

Crafton Hills College - Outcomes Assessment Report

Course: CD-100

Term: 2010 Fall

1. Learning Outcomes Statement

Demonstrate the ability to analyze, in written format key issues in Early Learning.

2. Means of Assessment (Measurement Method)

Qualitative essay.

3. Criteria for Success (Benchmark)

4. Summary of Evidence

There were students in this course that opted not to complete both parts of the assignment. This raises a pattern of low student engagement on the part of some, who settled for a passing grade while not completing all elements of the class. Majority of assignment completers showed improvement. A majority of non-completers realized that they were destined to fail the class which also played a role in their decision not to complete.

5. Use of Results (Implications for Program Improvement & Planning)

No changes are planned for next fall. Would like to discover how many were identified as basic skills students, with the help of ORP. Suggest early intervention with tutoring services. Identify basic skills students following the first assignment.
