

**Crafton Hills College
 Planning and Program Review Committee
 Noninstructional Program Effectiveness Evaluation Rubric**

Variable	Rating	Score	Comments
Outcomes: Process	3 = Outcomes have been defined, assessed and evaluated; all needed improvements have been identified and implemented or scheduled for implementation. 2 = Outcomes cycle is partially complete. 1 = Outcomes cycle has not been started or is so poorly executed that it is virtually useless.		
Outcomes: Results	3 = Results indicate that the program is serving its clients very effectively in all or almost all outcome areas, and that few, if any, improvements are needed; if any improvements are needed, all are identified. 2 = Results indicate that the program is serving its clients moderately effectively, or effectively only in some outcome areas, and that some improvements are needed; most or all improvements are identified. 1 = The program has not yet obtained useful results, or results indicate that the program is not serving its clients effectively and that substantial improvements are needed.		
Other Effectiveness Measures	3 = At least one additional, useful effectiveness measure has been defined and applied; results indicate that the program is serving its clients very effectively, and that few, if any, improvements are needed; if any improvements are needed, all are identified. 2 = At least one additional, useful effectiveness measure has been defined and applied; results indicate that the program is serving its clients moderately effectively, or effectively only in some outcome areas, and that some improvements are needed; most or all improvements are identified. 1 = No additional effectiveness measure has been applied, or the program has not yet obtained useful results, or results indicate that the program is not serving its clients effectively and that substantial improvements are needed.
