I think these are good!
Update SLOs with more recent versions worked on with Dean Hogrefe.
Throughout the course of the semester students learned the above learning objectives and were successful through written test and small group exercises. A firm understanding and the ability to use the information lay the foundation for their fire academy success and contributions to the communities they will serve.
Suggest student to do the observation at the Deaf event. They go and watch their behavior of greeting, goodbyes, ages, and how many Deaf and hearing attend to the events.
Implement a famous Deaf people project in the course.
