# Research to Drive Campus <br> Conversations on Student Success 

## Prepared by Keith Wurtz

## Director, Office of Research \& Planning

## Today we'll cover:

- Working toward a "Culture of Inquiry" - Data, Evidence, College Decision-making, Student Success, and You...
- Strategies Related to Student Success
- Equity Research
- Basic Skills Improvement

## Ground Rules

- Ask lots of questions - especially nagging and tough ones
- Data doesn't make meaning; we make meaning from data

# Data, Evidence, College Decisionmaking, Student Success, and You... 

## How do colleges make good decisions ?

```
If you want to learn you have to take part in the conversation
```

"Learning emerges from an ongoing
conversationabout things that matter with
both passion and discipline

Learning is founded on evidence and inquiry

-Parker Palmer<br>The Courage to Teach

## Framing Thought \#1

- "Data do not speak for themselves. What is also needed are occasions that bring educators together to examine evidence about student learning, reflect on its meaning and identify approaches that yield better results."
- Carnegie Foundation (2009)

## Framing Thought \#2

- Decision making in complex systems is a highly social process, not solely an intellectual exercise.
- The process is composed of many small acts, carried out by different people at different points in time.

## Institutional Research (IR) \& You

- IR is about helping the college and its practitioners make better decisions
- We are using non-experimental data to examine behavior in complex human systems
- We are not seeking absolute truths; rather we are looking for patterns of evidence that inform actionoriented decisions

# Office of Research \& Planning Mission Statement 

- "The purpose of the Crafton Hills College Office of Research and Planning is to collaborate with faculty, administration, staff, and students to provide high quality educational programs and services by integrating institutional research, planning, analysis, and systematic assessment to inform evidenced-based decision making and learning..."

## Collaborative Model of Institutional Research

## Primary Responsibility

## Ten Year Trend for Common Institutional Outcome Measures

What does this tell us about the usefulness of these metrics in setting institutional strategies?

## An Observation

Much of what is needed to support good decision making lies beyond the current grasp of our institutional databases.

## What is Our College's Transfer Rate?

## What is Our College's Transfer Rate?

## What is Our College's Transfer Rate?

## A Look at Three Areas

- Strategies Related to Student Success
- Equity Research
- Basic Skills Improvement

## Strategies Related to Student Success

## SOA ${ }^{3}$ R - Senior Orientation, Application, Assessment, Advising and Registration

- Students who participate in SOAR are more likely to successfully complete courses with a "C" grade or better and are retained (formally known as persistence) from one term to the next than
students who do not participate in SOAR

## Counseling Services

- Students who see a counselor are more likely to successfully complete courses with a "C" grade or better and are retained (formally known as persistence) from one term to the next than students who do not see a counselor

## Health Services

- Students are more likely to successfully complete a course with a "C" grade or better when they receive services from the Health and Wellness Center.

## Enroll Full-Time (12 or more units)!

- Students are more likely to be retained (formally persist)
from fall to fall when they enroll in 12 or more units

## College Life (CHC) and Personal Career Development (PCD) Courses

- Students enrolled in CHC or PCD likely to successfully complete concurrently enrolled courses with a "C" grade or better and are retained (formally known as persistence) from one term to the next than

students not enrolled in CHC or PCD courses.

## Learning Communities

- Students in Learning Communities are more likely to successfully complete the course with a "C" grade or better and are retained (formally known as persistence) from one term to the next than students in Stand-A-Lone Courses

## Summary of Successful Student Behaviors

## Students are more likely to be successful if they:

- Participate in SOA ${ }^{3}$ R (Senior Orientation, Application, Assessment, Advising and Registration)
- See a counselor on a regular basis
- Utilize the campus health services if needed
- Enroll full-time (12 or more units)
- Enroll in College Life (CHC) and/or Personal Career Development (PCD) courses
- Participate in highly engaging programs like learning communities

How can you use the research on Strategies Related to Student Success to help students?

## Equity Research

## Crafton Student Demographics

## Fall 2010 Crafton Students ( $\mathbf{N}=\mathbf{6 , 2 0 4}$ )

| By Ethnicity | $\%$ |
| :--- | :---: |
| Asian | 6.4 |
| African American | 4.6 |
| Hispanic | 32.1 |
| Native American | 0.7 |
| Caucasian | 53.4 |
| Unknown | 2.8 |
| By Gender | $\%$ |
| Female | 52.1 |
| Male | 47.7 |
| Unknown | 0.2 |

| By Age | $\%$ |
| :--- | :---: |
| 19 or younger | 33.3 |
| $20-24$ years old | 36.4 |
| $25-29$ years old | 12.3 |
| $30-34$ years old | 5.7 |
| $35-39$ years old | 4.1 |
| $40-49$ years old | 4.8 |
| 50 years old or older | 3.4 |
| Unknown | 0.0 |

| Fall 2010 average age was 24.5 |  |

Asian, African American, and Hispanic Students Enter CHC with Lower College and Transfer Level English Placements than White Students

> Percent of Students Placing into College or Transfer Level (Not Basic Skills) English: 2009-2010

College level courses are courses that are degree applicable (OXX).
Transfer level courses are courses that are transferable (100 or higher) to the California State University (CSU) and the University of California (UC).

African American and Hispanic Students Enter Crafton with Lower College and Transfer Level Math Placements than Asian and White Students

> Percent of Students Placing into College or Transfer Level (Not Basic Skills) Math: 2009-2010

College level courses are courses that are degree applicable (0XX).
Transfer level courses are courses that are transferable (100 or higher) to the California State University (CSU) and the University of California (UC).

## Hispanic and African American students at Crafton have the lowest success rates in basic skills courses

Basic Skills Course Success Rate by Ethnicity 2009-2010

[^0]African American, Hispanic, and Native American students at Crafton have the lowest success rates in degree applicable and transfer level courses.

## Degree Applicable and Transfer Level Course Success <br> Rate by Ethnicity: 2009-2010

Pass Rate - percent of students earning an A, B, C, or P grade.
Non-Basic Skills Course - a course that is degree applicable (OXX) or transferable (100 level or higher) to a CSU or UC.

## Summary of 2009-2010 Placement Results and Success Rates by Ethnicity

| Ethnicity |  <br> Transfer <br> English <br> Placement |  <br> Transfer Math <br> Placement | Success in <br> Basic Skills <br> Courses | Success in <br> Degree and <br> Transfer Level <br> Courses |
