

Program Review

Unit Categories

Category 1 – Units that have value, or had value in the past, strong evidence that they are salvageable (may lack a champion, may need to be brought up-to-date, might need new facilities, faculty, or an infusion of other resources)

Category 2 – Units that may need to end as a result of continuing problems and poor performance

Category 3 – Units that generate attention, students, are growing and may be highly entrepreneurial

Category 4 – Units that are fundamental to a college education or contain core courses that support other programs and units

NOTES:

Category placement results from discussion among all committee members

Purpose – a mix of programs at the college level to maintain college health
