IVA CHONG

**LIBERAL ARTS MAJOR AND
 2005-2006 AGS PRESIDENT**

"College here has helped me find direction for a future career," said 20-year-old Iva Chong, who was born in Guangdong, China and lived most of her life in Hong Kong. "In the United States, there are more opportunities to choose what you want to do in life."

In 2003, Chong graduated from Redlands East Valley (REV) High School, where she was attending school as an exchange student. "I like going to school in America," Chong said. "You can learn here, not just get a good grade; and once you get a college degree, you can start in a career you choose."

Chong's parents, younger brother, and younger sister, who live in Hong Kong, are supportive of her college endeavors.

"In the United States, there are opportunities all around you," she said. "People here should appreciate their freedom in all areas of their life, not just school. But one has to have a goal and a good education in order to change one's life and the lives of others around them."

In addition to speaking English, Chong knows three Chinese dialects -- Mandarin, Cantonese, and Hakka. Her educational goal is to earn a degree in international business.

At CHC, Chong, who has a 3.9 grade point average, has taken a diverse selection of classes, including business law, accounting, theatre arts, economics, speech, statistics, English, algebra, biology, and music. "It helps me learn different things," she said. "I can choose the areas I find interesting and not be pushed into something I don't like."

She is president of the CHC chapter of Alpha Gamma Sigma (AGS), a student honor society comprised of outstanding students dedicated to community service. Each year, AGS sponsors a Christmas party for boys, aged six to 16, who were taken away from their parents. AGS also raises funds for student scholarships.

Chong is also a student tutor in the CHC Math Center, and she is listed in "Who's Who Among American Junior Colleges."

"CHC helped prepare me for a four-year school and helped me see if my major is really what I want to pursue," Chong said.

PATTY DALLMEIER
RESPIRATORY CARE MAJOR

Patty Dallmeier, 48, always longed to have job in the health field.

"I wanted a job that required more 'hands on' contact with the patients," said Dallmeier, a re-entry student. "I like being with people and helping them."

Dallmeier chose Crafton Hills College to attend college because of the outstanding reputation of the Respiratory Care Department. Also, she took classes at the college in 1985 and liked it, and her brother-in-law and sister-in-law have taken classes at CHC.

"Going to college has given me the opportunity to succeed," Dallmeier said.

"It has helped me develop my self-esteem, my confidence, and my personal life. It's given me a sense of self-worth and shown me that I can accomplish something once I set my mind to it."

"The professors have put a lot of excitement and encouragement into my learning, and I get an overwhelming sense of wanting to learn more," she said.

"I look on them as my role models."

Dallmeier was awarded the Donald W. Hunt and Learning Resource Scholarships in 2005.

The Donald W. Hunt Scholarship is for a student in a health related field who has earned a 3.0 grade point average or higher. The Learning Resource Scholarships are awarded to students who have shown progress and consistency in following a program of study by completing course work in a timely manner.

"These scholarships help reduce my stress level because it helps finance books and supplies," Dallmeier said. "To give me this support to succeed shows me that the Foundation has faith in me. That adds to my confidence."

Dallmeier's goal is to become a Registered Respiratory Therapist and "give the highest quality care I can in my profession."

**GABRIEL OCASIO
 BUSINESS MARKETING MAJOR**

"There are a lot of good teachers here," said 21-year-old business marketing major Gabriel Ocasio. "They give so much of themselves to the students. They care about what you're doing in the class and about what you're going to do in the future. They make sure we have all the information we need to succeed."

Ocasio particularly praised Dr. Donald Schall, business law instructor. "Dr. Schall is an inspiration to me," Ocasio said. "He has had a lot of experience that he brings to the classroom. He has taught us how important critical thinking is in the field of law. We've learned that you have to organize your thoughts, take everything step by step, and match the rules of law to the facts."

"He wants to make sure we succeed, so he always makes himself accessible to us," said Ocasio, who has a 3.7 grade point average. "He pushes us to do our best."

Ocasio also praised business instructor Bob O'Toole and economics Instructor Farhad Mansourian. "They want to make sure the students understand," he said. "They care."

Ocasio originally decided to attend CHC because he wasn't sure about what he wanted to do and the college was close to home and affordable. Also, he had always heard that transferring from CHC to California State University San Bernardino (CSUSB) was a smooth transition.

Ocasio credited the job fairs held at the CHC campus quadrangle with getting him interested in business and helping him learn about higher education opportunities. "At the job fairs, there are a lot of great people helping you out with what you're going to do after CHC," he said.

In addition to his academic pursuits, Ocasio is a member of the CHC chapter of Alpha Gamma Sigma (AGS). "AGS is a community service based honor society," Ocasio said. "I was always raised that when you live in a community, you should be proud of your community and give back to it. It's something I like doing. It just seems a natural thing to go in and help people out."

Ocasio plans to transfer to CSUSB in business and eventually attend law school.

ELSA MONTES

BUSINESS GRADUATE -- CLASS OF '87

"My experience at Crafton Hills College was an affirmation that college was for me," said Elsa Montes, vice president of Membership Services at Arrowhead Credit Union. "It was very encouraging. It made all the difference in my career."

Montes, 39, originally began attending CHC in 1984 after graduating from Aquinas High School in San Bernardino. She believes many people either think they can't afford college, or they've never considered the possibility that they could be college students.

"College gives people opportunity and confidence," she said. "Once you learn your options and capabilities, there is a transformation from who you are to who you think you can become."

When Montes originally chose CHC, she was not sure what field she wanted to study. At CHC, Montes discovered that she enjoyed everything about college—the classes, the library, the cafeteria, the people, and the whole ambience of the campus.

"CHC was such a nice transition between high school and a four-year college," she said. "I loved the complete package. The whole college life felt right to me. I just felt so proud to walk across campus with my backpack. It was exciting to be a part of something new in my family."

Montes particularly appreciated the accessibility and helpfulness of the faculty and staff. "They were very professional," she said. "The two years at CHC were akin to the first two years at a four-year school. It was a university type atmosphere and university type teaching."

Montes also praised the Financial Aid Office. "I was a financial aid student," she said. "I qualified for financial aid, which helped me stay on track with my goal of completing my bachelor's degree in five years."

After earning her associate degree in business administration at CHC, Montes attended California State University, San Bernardino (CSUSB). At CSUSB, in 1989, she earned a Bachelor's in Science (BS) degree in business administration with a concentration in marketing. In 2000, she earned a Master's Degree in finance at CSUSB.

ASSISTANCE PROGRAMS

Financial Aid

If you need help with the costs of attending CHC, the Financial Aid Office, may be able to help you. No student should be denied access to the educational experience because of lack of funds. The Financial Aid Office makes limited funds available to assist students in need. The office has information on the Pell Grant, California State Grants, College Work Study, Student Loan Programs, Perkins Loans, and Fee Waivers.

Any student or potential student is encouraged to inquire about the eligibility requirements for receiving financial aid. Since financial aid opportunities and regulations change periodically, you should check with the Financial Aid Office each semester, regardless of how successful you were in obtaining aid in the past. See more information about financial aid in this schedule. Phone # (909) 389-3242

Extended Opportunity Programs and Services (EOPS)

Extended Opportunity Programs and Services (EOPS) is a state-funded program designed to assist in the admission and matriculation process of historically disadvantaged, low-income students. The aim of the program is provide the necessary encouragement, support, and assistance to develop or redirect the abilities of these students to the fullest so they may undertake and complete the challenges of a higher education.

Support services include tutoring, academic counseling, financial aid assistance, and other related expenses. Check the EOPS Office for the latest criteria. Phone # (909) 389-3241

California Work Opportunities and Responsibilities to Kids (CalWORKs)

The CHC CalWORKs program is available to assist any student or community resident who is receiving cash aid from the county and is interested in attending college.

The goal of the CalWORKs program is to help students receiving cash aid from the counties to become independent. CalWORKs provides short-term educational training programs designed to assist students in obtaining employment. The programs assist these students in successfully completing an approved certificate/occupational program and provide employment experience. CalWORKs also provides necessary child care support. Phone # (909) 389-3208

Disabled Student Programs and Services

CHC seeks to make its programs available to disabled individuals in the community to the same extent these programs are available to non-disabled individuals. Services include note-takers, tape recorder loans, readers, test proctoring, large print books, on tape, tutoring, mobility assistance, handicapped parking, interpreters for the deaf, preregistration, and adapted computer technology. A program to support learning disabled students is also provided. Any student with a history of learning problems is encouraged to make an appointment with the specialist. Phone # (909) 389-3325

(For more information about CHC Student Services, see table of contents)

DAVID GARVIN
COMPUTER INFORMATION SCIENCES

Being an avid video game player, as well as being one who enjoys navigating computers, Crafton Hills College student David Garvin decided to investigate a career in computers. He also discovered an interest in business.

Garvin decided to major in computer science and in marketing at CHC.

In addition to his studies, Garvin has taken advantage of internships offered through the CHC Work Experience Program, which offers students the opportunity to receive college credit based on their employment.

"(Work Experience Coordinator) Kim McCormick knows her program," Garvin said. "She is a great person and a great instructor."

"You have to get as much experience as you can and be constantly updating your skills for work in this field," Garvin said. "It's always changing; there's always something new."

He has worked as a web master intern and, more recently, completed a marketing internship for the San Bernardino National Forest Association (SBNFA), where he promoted the organization's volunteer program.

"After my web-master's internship, I decided to go into graphic design," said 21-year-old David Garvin. "I've always wanted to teach computer science with a focus on the web."

He is currently a student worker at the San Bernardino County Superintendent of Schools, where he helps with web-development. Additionally, Garvin, who wants as much experience as possible, is working as CHC computer lab assistant.

He enjoys attending CHC because of the beautiful campus and excellent instructors.

Bob O'Toole, business and accounting instructor, is another of Garvin's favorite instructors. "He involves the students and he is always willing to help you," Garvin said.

Garvin's goal is to attend California State University, San Bernardino (CSUSB) after he graduates from CHC. He plans to have a career as a graphics artist, making graphics for t-shirts and websites, and utilizing his marketing skills with event and business imaging. He also wants to teach web design.

**KEN DALE
KAISER HOSPITAL EMERGENCY
MEDICINE PHYSICIAN
CLASS OF '85**

"I felt that Crafton Hills College was a place where I could find instructors with professional accomplishment," said Kaiser Emergency Medicine Physician Ken Dale. "It's one of the longest standing college paramedic programs in the country with an absolutely phenomenal reputation."

Dale originally chose to attend the CHC Paramedic Program in 1985 because he believed it was a "wonderful stepping stone to be a physician."

Dale, 47, has been the attending emergency physician at Kaiser for three years. Prior to that, he was the emergency physician at St Bernardine Medical Center for six years, and he worked as a resident physician at Martin Luther King Jr. Hospital in Los Angeles for three years. He is a graduate of the Western University of Health and Sciences in Pomona.

In 1979, while attending CHC, Dale initially did not have the grades to get into the program. The experience motivated him to work even harder to achieve the goal of becoming a paramedic. He completed an emergency medical technician (EMT) II course via a CHC off-site program and worked for a local ambulance company. Then, he earned a BS degree in biology at California State University San Bernardino in 1985.

He returned to CHC and entered the CHC Paramedic program. In addition to requiring paramedic students to work rotations for ambulance services, the CHC Paramedic Program requires the students to obtain experience working in hospitals.

"The clinical training is very important," Dale said. "You get exposed to hospital protocol and other experiences that you don't see as an EMT."

"It gave me the job skills I needed to work in emergency medicine," Dale said. "You can only learn it by living it."

According to Dale, the paramedic instructors at CHC, comprised of paramedics and emergency nurses, are renowned for having high standards for the students. He described the CHC paramedic teaching staff as professional, demanding, competent and accessible.

"They don't 'cut you any slack,'" Dale said. "When you pass that program, it certifies that you are prepared to provide care in a life threatening situation. When I completed that program, I was very, very prepared."

Levels and Order of English Classes

The ability to think and reason and communicate using written language is an essential skill. There are several possible starting points for you to enter at the right level. Starting at the right class will let you move from class to class successfully and get to the point you need in the shortest amount of time. A Counselor can show you the skills needed for each class and help you decide.

LRC 900X4 Learning Resources Laboratory

0.00 Unit

Provides academic support services to students enabling them to succeed in various content area classes, such as English, Math, Science, and Foreign Language, and vocational courses. Activities may include supervised individual or group tutorial services, computer-assisted instruction, video viewing and testing.

Graded on Credit/No Credit basis only.

Noncredit Course

Note: LRC 900X4 may be taken 4 times

COREQUISITE: Enrollment in at least one other course at CHC.

**ALL students registering in LRC 960x4
MUST report to the Learning Center during the first week of class.**

LRC 960X4 Developmental Study Techniques

0.50 Unit

This course provides participation in programs individually designed to assist students in their mastery of basic study techniques.

Not Applicable to the Associate Degree

Note: LRC 960X4 may be taken 4 times

MARKETING

MARKET 100 Marketing Principles 3.00 Units

Principles and methods of marketing as practiced by all successfully managed business firms; covers such topics as demand analysis, forecasting, product development, price determination, distribution channels, material handling, advertising and personal selling.

Associate Degree Applicable

Course credit transfers to CSU.

DEPARTMENTAL RECOMMENDATIONS: ENGL 015; Reading: Pass a standardized test of reading comprehension at or above the 12th grade level or equivalent

0588 01 TH 07:00p-09:50p LEC 3.00 BC-104 GruIke,K

MARKET 110 Advertising 3.00 Units

Principles, purposes, and practices of advertising; analysis of the channels of trade, the importance of the correct appeal, style, trademarks, headlines, typography, color, layout, ethics, and other problems involved in effective advertising. No artistic ability required.

Associate Degree Applicable

Course credit transfers to CSU.

DEPARTMENTAL RECOMMENDATIONS: ENGL 015; Reading: Pass a standardized test of reading comprehension at or above the 12th grade level or equivalent

0590 01 TTH 09:00a-10:20a LEC 3.00 BC-104 O'TooIe,R

MARKET 198 Marketing Worksite Learning 2.00 - 4.00 Units

Direct on-the-job experience. Students will develop goals and objectives that demonstrate critical thinking and problem solving skills within the context of a specific discipline/job.

Associate Degree Applicable

Course credit limited transfer to CSU. Contact a counselor for details.

PREREQUISITE: Completed or currently enrolled in a marketing course

COREQUISITES: Enrolled in at least seven units, including MARKET 198.

Must be working either paid or unpaid at a job directly related to the student's marketing educational or occupational goal

0592 01 ARR 10 HRS/WK WRKEX 2.00 OE2-205 McCormick,K

NOTE: Students must attend ONE class meeting. Choose ONE class from the following: Monday, August 14 or 21, 1-3 p.m. or 5-7 p.m. OR Thursday, August 17 or 24, 1-3 p.m. or 5-7 p.m.

If purchasing a used book for MATH 952, new software must be purchased at an additional expense.

MATH 952 Prealgebra 4.00 Units

This course prepares students for elementary algebra, MATH 090, providing a transition from arithmetic to algebra, covering operations with signed numbers, solving simple single variable linear equations, combining like terms, ratios, proportions, percents and their applications, perimeter, area, and volume of common geometric figures. Fractions and decimals are reviewed throughout the course.

Not Applicable to the Associate Degree

PREREQUISITE: MATH 942 or equivalent according to Crafton Hills College placement procedures

of books and supplies in your expenses calculations!

Levels and Order of Mathematics Classes

The ability to think and reason using mathematical concepts is an essential skill. There are several starting points for you to enter at the right level. Starting at the right class will let you move successfully from class to class and to get to the point you need in the shortest amount of time. Start with the assessment test in the Counseling Center. Based on your eligibility determined on the assessment, choose the statement that best describes you, meet with a counselor to discuss the path and to be sure all prerequisites are cleared and follow that path. A counselor can also show you a sheet with the skills needed for each class and help you interpret the assessment scores. They also have a more detailed sheet explaining the differences between MATH 102, 108 and 115.

LUCAS SUTTER
ENGLISH MAJOR

English major Lucas Sutter, 26, was initially reluctant to get up in front of a speech class because he believed that he was more of a writer than a speaker.

By the end of his first semester, this fall, he was awarded first place in an annual intramural speech contest for his presentation on the "History of the Nobel Peace Prize."

Lucas originally signed up for an introductory speech class because it was a requirement for transfer to a four-year school in his major. During the class, he discovered that writing and speech are interrelated.

"That's one of the reasons I like writing. You have to express yourself in as clear and specific a way as possible in both writing and speaking."

Lucas praised Instructor Vonda O'Shaughnessy for helping him succeed in his speaking endeavor. "I would never have been involved in the tournament without her support," he said. "Besides gaining confidence in speaking, I became more comfortable with who I am. It was her belief in me that made me think, "Hey, maybe I could be good at this."

"Speaking successfully requires writing a quality speech and delivering it with confidence and conviction," Sutter said.

In addition to writing and speaking, Sutter's main love is music.

"Music is my passion," said Sutter, who plays the drums. "My choice of English as a major revolved around the idea of wanting to create."

Another factor in his decision to major in English is that he realized "99 percent" of his role models were writers, such as J.D. Salinger, C.S. Lewis, and Bill Cosby.

"I'm super excited about being here," he said. "English Professor (Bret) Scaliter has taken so much interest in my work and has been so encouraging."

"I definitely feel like I'm becoming a better writer and I'm constantly learning new things," he said. "I'm having the time of my life. I feel like I'm really accomplishing something."

Sutter plans to transfer to the University of Redlands or California State University in San Bernardino and major in creative writing and literature.

"What you get out of college depends on how much you put into it," Sutter said. "I'm definitely in college for the learning. Deciding to go to college was the best decision I've made."

MUSIC

MUSIC 101 Music Theory I 3.00 Units

First course in a progressive study through four semesters includes work in sight singing, dictation, rhythm, scales, intervals, key signatures, and harmonic techniques from the Common Practice Era to Serialism. Open to both music majors and non-majors.

Associate Degree Applicable

Course credit transfers to both CSU and UC.

Note: Must be pre-approved for entry into the Registered Respiratory Therapist Program.

**John Sisk
Music Major**

"I've learned to dream big dreams and make them real," said John Sisk, 21-year-old Yucaipa resident and CHC music major. "I've turned my whole life around at Crafton Hills College. No matter who you are or where you've been, you can better yourself through education."

"You can make a difference in your family and in your community. All you have to do is make the choice."

Sisk discovered his love for music after attending Crafton Hills College.

"I was involved in music at a young age," Sisk said. "Coming to Crafton, I discovered music was something I had a passion for."

He credits Mark McConnell, music director at CHC, for his "encouragement and mentorship." Sisk plays several instruments in the college's jazz band, including piano and drums.

Sisk also acknowledges Art Assistant Professor Snezana Petrovic and Theatre Arts Assistant Professor Tom Bryant for being "amazing and inspiring."

While attending CHC, Sisk has participated in several campus organizations, including Alpha Gamma Sigma Honor Society (AGS), Multi-Cultural Student Union, and the Crafton Hills Composers' Collective. He is also president of the Arts League, which supports the fine arts on campus and promotes college art exhibits, concerts, and theatre productions.

Sisk utilizes his financial aid options at CHC, using the Pell Grant and the Bog Waiver. He appreciates getting a "more personal interaction with teachers while paying practically nothing."

He emphasized that lack of finances should not prevent a person from getting an education and recommended that all students check to see what financial aid opportunities and other student support services are available.

Aside from CHC, Sisk also teaches music lessons, specifically the drums, at *Yucaipa Music*, enabling him to share his love for music with others. Sisk recently applied to the California Institute of the Arts, which he believes to be a beneficial transition from CHC, since both schools are multi-disciplinary. He wants to eventually go into composition and performance.

Interested in a rewarding career earning \$18-\$22 per hour as a RESPIRATORY THERAPIST? CHC offers an accredited Associates Degree program. Lots of job opportunities.

Call (909) 389-3286 for more information.

ERA OF THE "SMART CLASSROOM"

The advent of faster computers, the Internet, digital equipment, and new software is giving instructors a whole new set of teaching tools to add to their repertoire.

At Crafton Hills College, the Technology Services Department equipped seven classrooms with the newest in technological equipment to enhance the teaching process.

The classrooms, called "Smart Classrooms," include projection devices, multimedia computers, smart boards, easy access Internet connectivity for laptops, enhanced sound, DVD players, and a host of other items specific to the needs of CHC's students and instructors. The instructor operates all the devices from a control panel in the corner of the classroom. The Smart Classrooms are in addition to the already existing computer labs and computer classes on campus.

"These Smart Classrooms have been strategically located throughout the campus and provide instructors with the ability to deliver sophisticated content to students in their courses," said Technology Services Department Head Ted Phillips.

Currently, the Smart Classrooms are being used in some of the psychology, speech, history, English, math, biology, chemistry, and health classes. CHC Instructional Media Technician Shane Veloni oversaw the creation of the Smart Classrooms and provides orientations to the presenters.

CHC speech Instructor Rick Hogrefe believes it is important for his students to be aware of the different types of technology widely used in modern day presentations.

"In this era, professionals who deliver speeches are expected to integrate technology effectively into their presentations," Hogrefe said. "Having the technology permanently installed in the classroom is great because it approximates what students will find once they are in the world of work."

"Students have come to expect technology in the classroom," he said. "Using even basic techniques such as MS PowerPoint to deliver lectures has led to increased student success in my speech communication classes."

"It's very motivating to be around this technology in class," said 26-year-old CHC student Andy Loera. "My first experience with this type of classroom was in history, and now I have a psychology class in one. What I like about it is that the instructors have access to the internet and can project the subject on the screen. It's visual and it's quick. It keeps you focused and makes you want to learn more."

Psychology Department Head T.L. Brink likes to utilize the PowerPoint set up and occasionally movies. "The students find the smart system to be very helpful and stimulating," he said. "The internet is the mainstay of my courses outside of the classroom."

**REUBEN HARRISON
THEATRE MAJOR**

"I was always interested in the technical aspects of theatre," said 21-year-old Highland resident Reuben Harrison, who is a CHC theatre major with an emphasis on theatre production. "I decided to enroll in theatre stagecraft, and I got 'bitten by the theatre bug.'"

Harrison initially chose CHC to attend college because he decided it would be a great stepping stone into a four-year college and it was affordable. Although he was originally a business major, Harrison had experience working with sound equipment and lighting at high schools, churches, and the Loma Linda broadcast-network.

"My experiences in theatre at CHC have been great," Harrison said. "I've stayed here an extra year because I enjoy theatre so much."

His work at CHC has led him to get involved in other endeavors, including working as a resident theatre technician at the Redlands Theatre Festival, starting his own sound company, and participating as a founding member of the CHC Arts League, a student club dedicated to promoting the fine arts on campus.

Harrison credits the CHC Theatre Program, headed by CHC Theatre Director Tom Bryant, with teaching him "how to get a show off the ground and how to work together as a team."

"You have to do what's best for everyone," Harrison said. "In theatre, your main goal is the success of the show."

"I also learned dedication," he said. "Theatre is a major investment of your time, and it is a test of your mental and physical capacity. I've spent many late nights hanging up lights and putting up sets."

"Tom (Bryant) is absolutely devoted to the students," Harrison said. "His goal is to get as many student productions up and running as he can. It gives students opportunities to get experience as technical designers, directors, writers, and actors."

"It's been an incredible experience. I've had a very, very good time here, learned an incredible amount, and I'm ready for the next step in my college education."

In addition to theatre, Harrison is a musician, playing in the CHC percussion ensemble. He also plays piano and guitar.

Harrison plans to transfer to a four-year university next year.
