(Provide Placement Results)

If any of the waiver criteria apply to you, visit the Counseling Center, SSB-201, to obtain an assessment waiver. You are responsible for supplying the documentation for the waiver and for completing the waiver process at the Counseling Center before you will be eligible to register.

Step 3: Participate in a New Student Orientation/ Counseling Session and Develop an Educational Plan

This session will provide you with information about degrees, certificates and transfer. Information about registration procedures, financial aid, and services available at the college will also be provided. This session will last approximately 3 hours. Check with the Counseling Center for a schedule of orientation sessions.

Every new student is strongly encouraged to develop a Student Educational Plan (SEP) with a counseling faculty member before they enroll in classes. The SEP provides you with a plan to reach your educational or career goal and specifies the courses required to reach your goal. You are asked to meet with a counseling faculty member during the orientation session who will assist you in developing a first semester SEP. Financial Aid and EOPS students are required to have a current SEP on file. After the semester has started students are encouraged to return to meet with a Counselor to develop a multi-semester SEP.

The Counseling Office is located in SSB-201. Park in Lot B or C. A decal is required and can be purchased in Lot D for \$1.

Step 4: Select your classes

Take the time to look through the list of course offerings beginning on page 39 of this schedule or online at www.craftonhills.edu. Use your Student Educational Plan (SEP) as a guide to help you choose courses as you make your selections. Think about the hours in the day you have available to take classes, and make sure that the classes you have chosen are not held at conflicting times. Stop by the Counseling Center, SSB-201, to see a student success advisor if you would like help selecting your classes.

Use your assessment information, SEP and the chart on page 16 for guidance on the right level of English, reading and math for you to begin your studies. Remember to select some alternate courses as backups, in case your first-choice classes are already full by the time you register.

Step 5: Calculate your fees. (Fees are subject to change pending legislative action)

Each course listed in the schedule will tell you how many semester "units" of credit have been assigned to it. Your fees will be based on these units. Use Steps A, B, C, D (and E if applicable) below to do a preliminary calculation of your fees:

- A. If you are a resident of California, multiply the number of units you will be taking by \$20.00 and enter the total here: _____
 (Example: If you are taking 6 units, the total will be \$120.00)

NOTE: If you are a non-California resident, multiply the total number of units by \$214.00 (\$194 + 20).

- B. Add the required Health and Accident Fee of:
 Fall or Spring \$17 • Summer \$ 14
- C. Add a \$1 Student Representation fee. This is a fee voted in by CHC students to support student senate and federal lobbying efforts on behalf of the student body. For more information, contact the Student Senate Office, SCC-107 in the College Center, (909) 389-3410. This fee may be waived for moral, religious, political or financial reasons.
- D. Add the Student Center Fee \$1 per unit
 (Maximum of \$10 per year Assessed Summer - Spring)

Add the totals of items A, B,C and D above :

A) _____ + B) _____ + C) _____ + D) _____ = _____.

- E. If you are both a citizen of a foreign country and a resident of a foreign country, add the Capital Outlay Fee (\$5). Your preliminary calculations will be confirmed when you register.

At the time of registration you will be given the option of purchasing an Associated Student (AS) Card. The cost is \$7.50 for one semester and \$15.00 for the full year. (Annual AS Cards are only available for purchase during fall semester.) Purchasing an AS Card gives you access to a variety of incentives offered exclusively to AS Card holders including 5% off all purchases at the Bookstore, discounts at our Cafeteria, discount movie tickets and more! Once you purchase an AS Card, you may not cancel service.

Step 6: Register at www.craftonhills.edu

See pages 21 to 22 for detailed instructions on how to register by Web. The first few weeks of Web registration is open to students according to a priority system. Use the charts on pages 18 and 19 to identify your priority and the first day you will be able to use Web registration.

You can register by Web on your assigned priority day or any registration day thereafter. You cannot register before your assigned day. Since classes are filled on a first-come, first-served basis, we recommend that you register as soon as your priority is available.

Step 7: Pay your fees.

After registering for classes, your entire registration balance must be paid by the end of the following business day. Payment may be made online with visa/mastercard. Payment by cash, check or money order must be made in person at the Admissions & Records Office. After the term begins payment is due at time of registration. Outstanding fees will result in your classes being administratively dropped. Courses added as the result of an approved petition must be paid in full at the time of registration.

Any fees covered by Financial Aid will be paid automatically at the time you register. The AS Card and parking permit are optional and at your expense. Please check your registration statement (printout). You may have a balance due.

Do you need financial assistance to attend college?

You may qualify for a fee waiver (Board of Governor's Grant) if you or your parents qualify according to one of the following:

- Low income
- CalWORKS/TANF recipient
- SSI recipient
- Child or spouse of disabled or deceased veteran.

Fee waiver forms are available in the Financial Aid Office, CL-214.

Visit the office for additional instructions and advice on how to proceed in obtaining a fee waiver. The fee waiver must be processed 24 hours prior to registering by Web. **Fee waivers do not cover books. You will have a small balance with Admissions & Records.**

The Financial Aid Office has a variety of other programs that may assist low-income students in reaching their goals. See page 89 of this schedule for more detailed information.

**You will be blocked from registering in a class
if you have not met the prerequisite.****Q: What is a prerequisite?**

A: A prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate readiness for enrollment in a course or educational program. This may be a course that must be taken before another course or a passing score on an accepted placement test. For example, in order to enroll in English 015, you must have completed English 914 (or its equivalent at another college) with a grade of C or better or have received a passing score on the CHC placement test (or acceptable equivalent).

Q: What is a corequisite?

A: A corequisite is a condition of enrollment consisting of a course that must be taken at the same time as another course. For example, if you wish to take EMS 020, you must also enroll in EMS 021x20, 022, and 023.

Q: What is a departmental recommendation?

A: A departmental recommendation is a skill or a defined area of knowledge that the department faculty feel is important, if not essential, for a student to succeed in the course for which it is recommended. For example, the departmental recommendations for Psychology 100 are English 101, Math 090, and passing a reading test at or above the 12th grade level.

Q: How do I meet a prerequisite?

A: There are several ways to meet a prerequisite. First, a student may take the prerequisite course at Crafton Hills College. Second, a student may qualify for enrollment in the course based on the college placement procedure that is given to all new students in the course (students may also provide course placements from assessments taken at other colleges. Scores alone will not be accepted.) Finally, students may meet the prerequisite by having taken the equivalent course at another college. The student must provide a copy of the transcript or grade report (an unofficial copy of the transcript is adequate but official copies submitted to the admissions office are required by the third week of semester) to a counselor who will determine whether the course is equivalent to the prerequisite course at Crafton. If the course was taken at a private or out of state college or university, the student will need to provide a copy of the catalog description.

NOTE: Unofficial transcripts and course descriptions can often be accessed off the college or university website.

Q: What do I do if I've taken the prerequisite course at another college?

A: You need to bring an official copy of your transcript to the Counseling Center so that a counselor can verify that the course you took at another college or university meets the prerequisite. An unofficial copy of your transcript may help, but we need the official one no later than the Friday of the third week after the term starts.

Q: If I haven't met the prerequisite, is there any possibility that I can still take the course?

A: A prerequisite challenge is a process that allows students to demonstrate that they can probably succeed in a course even though they have not completed the prerequisite. To begin this process, you need to see a counselor. The Counseling Center is located in the Student Services Building, SSB 201. See page 7 for hours that counselors are available.

NOTE: Prerequisites and corequisites cannot be waived.

Q: How long does a challenge take?

A: Once you have completed the required challenge process and have submitted the required information the college is required to respond to your challenge within five (5) working days. If the college does not give you a decision within five (5) working days, you are allowed to remain in the class.

Q: What if I don't like the decision of my challenge?

A: You MAY have the right to an appeal. If you think you may want to appeal, check with the Counseling Center.

Students registered in classes in which they have not met the prerequisite requirements will be administratively withdrawn (see refund policy).

Questions: Call (909) 389-3366 or visit the Counseling Center (SSB-201)

Improving your reading, writing, and math skills is an important step in meeting your educational goals. There are several possible starting points for you to enter at the right level. Starting at the right class will let you move from class to class successfully and get to the point you need in the shortest amount of time. **Your Counselor will help you decide** on the best class by using your placement test results, high school and/or college grades, learning skills, motivation, and other factors. **A Counselor can show you the skills needed for each class.**

Online, Hybrid, and Television Courses

- Are you looking for alternatives to taking classes on campus?
- Do you have a schedule that needs flexibility?
- Do you want to avoid parking hassles and coming to class once or twice a week?
- Are you a self-motivated learner who can complete assignments without face-to-face interaction and constant reminders?

If you answered **YES**, then an online, hybrid, or television course may be right for you!

The beauty of a distance education course is the flexibility of time for you as the student while offering the same rigor and quality as an on-campus class. You can often set your class time around your other commitments and won't have to spend time driving to campus.

Is This Kind of Class Right for Me?

Taking an online or television course requires a different set of skills and abilities than an on-campus course. The following strategies are needed to be successful:

- **Independence and High Motivation** – You will need to be able to work on your own, create your own learning environment where you can study, and manage your time appropriately. You should be able to set goals for yourself and arrange a time in your weekly schedule to dedicate to the online or television course.
- **Internet Competence** – You need a variety of Internet related skills including the ability to navigate the web, send email, download and upload files, post messages, etc.
- **Reading, Writing, and Typing Abilities** – Your communication with others will be done via the Internet, so you will need to read materials and respond appropriately in writing.

What is an Online Course?

An online course is conducted wholly over the internet. Assignments are done and submitted via the Internet and may include discussion boards, research, written papers, exams, quizzes, and other activities.

What is a Hybrid Course?

A hybrid course combines some classroom instruction with online instruction. Hybrid courses have the benefit of being able to periodically see your instructor and classmates on a face-to-face basis.

What is a Telecourse?

Telecourses are professionally produced programs designed for broadcast in conjunction with classes that meet occasionally on campus. Each series is titled to reflect the subject matter of the course and may comprise up to 26 programs of 30-60 minutes in length.

Technical Requirements

Online and Hybrid Courses

- A computer system with Internet connection
- CD-ROM drive
- Speakers and headphone

Television Courses

- A television capable of receiving KVCR-TV via antenna, cable, or satellite
- VCR for recording programs (optional, but highly recommended)

Help and Resources

A two week, one unit, course covering how to succeed as an online student is offered as CIS 062. Students who are not comfortable with using a computer to take a course are encouraged to take CIS 062 before the start of their first online course.

For technical assistance, call (877)241-1756. This assistance is available 24 hours a day, 7 days a week.

The District website for distance education is <http://dets.sbccd.org> and offers a variety of resources to help online students.

Blackboard

The Blackboard Learning Management System is used for online, hybrid, and traditional classes and is always a required part of online classes. The login can be accessed through the Crafton Hills College web site by clicking on the "Blackboard Login" button on the right side of the home page or directly at <http://blackboard.sbccd.cc.ca.us/webapps/login/>. On the login page use your student ID number as both username and password. Once you are logged in you SHOULD change your password by clicking on "Personal Information" under the tools menu. Your courses can be found under the "Courses" tab at the top of the page. There is a short list of frequently asked questions that can be found at <http://dets.sbccd.org/pages/183.asp>. In addition, you can learn Blackboard skills as a part of the course CIS 062, Introduction to Online Learning.

If you forget your student ID, call (909) 884-1441

The agreement includes an admission process, college orientation, pre-enrollment assessment, advisement and counseling for course selection, a suitable program of studies, and follow-up on student progress. The student agrees to express at least a broad educational objective at entrance. He or she also agrees to declare a specific educational objective within a reasonable period of enrollment, attend class and complete coursework diligently, and maintain progress toward an educational goal. The purpose of matriculation is to ensure access to appropriate programs and courses offered by community colleges to all students who can benefit, and to facilitate successful completion of student educational objectives in accordance with applicable standards of educational quality as determined by the Board of Governors and local trustees.

MATRICULATION APPEALS

The college provides an appeals process for review of the following matriculation concerns:

1. Review of placement decisions.
2. Waiver challenge of prerequisites.
3. Complaint of unlawful discrimination: If a student feels that assessment, orientation, counseling, prerequisites, or any other matriculation procedure is being applied in a discriminatory manner, he or she should consult with the Vice President of Student Services or designee.

Crafton Hills College staff are well aware of the fact that in most cases children are brought to class or on the campus due to hardship situations. Children left unattended on the campus are exposed to a multitude of dangers due to the construction of the campus (stairs, ledges, etc.) and the terrain. In addition, they are often a distraction to faculty and others and, therefore, disrupt the educational process.

You are asked to please make arrangements for the care of your children. If assistance is needed in this regard, the Counseling Center is able to provide referral information.

All high school students enrolling in college courses must have a release of liability and the maturity to function effectively on a college campus.

Admission of Students below Grade 11

In extraordinary cases, where a student who has not completed the tenth grade demonstrates superior ability and capacity to succeed in college level work in a particular discipline, the college may consider admission of that student. Such consideration will be on a course-by-course basis and will be allowed only through the add/drop process, after open registration has been completed. Students below grade 11 wishing to enroll in courses must meet all of the requirements identified in the section above as well as any pre-requisites or departmental recommendations established for the course(s) in which they wish to enroll, as demonstrated by completion of the college assessment process.

Students in this category will be bound, as are all other students, by the syllabus of the course. Course content is non-negotiable. Moreover, parents are not permitted to attend classes with their children unless they are registered for the course. These students and their parents must complete an orientation process for each course conducted by the Counseling Department. The instructor of the course will have the final determination of whether any student below grade 11 will be allowed to enroll in his or her class.

Access to Student Records

Once accepted into Crafton Hills College, all student records become property of the College and the student, regardless of age. Student records are administered in accordance with the Family Educational Rights and Privacy Act (FERPA). Subsequently, no information will be disseminated to anyone other than student. GRADE CHANGES

Grades changes are initiated through the instructor from whom the grade was received. (T5 55025)

STUDENT GRIEVANCE POLICY

In accordance with Board Policy 5530, a student may initiate grievance proceedings against a college employee for any of the following reasons:

- Any act or threat of intimidation, harassment, discrimination or physical aggression.
- Any arbitrary action or imposition of sanctions without proper regard to due process as specified in college procedures.

Every effort shall be made to resolve a student complaint at the lowest level possible. A student must first attempt to resolve the issue directly by contacting the college employee most closely related to the origin of the alleged problem. Students not satisfied with the results of this attempt may then confer with the successive supervisors most closely related to the problem. The supervision succession to follow is generally the faculty chair, coordinator or supervisor, the appropriate dean, and then the appropriate vice president. If the alleged problem is still unresolved, the student may request a formal hearing by submitting a written request to any manager or employee in any area for delivery to the Vice President of Student Services, who will assess which manager or vice president is to oversee the grievance process.

STANDARDS OF STUDENT CONDUCT

Creating a proper campus environment is also very important for academic and individual success. The SBCCD Board of Trustees has established district-wide standards of student conduct which will be enforced at all times. These rules of conduct are particularly important in large common areas such as the cafeteria, bookstore, vending areas, campus quads, and other highly frequented areas.

IN THE CLASSROOM

Creating a proper teaching and learning environment is imperative for getting a good education. Everyone at Crafton Hills College is responsible for helping to create this environment, including students. Simple rules of courtesy apply:

1. **Respect for the Instructor.** This includes arriving on time, not leaving early, bringing appropriate materials, not speaking with other students while the instructor or another student is talking, not bringing food or drink into the classroom, not being loud, boisterous, or argumentative.
2. **Respect for Other Students.** This includes not interfering with the rights of others to listen and participate, not being disrespectful, not using inappropriate language or harassing others in any way.

3. **Academic Honesty.** Lack of honesty in the classroom is considered a very serious offense. Any form of cheating on tests or assignments, turning in work which is not one's own (i.e., plagiarism), talking during tests, furnishing false information to college personnel, or knowingly misrepresenting oneself to the college is grounds for disciplinary action. The consequences of cheating are severe and may include receiving a grade of "F" for the class or possible expulsion from the college.
4. **Instructor's Rights.** An instructor has the right to remove a student from class at any time he or she considers a student's actions to be interfering with a proper collegiate environment. The instructor may also refer the incident to the Vice President of Student Services for disciplinary action as warranted.
5. **Student's Rights.** All students have a right to due process. If a conflict occurs, the student must first discuss the problem with the instructor. If this does not resolve the problem, the student should follow the procedures detailed in SBCCD Board Policy 5530, Student Grievances.

REPEATING COURSES

Course repetition may be allowed for any of the following circumstances:

1. A student may repeat a course in which they have received a substandard grade no more than two times.
2. A student may repeat a course when it is necessary to meet a legally mandated training requirement as a condition of continued pay or volunteer employment.
3. A student may repeat activity courses if the course number includes the notation X2, X3 or X4.
4. A student may repeat a course where there has been a significant lapse of time since previous enrollment.
5. A student may repeat a course in which the content has changed significantly.

Students should be aware that once a grade is recorded, any withdrawal with a "W" following receipt of that grade counts as a repetition attempt.

For complete details refer to the current Crafton Hills College Catalog. (Title 5, 55040, 55041B)

Courses in which an "Incomplete" (I) has been recorded may not be repeated until a letter grade has been recorded.

Prior course repetition actions by other accredited colleges may be honored when a student's permanent record is reviewed for degree or certificate requirements.

Crafton Hills College Groundbreaking Ceremony

It was a perfect, sunny day for guests attending the Crafton Hills College (CHC) official groundbreaking ceremony last fall for the college's two main construction projects.

The mood was celebratory as community representatives, CHC staff, San Bernardino Community College District (SBCCD) officials, members of the public, and project managers and consultants gathered for this historic occasion.

Planned for completion at the campus by the middle of 2010 are a new Learning Resource Center (LRC)/Library building and a Community Recreation Facility that will include a swimming pool.

Grading and infrastructure work began for the projects last summer, and construction has been continuing through the year.

The LRC/Library will house functions located in the current LRC/Library. The new building will also accommodate more varied programs and functions such as distributed learning, electronic commons, audiovisual learning activities and services, individual and group study areas, teleconferencing, staff development resources, a teaching and learning center, and office and work areas for support services.

In addition, the facility will house a variety of spaces that can be utilized by the community such as a 100-seat auditorium, an art gallery, a multipurpose room, and a copy center. The building will be 58,824 gross square feet.

Regarding the Community Recreation Center, the college worked with the City of Yucaipa to secure a 50-meter pool which was used in the U.S. Olympic Trials in Long Beach. The modular, stainless steel panel pool, considered state-of-the art, was disassembled and put into storage until installation. The installation will be part of the construction this year at CHC.

"So it's been a long process, but now we're here, and it's a wonderful place to be," Harrison said. "It's a great day. Also during the ceremony, CHC recognized construction project team members, which included Steinberg Architects, Kitchell/BRJ engineers, and Tilden-Coil Contractors Inc.

"These firms have done an excellent job moving us through to where we are today," said CHC Vice President of Administrative Services Charlie Ng. "We've moved through construction without any major disruptions."

Ng described working with Steinberg Architects as being "extremely favorable, collegial, and even fun. We've enjoyed being partners with them."

**Ana Grazhdansky
 Theatre and English Major**

"Crafton Hills College provides an opportunity to explore," said 24-year-old theatre and English major student Ana Grazhdansky. "The teachers are dedicated, inspiring, and they invest their time in their students' success."

Grazhdansky, who moved to the United States from Israel at age 19, found that her involvement with the CHC Theatre Program has been an ideal opportunity for her to delve into her passion for dance as a means of expression and communication.

She chose to attend CHC because she liked the small and intimate environment CHC offered to its students, and the tuition was affordable.

Grazhdansky, who originally emigrated with her mom from Russia to Israel when she was five years old, discovered a penchant for dancing at the age of three. She has great love and appreciation towards her mother, who always supported her and, most importantly, gave her the freedom to follow her passion.

"Dancing is my international language" Grazhadansky said. "Expressing myself through movement is like breathing. It is something I can't live without."

She loves traveling and believes it is important for people to be exposed to different places, cultures, and people.

Her CHC theatre teacher, Tom Bryant, recommended that she try a theater production class while she learned English better.

Granhdansky took him up on his suggestion, and she gradually learned English through taking classes at the college and by interacting with her fellow students. She is now proficient in three languages, Russian, Hebrew, and English.

"Without communication, there is a broken connection," she said. She is grateful for having the opportunity to learn from teachers like Bryant and English Professor Bret Scaliter, who have inspired her to become a teacher. She wants to pursue an MFA in theatre. She has great passion towards education.

"Through education and communication, people come together," she said.

Gradhansky has become a regular participant in CHC productions, whether it is dancing, acting, or working behind the scenes as a choreographer, make-up person, stage manager, or even just showing up to show support and fill the seats. She enjoys the collaboration that it takes to make a performance turn out successfully.

**Via Carmina Aquino
Economics Major**

"CHC feels like a tight-knit family, and it is less intimidating to get involved," said CHC student Via Carmina Aquino. "All your efforts here, no matter how small, contribute to the community as a whole."

Aquino, whose hometown is 7,000 miles away in the Philippines, made new friends and found comfort in her new surroundings by getting involved in student life at Crafton.

She is the 2009 president of the CHC chapter of Phi Beta Lamda (PBL), the college's business club. She was also recently listed in "Who's Who in California PBL."

She believes that involvement on campus will lead to success, and she encourages students to get involved.

"Getting involved gives you an edge," Aquino said. "You can only learn so much in a classroom. Being involved in campus life will prepare you for the job market by helping you learn organizational skills and time management."

She believes involvement with student activities has also taught her about leadership and about interacting with others.

Although taking on a leadership role was initially intimidating for Aquino, she credited her mentor and advisor, CHC business Professor Bob O'Toole, for his encouragement.

In addition to being involved in campus activities, Aquino found her passion is economics. She praised CHC economics Professor Farhad Mansourian for his dedication as an instructor and for being a good teacher.

According to Aquino, one of the advantages of beginning her education at Crafton was that because of the affordable tuition, she did not feel the pressure to choose a major right away.

Aquino's goal is to further her education in macroeconomics and then take her passion to a leadership level.

Aquino is committed to making a better world by utilizing her education to give back to people.

Ultimately, she wants to work for the Federal Reserve or the United Nations.

"Although it is scary sometimes to volunteer, any participation is greatly appreciated," Aquino said. "Just go and do it. Every bit of help matters and is greatly appreciated."

Moises Valencia 2009 Student Senate President

"It wasn't easy for me," said 20-year-old Moises Valencia about getting a college education. "I overcame many hardships and encourage others to keep going. There are so many people at this college who will help you if you want it. Where there's a will, there's a way."

Valencia, a Redlands resident, has thoroughly enjoyed his time at Crafton Hills College. He was recently voted CHC Student Senate President.

He feels extremely fortunate to attend college and to be in this great country.

Valencia was born and raised in Mexico. He moved here in 2002 with his father, Eduardo; mother, Armida; and three siblings. Although the family was happy in Mexico, they came here to live the American dream with all the hopes and aspirations therein.

Valencia had no prior English language experience before moving here. Not only did he have to overcome many cultural obstacles, he had to learn an entirely new language. He did and he flourished.

His personal motto is "El que persevera alcanza." Translated, it means, "He that perseveres will obtain his goals."

Valencia has a current grade point average of 3.6 and is active in school activities. His major interests are biotechnology, human genetic engineering, and math.

"Crafton is a wonderful school," Valencia said. "I've had great professors here. I would have to say my two favorite professors are Math Professor Robert Crise and Chemistry Professor Kimberly Salt. They are both outstanding."

"Professor Salt makes class fun and enjoyable while maintaining a high level of chemistry knowledge," he said.

Valencia is always beaming, especially when he talks about his recent accomplishment of being elected Student Senate president.

"It feels great," Valencia said. "All my hard work and time has paid off. I will have a lot of responsibilities ahead and will do my very best to fulfill all of them."

"I look forward to working with the other new Student Senate members and want to sincerely congratulate them."

Valencia plans on attending a four-year university when he graduates from CHC. As an individual who values education, he encourages all people to give college a shot.

CHC Child Development Center Serves Community and College Staff

The children's faces were all smiles at the CHC Child Development Center (CDC) as they celebrated "Friendship Day," which included classrooms decorated with sparkling valentine hearts.

"The children celebrated by doing art projects, reading stories, singing songs, and then they had a wonderful snack," said CDC Director Cammy Purper. "One of the classes made a friendship salad, with each child bringing in their favorite fruit, and then they put them together and made a salad."

In addition to serving as a regular child care center, the facility serves as a training center for students in the CHC Child Development Program.

As a laboratory school, The CDC is dedicated to providing an exemplary Early Childhood Education program for children and families. The students who attend are introduced to a variety of enriching activities and Early Childhood Education practices.

Classroom activities are planned to support the learning process and address each child's physical, social, cognitive, creative and emotional development. There are weekly lesson plans, field trips, and multiple celebrations such as Friendship Day.

"As director, when I look at the program that we offer, I'm so pleased," said Purper. "As a leader, I am always looking for ways to improve our school. When I visit the classrooms or the playground, I know these children feel safe, special and loved."

The CDC opened in August of 2002 and serves the community as well as CHC students and staff. There are currently 90 students enrolled in the center, with numerous time slots and dates available.

Enrollment at the CDC is on a semester to semester basis. Enrollment for fall 2009 begins in early June. The morning slots are the most difficult to get in, so early enrollment is encouraged.

"We're very flexible here," said Purper. "Many times parents are locked into a day care schedule, so our program here is rare. In this way we're different; we can work with families to offer varying hours and we even offer drop in rates."

Hours of operation for the CDC are Monday-Friday, 7:00 a.m.-5:30 p.m.

For more information, or to visit the Center, please call (909) 389-3400.

**Leslie Bryan
CHC Alumna, Class of 1994**

"I have often been told that I am a good teacher," said CHC Alumna Leslie Bryan, who earned an associate degree in computer science at CHC in 1994 and a master's degree in performing arts management at CSUSB in 1998. "I relate the ability to be a good teacher to observing (CHC Computer Professor) Jay Edwards in his teachings."

Bryan, currently a dance teacher at California State University San Bernardino (CSUSB), credits Edwards with setting the example regarding what it means to be a good instructor. She first met Edwards, who passed away in 1997, at a Black History event at CHC in 1990.

"I noticed the extra time he gave to his students," she said. He would get to know them personally and show that he cared about them beyond getting a grade. All the while, he expected nothing but the best from the students, and he helped them to reach the goal of being their very best. I remember all of these things when I'm teaching dancers."

"Professor Edwards was an extraordinary person who changed my life," Bryan said. "The humor and passion I have today as a college professor stems from what he taught me. He was such a genuine and caring professor. He'd even make breakfast for us on exam day."

In 1989, Bryan moved from Salinas, California to begin a new life in Southern California with her one-year-old son, Jonathan. Bryan's cousin, Odessa Johnson, drove her to visit the campus. Bryan immediately fell in love with CHC and knew she would attend.

"The beautiful greenery enticed me," she said. "I visited the financial aid office and took advantage of every opportunity that was out there." According to Bryan, when she began at CHC in 1990, she was at a crossroads in her life.

"My time at CHC gave me the courage to pursue my dreams of having a college degree," she said. "It gave me a direction in life. I also met great friends who remain in my life today, more than 14 years later. CHC was a safe haven for me at a time in my life when there was lots of uncertainty."

Edwards became a valuable mentor for Bryan.

"He always encouraged me to keep going even when I was tired and stressed out from being a single parent," Bryan said.

Bryan noted that at the time, there were not a lot of African American women in computer science classes, and Edwards used that fact to motivate her and keep her going.

"He taught me perseverance and determination," Bryan said.

CHC 70th Paramedic Class

Twenty-five students received Emergency Medical Technician (EMT)-Paramedic Certificates at the Crafton Hills College 70th Paramedic graduation ceremony.

The graduates were required to complete a comprehensive 1,220-hour course teaching emergency medical care, including learning skills to handle trauma situations, cardiac problems, respiratory problems, delivering babies, and emergency care for children.

The CHC EMS-Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs.

Guest speaker Mitch McKee, retired Redlands City Fire Department (RFD) Battalion Chief of Emergency Medical Services (EMS) and a graduate of the CHC 1980 paramedic class, told the graduates that they are now part of the emergency medical system that people rely upon to give life saving intervention when they are in their most vulnerable time.

Regarding his speech, McKee consulted with Upland Fire Department Chief Michael Antonucci, who was originally scheduled to be guest speaker but was unable to attend. McKee told about Antonucci's very first trauma call as a paramedic. The patient was an 11-year-old girl that was involved in a hit and run driving incident.

Antonucci found the little girl barely alive, and began doing everything humanly possible to save her life. She died at the hospital. Antonucci remembers crying with her family on the back of his fire engine.

"That little girl ignited one of the largest movements against drunk drivers ever seen - MADD - Mothers Against Drunk Drivers," McKee said "Calls like this one have a profound impact on your life. What if it was your mother? What if it was your father? What if it was your child?"

McKee emphasized that it is specifically the paramedic whose job it is to provide care in a life or death situation, and they must be prepared at the highest level.

"Our sincere thanks in advance for all that you will do during your careers that will continue to make us proud of our profession," McKee said. "Keep the faith and keep the bar high. Good luck and thank you."

CHC 70th Paramedic Class Class Leader Kristen Johnson told her fellow graduates, "If there is anything I can leave with you tonight it's to remember that 'neither success nor failure is ever final.' Keep aspiring to succeed and learning by any failures along the way. Never stop asking questions, never stop learning. We are part of a privileged group of people who now have the knowledge and the ability to make a difference in other peoples' lives."

Advanced Patient Simulators Added to Allied Health and EMS Programs

The Crafton Hills College allied health and EMS programs recently purchased three top-of-the line, wireless computer controlled human patient simulators that can breath, blink, generate blood pressure, create heart beats, simulate birth, and even talk.

Through the California Community College Chancellor's Office, CHC was awarded a grant totaling approximately \$116,000 last year for the purchase of the simulators. Not only will the CHC Simulation Center be used for CHC students pursuing degrees in emergency care and respiratory care, the center will also be used to offer continuing education classes to community health care professionals who need continuing education credits for recertification.

The new CHC Simulation Training Center will be state of the art, with only two others like it in the western United States – Stanford University and Loma Linda University. Gaumard Scientific produces computer integrated manikins for adult, pediatric, and neonatal health care education.

"The simulators will simulate any medical situation a student might experience in the real world," said Gaumard representative and trauma nurse Joy Jacobs, who was visiting the campus to train emergency care and allied health instructors. "Just like pilots use simulators before getting into the cockpit, these simulators allow future health care professionals to get experience before encountering these conditions in the real world."

Jacobs used a wireless computer, about the size of a desktop computer, to provide a demonstration of the lifelike capabilities of a simulator while instructors provided the "treatment." Not only did the chest move to simulate breathing, but the instructors used stethoscopes to hear the lungs and check the heartbeat. The sound of the lungs, the strength of the pulse, and even the skin coloration were controlled by the computer.

Additionally, each simulator tracks all the students' actions on the computers. Changes in a simulator's condition are time-stamped and logged for evaluation and debriefing.

The individuals involved with applying for the grant were a part of the college's DREAMS Express Learning and Teaching Academies (DELTA) Program, created under Title V.

Levels and Order of Mathematics Classes

The ability to think and reason using mathematical concepts is an essential skill. There are several starting points for you to enter at the right level. Starting at the right class will let you move successfully from class to class and to get to the point you need in the shortest amount of time. Start with the assessment test in the Counseling Center. Based on your eligibility determined on the assessment, choose the statement that best describes you, meet with a counselor to discuss the path and to be sure all prerequisites are cleared and follow that path. A counselor can also show you a sheet with the skills needed for each class and help you interpret the assessment scores. They also have a more detailed sheet explaining the differences between MATH 102, 108 and 115.

**Eric Eblen
Liberal Arts Major**

In 2004, 26 year-old Eric Eblen and his buddies were enjoying a full day of rock climbing at Johnson Valley, California. The day included plenty of barbeque and climbing.

Close to midnight, Eblen and friends began climbing rocks without the proper safety gear and ropes. It is known as free-climbing. Eblen lost balance and came crashing down the rocks, hitting his head and other body parts on boulders multiple times during his descent.

"The firefighters who airlifted me to Arrowhead Regional Hospital said that I fell 80 feet and that I was lucky to be alive considering the skull fractures and collapsed lung," said Eblen, now 31 and a student at Crafton Hills College.

He was in a coma for 18 days and in the hospital for over two months. Eblen had two titanium rods fused into his lower back and is paralyzed from the lower back down. He underwent hours of grueling physical therapy and medical procedures.

Despite the difficult and arduous times, Eblen believes his accident to be a blessing.

"It opened my eyes to what's really important in life," Eblen said. "There comes a point in your life when you learn what's really important, like family and faith. I read the Bible while I was recovering in the hospital and my faith enabled me to go another day."

Eblen proudly shows a tattoo on his forearm of the Bible verse, Mark 10:45. The verse states: "For even the Son of man did not come to be served, but to serve and to give his life as a ransom for many."

As Eblen's outlook on life began to change, he decided to further his education by attending CHC in Yucaipa. "It felt like I was given a second chance," said Eblen. "I should be dead, but I am here. I'm here for a reason."

"When I started at CHC, I got information about tuition being paid through the BOG waiver," he said. "I also learned that the CHC EOPS (Extended Opportunity Programs and Services) could help me with book costs, and the Financial Aid Office could help me with Federal Student Financial Aid (FAFSA).

"I qualified for all of the help offered," he said. "So I guess a door was opened with little effort put forth. Here at CHC, everyone at the entire school has made my stay wonderful."

Eblen has found his love of learning to be very satisfying. He enjoys the small, intimate campus at CHC and is majoring in nutrition.

"The nutrition field will enable me to take on a mentor position," Eblen said. "I don't care about the money; I just want to help people. I'd like to be fulfilled."

**Tracy Marinaro
 Liberal Arts Major**

"The speech competition was a great experience, and it really helped me to overcome some of my biggest fears," said 29-year-old CHC student Tracy Marinaro, who took first place in this year's CHC and San Bernardino Valley College (SBVC) 2008 Intramural Speech Contest.

Marinaro credited her speech success to her supportive husband, Erik, and to CHC Speech Professor Jim Urbanovich

"Professor Urbanovich is very encouraging and supportive while allowing students to retain their own identities," Marinaro said. "In fact, one of the best things about him is that he makes speech fun by encouraging students to speak about their passions."

The purpose of the annual event is to provide speech students at CHC and SBVC the opportunity to develop public speaking skills while building self-confidence in a challenging setting. There were approximately 24 students who participated from both schools.

Marinaro, 29, won the speech competition with her informative speech on the renowned nocturnal flying night mammal, the bat. "I am a huge animal lover and knew right away that the speech would have something to do with animals," said Marinaro, a resident of Crestline. "When I first chose the topic of bats, it was because I didn't really know much about them. It turns out that they are fascinating and greatly misunderstood creatures."

According to Marinaro, she was not nervous about giving the speech because she was talking about animals, which are her passion.

Marinaro pointed out that there are many benefits to humans from bats, including that they can eat approximately 1,000 mosquitoes in one hour.

"With West Nile virus increasing, that can be a very important benefit," Marinaro said.

According to Marinaro, because bats are sensitive to pesticides and pollutants, observing their behavior and health has served as a valuable warning to scientists regarding environmental problems. Bats are also useful for seed spreading, which is important to areas such as rain forests.

Among the misconceptions are that bats are high carrier of rabies, which they are not. Also, bats are not blind; they use a form of sonar to hunt. Additionally, recent research has indicated that bats are more closely related to primates than rats.

Marinaro plans on transferring to California State University San Bernardino to attain her bachelor's degree and plans on becoming an elementary school teacher.

If you need help with the cost of attending college, the Financial Aid Office may be able to help. The Financial Aid Philosophy is "No Student should be denied access to an educational experience because of a lack of funds." The distribution of these state and federal funds is closely regulated by laws & regulations designed to direct support to those who need them most.

Determining Need

The process starts with the Free Application for Federal Student Aid. Based on the information you provide, the Department of Education established a contribution from you and/or your family toward your educational expenses. Your financial need is the difference between the cost of attendance and the contribution from you and/or your family.

Refund Policy

Students receiving Federal Aid Title IV funds who withdraw or drop without notice from all classes prior to or during the 10th week of the semester (60%), will be subject to Federal refund policies. Students who receive federal financial aid and do not attend any classes will be required to repay all the funds they received. Students who withdraw from all classes prior to completing more than 60% of the semester will have their financial aid eligibility recalculated based on the percentage of the semester completed, and will be required to repay any unearned financial aid they received. Examples of refunds are available from the Financial Aid Office. The college will bill the student and holds will be placed on records until the funds are repaid by the student.

Satisfactory Academic Progress

Satisfactory Academic Progress is required of all Financial Aid students. If the college places you on probation you are automatically on probation with the Financial Aid Office. Satisfactory progress will be monitored at the end of each spring semester for all Financial Aid students who apply for Aid for the next school year. Detailed information on standards required are available in the Financial Aid Office.

APPLICATIONS AVAILABLE IN THE FINANCIAL AID OFFICE

California resident student fees can be WAIVED. There are three types of eligibility. You only need to be eligible for one:

METHOD A: Please provide proof of AFDC/TANF, SSI, or General Relief benefits being received. (If you are considered dependent, you must provide proof of the benefits your parents are receiving.) Acceptable documentation: Copy of current check, current month's or last month's eligibility letter or untaxed income verification form (available in the Financial Aid Office). Please note: Proof of food stamps or medical card is not acceptable documentation.

METHOD B: Please provide information regarding your household size and all sources of income by completing section B on the back of the form. If awarded a BOG B, your enrollment fees will be waived.

METHOD C: If you don't qualify for Method A or B, you may qualify under Method C. To be evaluated under Method C you must complete a FAFSA. Once you receive your SAR (Student Aid Report) in the mail, attach it to a completed BOG application and turn it in to the Financial Aid Office. This process can take up to six weeks.

Financial Aid Programs For You

The Financial Aid Office has detailed information on the following financial aid programs:

- Pell Grant
- Federal Work Study (FWS)
- Stafford Loan Program (FFELP)
- Board of Governors Grant Waiver (BOG)
- Supplemental Educational Opportunity Grant (SEOG)
- Academic Competitiveness Grant (ACG)
- CAL Grant

There is a federal law about paying back money if you leave school

If you get a GRANT and then WITHDRAW from all your classes, you will OWE money back to the federal program. Here's how it works:

According to the day you withdraw, the Financial Aid Office will calculate the part of the grant that you have "earned".

NOTE: If you withdraw after you have earned 60% of your grant, you do not owe any repayment. (Don't worry if you don't understand, the Financial Aid Office will calculate the amount for you.)

Example: Say you get a \$1000 grant. If there are 100 days in the term and you drop out on the 26th day, then you earned 26% of your grant

The Financial Aid Office will multiply your grant money and figure out what you earned, and did not earn.

\$1000 grant x 26% = \$260 earned; \$1000 x 74% = \$740 unearned.

The college will owe some of the money back depending on the number of units you took:

You took 12 units at \$26 each = \$312 x 74% (unearned) = \$231 the college has to pay.

You will have to pay back the unearned amount, minus the college share, times 50%.

\$740 - \$231 = \$509 x 50% = \$255 you have to pay the federal program.

If you receive Federal Work Study (FWS) money and withdraw, you do not owe any FWS money back. You always get to keep the salary you have earned.

If you are thinking of withdrawing or just leaving... Please think again!

Immediately see a counselor or advisor and discuss your academic or personal reasons for leaving. Perhaps you can stay but take fewer courses. Maybe there are services (like tutoring or personal support) that will help you stay. Talk to your instructors, see what advice they can offer.

Don't leave unless you must But if you must, take care of business before you go.

Begin the withdrawal process at the Admissions and Records Office. This office will tell you the process and the rules.

Immediately go to the Financial Aid Office in the Classroom Building, Room 214. Learn how much you will owe and how you will have to repay it.

Please work with the Financial Aid Office. You can arrange for regular payments with the Federal government without losing your student aid eligibility, so it's important to take care of the details before you go. If you leave without taking care of this business and you owe money, the Financial Aid Office will have to put a national HOLD on your student aid eligibility.
