Molino Family -- Class of '06 Graduates (Elizabeth, Silas, Alex, & Natalie)

"That I was able to graduate with my kids is terrific," said Alex Molino, 49, who signed up for college after deciding he wanted to change careers in mid-life. "We've always been a close family, so it's neat that it worked out this way. I feel really proud of them."

The Crafton Hills College 2006 Commencement ceremony was an especially memorable event for the Molino family, four of whom graduated together, including Alex, his two daughters, Natalie, 22; Elizabeth, 24; and his son Silas, 25.

Alex, who is earning a degree in business administration, credited his mom, Gloria Molino, for being their role model. Gloria earned her masters degree at the age of 50, and later worked at CHC for 15 years as a counselor and Spanish instructor.

"I'm so proud of them, I'm puffed up like one of those puffed up birds," Gloria said. "It's super that they did this."

Alex plans to transfer to California State University San Bernardino (CSUSB) to major in business administration and get a teaching credential.

According to Natalie, 22, a liberal arts major, it was her grandma who always stressed getting an education. "It's fun that we're all doing this together," said Natalie, who plans to transfer to the University of Michigan or San Francisco State in political science. "This sets an example for our children and grandchildren."

Both Natalie and Elizabeth, 24, recognized the importance of financial aid with helping them achieve their goal of attending college and being able to earn their associate degrees. "We couldn't have afforded college without it," Natalie said.

"I'm proud of my dad for going through Crafton in such a short time," said Elizabeth, who is considering taking a break, then transferring to a four-year school to major in Spanish and possibly philosophy.

Silas, 25, was also proud of his dad. "It shows that age doesn't make a difference as long as you get it done," he said. "Besides my grandmother, we're the first to graduate in the family."

Silas, who plans to eventually earn a Ph.D. in history with a minor in religion, recognized the Extended Opportunity Programs and Services (EOPS) program with helping him succeed at college.

"Not only did it help me afford college, but the constant care and counseling sessions helped me keep my grades up," said Silas, who is married and has a young son. "College helped me realize my priorities."

**Kimberly Abnathey
Psychology Major**

"I like to figure people out," said 19-year-old Kimberly Abnathey, who is interested in the field of criminal psychology "I like to get into their heads. What's in their minds? Why do they do the things they do?"

Regarding her initial fascination with psychology, Abnathey noted that she sometimes counseled her friends about their "issues." She used to wonder why people were "stressing" her with their problems.

She observed that part of it was because she listened.

"I always listen," she said. "That's what I do — listen. But they actually responded. I think I did pretty well."

"Maybe this ability is in my family," said Abnathey, whose mom has a degree in psychology and has worked as a psych nurse. "Maybe it's in my personality."

Abnathey initially signed up at CHC because her brother attended the college, and the campus atmosphere suited her.

"Out of high school, I wanted to get more serious," she said. "Here, the students seem more settled and wanting to do their work. I've always wanted to better myself."

She describes herself as a "school person."

"My parents didn't push me, but they showed me school was a good thing," she said. "My dad went to trade school, and my mom went to college."

"I don't like to sit around at home. I like to go to school, do assignments, and be involved in different activities. You can get a degree and a good job, but you also get information you didn't have before. I like gaining the knowledge."

Abnathey recognized the importance of Financial Aid with helping her attend college, including assisting with tuition and the purchase of books. She said that during the first year at college, she didn't even know about financial aid and other assistance programs for students.

Abnathey emphasized that new students should ask questions. "I'm much wiser after a year," she said. "I learned how everything worked."

According to Abnathey, the key to succeeding in college is asking questions, working hard, studying, and being persistent.

"Don't ever give up," she said. "Ask questions."

Abnathey's goal is to transfer to UCLA or Pepperdine and eventually earn a master's degree in psychology.

Instruction Begins
August 20,2007

Cortney Bellinger Liberal Arts Major

"I have such great goals for the next five years," said Cortney Bellinger, 28, a liberal arts major. "I smile when I think of my goals, especially when I realize I am so much closer to achieving them than when I started three years ago."

Bellinger's goal is to attend the dental hygiene program at Loma Linda University. "That would be a dream come true," she said.

Three years ago Bellinger, a married mom of two kids, decided to sign up for college determined to succeed and eventually make a better life for her family.

Based on her success so far in college, Bellinger was selected to receive two prestigious scholarships to assist in continuing her education.

Bellinger was awarded the Soroptimist International of Redlands Women's Opportunity Award for \$1,500 and the California Community College Extended Opportunity Programs and Services (EOPS) Association Scholarship for \$1,000.

"It's an awesome feeling," said Bellinger, who will be earning her associate degree in liberal arts in May. "When I found out about the scholarships, I cried both times. I feel very honored."

"I would like to thank the Soroptimists International of Redlands and all the CHC EOPS staff," she said. "My heart goes out to all of them in a big way."

"Don't think that by being a working mother you can't make life better," Bellinger said. "Give yourself a chance. Don't be scared to start college because, before you know it, you'll be finished. You can go as far as you take yourself. Don't ever give up."

Bellinger receives assistance to attend college through the (EOPS) and Cooperative Agencies Resources for Education (CARE) program.

"I cannot stress enough the positive impact the EOPS/CARE program has had on my life," she said.

"We want a good life for our children," Bellinger said. "Enrolling at Crafton was the best decision I ever made. I discovered that I enjoyed college. My life has dramatically changed as I've continued my education."

Bellinger has completed tough courses such as anatomy, chemistry, and microbiology.

"I love learning," she said. "The faculty here have been so supportive. One teacher called me to tell me how well I've been doing."

"The future looks very bright."

Arcadio Torres Business Major

"Get involved," said Crafton Hills College (CHC) business major Arcadio Torres, 20, of Yucaipa, "You have the power to change things for the better."

During the past two years at CHC, Torres has been a great example to others of what it means to be involved in campus life. "Meeting new people is what I enjoy most about participating," Torres said.

Torres' many activities include serving as the student senator of Inter-Club Council, founding the CHC chapter of the business organization Phi Beta Lambda (PBL), being elected California PBL vice president, serving as the business editor of the student newspaper, The Advisor, and being selected to serve as an intern in the Hispanic Association of Colleges and University (HACU) internship program.

As the student senator of Inter-Club Council, he has worked with CHC Student Life Director Ericka Paddock to increase the number of student clubs on campus during 2006-2007.

A high school member of Future Business Leaders of America (FBLA), Torres decided it would be a great idea to make Crafton a member of the college division PBL. He is also serving as Crafton's PBL president. The organization brings education and business together to give students the opportunity get hands on professional experience.

More recently, he went to the University of California, Los Angeles (UCLA) for Phi Beta Lambda's State Business Leadership Conference. The success of Torres' PBL chapter at CHC, combined with an impressive speech, essay, and GPA, convinced the members of PBL to elect Torres as the new vice president of the California chapter of PBL.

Torres is currently in the process of becoming a HACU summer intern. The HACU National Internship Program (HNIP) is the nation's largest internship program for Hispanic students. The program places students with demonstrated high levels of academic performance in paid internships in federal corporations and agencies.

Torres recognized the importance of receiving assistance through the Financial Aid Office and Extended Opportunity Programs and Services (EOPS) to attend CHC. "Having my books and tuition paid for made a big difference," he said. "Everyone should apply. Financial aid and EOPS are great assets. They enabled me to focus on school."

Torres' goal is to own his own company one day. After graduating from Crafton, he plans to transfer to the University of Southern California (USC) Marshal School of Business.

Jennifer Ference

**PFF Bank and Trust Network Engineer
 CHC Alumna -- Classes of '91 and 2005**

"Signing up for the Crafton Hills Cisco Academy was the best move I've ever made in my career," said Jennifer Ference, 44, a network engineer for PFF Bank and Trust. "I would encourage anyone interested in getting into the field of networking – particularly Cisco networking – to take CHC's program."

Ference, who had been working 13 years for PFF Bank and Trust and was a network security administrator, decided to return to CHC in 2005 when she saw the college was offering a Cisco Network Academy.

In this era of mass electronic communications, there is an increasing demand for people skilled in the art of designing and implementing computer networks. Networking is the term used to describe the process of connecting one or more computers or devices in order to share resources and information. Networks can be small, such as computers connected within offices, or they can stretch across the planet, such as the Internet.

In conjunction with Cisco Systems Inc., CHC established a Cisco Networking Academy in 2002. Ference completed the Cisco Certified Network Associate (CCNA) program.

"Initially, I went to college to be a more rounded person so I could offer more to my employer," Ference said. "The Cisco Networking Academy Program gave me the knowledge I needed to become an integral part of the company for which I work."

Ference originally earned an Associate Degree in liberal arts at CHC in 1991. When she entered CHC in the late 80s, her main goal was to complete her Associate Degree.

"I had such a good experience at the college, I didn't want my higher education to end," Ference said. "I enjoyed the classes and learning, so I figured it was an easy step to take two more years at California State University San Bernardino (CSUSB)."

Ference went on to earn a Bachelor's Degree in Business Administration with a concentration in Information Management at CSUSB. Later, she returned to CHC to complete the Cisco Academy.

"CHC is an excellent start," said Ference, whose step daughter is currently attending the college. "You can complete your general education courses at a lower cost and get just as good an education as the first two years at a four-year college."

CHC Emergency Medical Services-Paramedic Program

Crafton Hills College has been a primary trainer of paramedics in San Bernardino and Riverside Counties for more than 30 years.

"The Crafton Hills College paramedic program is recognized nationally as one of the best paramedic programs in the country," said CHC EMS-Paramedic Instructor and Program Director Kathy Crow. "We did not get that reputation because we are nice or because we are fun, but because graduates of this program are the best of the best."

"Nothing anyone tells you can ever prepare you for the intensity of the paramedic program and the high expectations we have for the students," Crow said. "Nothing short of brilliance is acceptable. So our students settle in, buckle down, and get to work."

The graduates are required to complete a 1,220-hour course teaching emergency medical care, including working in hospitals and in the field.

"The prominence of our program shows the strength of all the people who comprise the program — all the faculty, hospitals, public agencies, and private agencies," said CHC EMS-Paramedic Professor Jim Holbrook. "And ultimately what makes us a top program is that we have top-caliber students."

"Our students have self-initiative, they are focused, and they are compassionate. They are the kind of students every teacher wants."

As part of the program, each student is assigned to do a clinical rotation, totaling 164 hours, working in hospital emergency rooms, burn units, operating rooms, obstetrics and delivery, pediatric intensive care, and respiratory care. Each student is also required to serve an internship totaling 600 hours working in the field outside a hospital setting. The internship is served with public and private advanced life support providers in San Bernardino and Riverside Counties. According to Holbrook, most of the hospitals, ambulance companies, and fire departments in San Bernardino and Riverside Counties serve as training sites for the CHC EMT-Paramedic students' clinical and field rotations.

"What is paramount in the CHC EMT-Paramedic program is the humanism we expect of our students and graduates," Holbrook said. "We identify as emissaries of peace in that we have the job of going into every home of every color and belief system to provide medical assistance."

"We emphasize that the people we are assisting are in crisis situations and that, sometimes, just being there and caring is as important as any other procedure."

Levels and Order of English Classes

The ability to think and reason and communicate using written language is an essential skill. There are several possible starting points for you to enter at the right level. Starting at the right class will let you move from class to class successfully and get to the point you need in the shortest amount of time. A **Counselor** can show you the skills needed for each class and help you decide.

Literature Classes:

*Meets associate degree graduation requirement in English but does not fulfill the transfer requirement to CSU or UC.

Mona Shadia

2004 Graduate in English and Speech Communication

"I've always wanted to be a journalist, ever since I was 10," said Mona Shadia, 23, who is currently working as a reporter for The Sun. "I believe I was born to be a journalist."

"I want to make a positive impact on the world," she said. "I want to be a voice for those who have no voice. I think I have come to the world to make a difference."

When she was 15, Shadia immigrated with her family to the United States from Egypt. Shadia pushed herself to learn English; including carrying a dictionary everywhere she went. Within six months, she surprised everyone when she was holding conversations in English. At 16-years-old, she graduated from Banning High School.

Shadia, who signed up at CHC, said the campus was beautiful and close to home. While at CHC, she applied for and received financial assistance from CHC's Financial Aid and (Extended Opportunity Programs and Services) EOPS Offices.

Shadia learned to utilize the CHC Learning Resource Center (LRC) in the library and credited the LRC and its director, Damaris Matthews, for helping her become even more proficient in English

She also praised speech Instructor Rick Hogrefe for giving her the confidence to speak in public. "I was nervous, but he challenged me and directed me," Shadia said. "I continued to get better and from there, decided I could pursue my dream of being a journalist."

"If you want to accomplish something, you have to give it your best effort," said Shadia, who went on to earn a bachelor's degree in communications at Cal State University (CSU) in Fullerton. "You've got to get tougher and pursue it. That's how I learned English, graduated from CHC, and graduated from CSU Fullerton. It's how I'm going to get a master's degree and how I'm going to accomplish my goals as a journalist."

As a reporter, Shadia enjoys interacting with people and delving into a variety of subjects. "I'm exposed to so many people, it's priceless," she said. "I communicate with people everyday. It's something I love to do.

"I also like writing. It's like learning how to play an instrument. You practice and get better each day."

Boxed sections indicate Short-Term classes.

Donald Culotta

Fire Tech Major and Fire Academy Graduate

"The only way to train firefighters for a live fire is with live fire," said CHC 65th Fire Academy graduate Donald Culotta. "You can never predict fire behavior 100 percent, but the fire academy gives you the closest, safest experience to fighting a real fire."

The purpose of the CHC Fire Academy is to prepare entry-level students and new department employees for Firefighter I Certification in the State of California. The Basic Fire Academy is a rigorous, 11-week, 408-hour course based on requirements established by the State Fire Marshal's Office.

"This was the best experience in my life," said Culotta, 21, whose dad served as a firefighter for 26 years with the Ontario City Fire Department. "I've wanted to be a firefighter since I was three years old, and this experience made me want to be a firefighter even more."

According to Culotta, the work in the fire academy is comprised of book work, physical training, and hands-on firefighting training. "The book work is difficult, but be ready to learn a lot," Culotta said. "It's up to you to apply yourself."

Meanwhile, the physical training started every morning with long runs in the hills around the campus. That was followed by intense sessions of push-ups, sit-ups, jumping jacks, and everything else. "They pushed us further than we've ever been pushed before," Culotta said. "They made sure we had no weak links."

Following seven weeks of intensive physical training, equipment training, and classroom lectures, academy cadets were ready for the Fire Control III class. Fire Academy training officers utilize propane gas fire to teach the cadets the basics of fire behavior, the principles of fire suppression, and the techniques of search and rescue."

At the 65th Fire Academy commencement, Culotta's dad presented him with a fireman's axe engraved with the academy class's logo and motto, "Bring the Heat," which referred to bringing everything they had within themselves to accomplish the task at hand.

Culotta's goal is to earn an associate degree in Fire Science, and then enter CHC's paramedic program. "I enjoy helping people," Culotta said. "That's a major part of why I want to get into fire service."

Culotta closed by "calling out" to his classmates, "Academy 65, 'Bring the Heat!'"

Students are also required to have occasional internet access in order to complete tests and class assignments. Please see the Distributed Education section of this schedule for more detailed information.

Kelly Dutton Business and Accounting Major

CHC business and accounting major Kelly Dutton, 28, was the only one surprised when judges announced that she won first place in the District intramural speech contest.

The judges, comprised of SBVC faculty, saved the announcement of the best until last. At that point, Dutton figured she was out of the running.

"It didn't occur to me I got first place until everyone turned around and started congratulating me," said Dutton of Yucaipa. "There were so many good speeches. You could tell they had practiced a lot."

Sure enough, the judges announced that Dutton was the first place recipient.

"I was blown away by everyone's performance," said a modest Dutton about the other speakers. "Everyone at both schools performed at an exceptional level. They all deserved awards. It must have made the judges' jobs really hard."

Dutton's speech was about the hair loss disease of Alopecia Areata, which affects people of all ages. It was one of several that concerned serious ailments. Dutton's own involvement in donating hair to those afflicted with the disease served as the inspiration for her remarkable performance. "I put a lot of hard work into it," she said. "But in a way it was easy because I was passionate about the subject."

Dutton originally became interested in the subject when she researched the idea of donating hair to "Locks of Love," an organization that accepts hair donations for children and teenagers who suffer from long term hair loss.

As a business and accounting major, Dutton initially decided to take speech classes because she believes communication is important in any field. "If you're in business and accounting, you absolutely have to know how to present yourself," she said.

Dutton, who returned to college at 27, also recognized the importance of access to CHC, which gave her the opportunity of pursuing a higher education.

"After going here for two years, I love the staff at CHC - from the teachers to the financial aid staff," she said. "Everyone is friendly, helpful, and knowledgeable."

Dutton credited the assistance she has received from the Financial Aid Program and the Extended Opportunity Programs and Services (EOPS) Office with enabling her to attend college.

"College has been challenging, but I wouldn't have traded this experience for the world," she said. "I've learned so many subjects and so much about myself."

Dutton, who currently works as an accountant, wants to someday own her own business.

Levels and Order of Mathematics Classes

The ability to think and reason using mathematical concepts is an essential skill. There are several starting points for you to enter at the right level. Starting at the right class will let you move successfully from class to class and to get to the point you need in the shortest amount of time. Start with the assessment test in the Counseling Center. Based on your eligibility determined on the assessment, choose the statement that best describes you, meet with a counselor to discuss the path and to be sure all prerequisites are cleared and follow that path. A counselor can also show you a sheet with the skills needed for each class and help you interpret the assessment scores. They also have a more detailed sheet explaining the differences between MATH 102, 108 and 115.

* Meets associate degree graduation requirement for Mathematics

MATH 943X2 Review Arithmetic Topics 0.50 Unit

The review of a few specific fundamental operations involving whole numbers, fractions, or decimals, as determined by diagnostic information. Students requiring extensive review will be directed to MATH 942.

Graded on Credit/No Credit basis only.

Not Applicable to the Associate Degree

Note: MATH 943X2 may be taken 2 times

0668	01	ARR	6.75 HRS/WK	LAB 0.50	LR-306	Wilson,S
------	----	-----	-------------	----------	--------	----------

MATH 952 Prealgebra 4.00 Units

This course prepares students for elementary algebra, MATH 090, providing a transition from arithmetic to algebra, covering operations with signed numbers, solving simple single variable linear equations, combining like terms, ratios, proportions, percents and their applications, perimeter, area, and volume of common geometric figures. Fractions and decimals are reviewed throughout the course.

Not Applicable to the Associate Degree

PREREQUISITE: MATH 942 or equivalent as determined through the Crafton Hills College assessment process

0670	02	MWF	09:00a-10:50a	LEC 4.00	LR-348	Wilson,S
Note: Ref. No. 0670 - 13 week class: 09/17 - 12/12

0680	06	TTH	05:00p-06:50p	LEC 4.00	LR-348	Ahmed,K

MATH 090 Elementary Algebra 4.00 Units

Manipulation of algebraic expressions including ones with integer exponents and factoring, solving increasingly difficult equations and their applications, graphing lines and drawing conclusions from the graph. Introduction of rational expressions. Students are expected to be proficient with the arithmetic of positive and negative numbers including fractions upon entering MATH 090.

Associate Degree Applicable

CHC Respiratory Care Program

Crafton Hills College (CHC) Respiratory Care Professor and Program Director Ken Bryson oversees one of the finest respiratory care programs in the state.

"CHC's Respiratory Care Program is a fully accredited program, and our students have one of the highest first-time pass rates nationally for the Respiratory Care Board exams," Bryson said. "We have excellent clinical facilities, and all of our staff are Registered Respiratory Therapists."

Six years ago, the CHC Respiratory Care Program earned one of the first 10-year accreditations from the Committee on Accreditation for Respiratory Care.

The CHC Respiratory Care Program is designed to prepare individuals to practice respiratory care at either the entry level as a Certified Respiratory Therapist (CRT) or an advanced level as a Registered Respiratory Therapist (RRT).

According to Bryson, students graduating from CHC's Certified Respiratory Therapist program can expect to earn \$40,000 to \$50,000 per year in California. Students graduating from CHC's Registered Respiratory Therapist program can expect to earn from \$50,000 to \$65,000 per year in California.

Respiratory Care is the allied health profession that cares for patients with deficiencies and abnormalities of the cardiopulmonary systems. Conditions often requiring respiratory care include asthma, emphysema, chronic obstructive pulmonary disease, pneumonia, cystic fibrosis, respiratory distress syndrome, and conditions caused by trauma.

"The instructors at CHC are excellent," said CHC respiratory care graduate Billy Harris. "Each one of them has been in the field of respiratory care for more than 20 years. Also, the students are required to do a lot of clinical rotations in the hospitals. There are going to be things in real life that don't always follow the book."

The CHC Respiratory Care Program is affiliated with Redlands Community Hospital, Jerry L. Pettis Memorial Medical Center, Riverside Community Hospital, Riverside County Regional Medical Center, St. Bernardine Medical Center, Totally Kids Specialty Healthcare, Arrowhead Regional Medical Center, and Loma Linda University Medical Center.

For more information about the program, call (909) 389-3286 or (909) 389-3284. The college's web site is: www.craftonhills.edu

**Shelley Blackmon
Sociology Major**

"I am passionate about helping others," said CHC sociology major Shelley Blackmon. "My educational goal is to earn my degree in social work, and eventually I would like to become a mental health counselor."

Last year, Blackmon, a single mom of three children, an employee of two part-time jobs, and a recipient of financial aid, decided she had nothing to lose if she applied for the prestigious California Community College Student Financial Aid Administrator Association (CCCSFAA) scholarship.

In the fall, CHC Financial Aid Director John Muskavitch informed Blackmon, 39, that she was one of 20 community college students statewide selected to receive a CCCSFAA scholarship.

"It would be impossible for me to be here today without the awesome help I receive from my grants and scholarships," said Blackmon, formerly of Redlands and currently a resident of Yucaipa. "I feel privileged to be able to attend college full-time and achieve the goals I've set before myself."

Blackmon recognized the support she received from her professors at CHC, particularly psychology teacher T. L. Brink and theatre department teacher Tom Bryant.

"My experience at Crafton has been amazing," Blackmon said. "I have had the privilege of taking classes with some of the best professors. They have helped me realize that I can be a successful student and that my opportunities in this world are limitless."

When Blackmon was first informed that she was selected to receive the \$500 scholarship, she was in disbelief. "I was so surprised that it didn't sink in what he was saying," she said. "I think he had to tell me three times before I finally got it... I had won!"

The scholarship was based on need and an essay she wrote regarding her life and her goals.

"After reading her statement, it caught a lump in my throat to see how so many students have so many obstacles in their lives, but they are able to overcome their issues and are determined to succeed in life," Muskavitch said. "Age should never be an obstacle and one should never give up on his or her dream. A dream is something no one can ever take away from you; it's up to you to achieve it."

Blackmon plans to eventually transfer to California State University in San Bernardino to earn her bachelor's degree.
