each course, program, student service, general education learning outcome, and institutional learning outcome. If you have any questions, please contact Cheryl Marshall at 909-389-3202 or Gary Williams at 909-389-3567 .

Name

Instructional Program or Service Area

What type of learning outcome are you reporting?

--Click Here--

Is the outcome you are reporting a course level outcome or a program level outcome?

--Click Here--

**1. Learning Outcomes Statement (Example: Students will be able to successfully engage in basic conversation strategies in Chinese.)**

**5. Use of Results (Implications for Program Improvement & Planning)**  
 (Example: The Chinese Department was satisfied with the results, but they plan to address some of the fluency issues this year. They will create a study group in the Language Success Center to give students more opportunities to improve their fluency. They will also add activities in class to practice fluency. At the end of Chinese 2 in Spring 2009, they will assess the student using the same rubric.)

**2. Means of Assessment (Measurement Method)** (Example: An oral interview was conducted with each student in Chinese 2. Each student was graded on a rubric form. Rubric forms were processed and analyzed by the Office of Research and Planning.)

If you do not have a Use of Results for this outcome what is the estimated date for when you will have one?

If you do not have a Means of Assessment for this outcome what is the estimated date for when you will have one?

**4. Summary of Evidence**  
(Example: 93% of students scored 3 or higher overall. Between 85 and 95% of students scored at level 3 or higher on each rubric item. The lowest scoring categories were fluency and word order.)

If you do not have a Summary of Evidence for this outcome what is the estimated date for when you will have one?

**3. Criteria for Success (Benchmark)** (Example: 70% of students will be rated at 3 or higher in all five areas. No students will score 1 in any category.)

If you do not have a Criteria for Success for this outcome what is the estimated date for when you will have one?

If you set a criterion (benchmark) in Step 3 and provided evidence in Step 4, did you meet the benchmark?
