

## *President's Board Report* *July 21, 2011*

### Construction Changes Face of Campus

Road closures, parking lot and walkway closures, and buildings coming and going—these are pretty exciting times on the CHC campus. The Parking, ADA Access and Lighting Improvements (PAL) have already resulted in great improvements to several lots and walkways. The ADA enhancements will provide a ramp-worthy walkway, refreshed landscape installations, and new stairs all the way from the lots to the center of campus. The new Science and Math modules for the Math and Science Annex are being placed, roofed and finished. The old Library has been surrounded by temporary fencing in anticipation of its demolition this month.

### Owls Rescued from Cafeteria Building

Two very young owlets fell out of their nest on the west side of the cafeteria. Crafton M & O Supervisor Larry Cook graciously offered his services and a lift to try putting them back into the nest. In consultation with the Fish and Game department, the owls were successfully put back in their nest. Thanks to Larry and Pat for risking their fingers to put them back!

## Child Development Graduation

## President Harrison Honored

California's 63rd District Assemblyman Mike Morrell continued Senator Bill Emmerson's seven year legacy of honoring 63 Women of Distinction at a recent ceremony held in Ontario. Of those, five were from Yucaipa. Crafton Hills College President Gloria Macías Harrison, shown above left with Assemblyman Morrell and Trustee Donna Ferracone, was recognized for her dedication to a wide range of civic activities, and her more than 20 year commitment to education.

She has been a governor's appointee to the California Commission on the Status of Women and served on the California Council for the Humanities at SBVC for three years, serves on the Community Foundation, the San Bernardino Symphony Association, on the Board of Directors for St. Bernardine's Hospital, is active in Kiwanis, Planned Parenthood, and the Crafton Hills College Foundation, along with many professional organizations. She has been the recipient of numerous civic and professional awards and honors.

President Harrison said, "I'm very appreciative of this honor and of being part of the people of Yucaipa."
