BACHELOR OF SCIENCE IN RESPIRATORY CARE First Graduating Cohort

Crafton Hills College proudly celebrates the graduation of its inaugural Bachelor of Science in Respiratory Care class. On May 23, 2025, seven students will make history as the first cohort to earn a bachelor's degree from CHC, marking a transformative milestone for both the college and the Inland Empire region.

This program, launched in January 2024, addresses the growing demand for advanced-level respiratory therapists in today's complex healthcare environment. With upcoming national standards requiring a bachelor's degree for new respiratory therapists by 2030, CHC's program equips graduates with the skills, credentials, and leadership potential to meet the evolving needs of the profession.

This achievement reflects Crafton Hills College's continued commitment to providing affordable, high-quality, and workforce-driven education that prepares students for meaningful careers in healthcare and beyond.

STAY CONNECTED WITH CHC!

TOP 5 REASONS TO STAY CONNECTED:

1. **Stay Informed** – receive quarterly newsletters with alumni stories, campus updates and upcoming events!
2. **Give Back** – by supporting scholarships, mentoring students, speaking in classrooms and referring students to your alma mater!
3. **Develop Connections** – build a network with other alumni as you navigate & advance in your career!
4. **Expand Your Skills** – attend career networking events and workshops for your professional development!

ACADEMIC REGALIA

Distinctive academic dress can be traced back to the universities of the Middle Ages. In the early centuries of its existence, the costume was worn as daily garb, and each of its parts had practical uses. In more recent centuries, its use in complete form has been reserved for special ceremonial occasions.

Of the costume’s three components, the hood is the most interesting. Originally, it had three uses: as a head covering, as a shoulder cape, and as a bag in which alms could be collected. It is mentioned as early as 1480 in clerical literature. When large wigs were en vogue in England, the cape part of the hood was split in front and had a narrow neckband inserted. The entire cape and hood were allowed to fall back as they do today, and the hood was never restored to its original style.

Black academic robes are appropriate to all degrees and all institutions. Graduates of some schools however, may elect to wear robe colors adopted by their alma maters-for example, Harvard crimson, Yale blue, Stanford cardinal. Red may be worn for ceremonial purposes, as by the president of the college. Three black stripes on the sleeve denote a doctorate.

There is historical evidence to suggest that the Mortarboard originated with the 16th Century Protestant Reformer, John Calvin. The university building where Calvin taught, at the Cathedral Church in Geneva, was not yet completed and was without windows. Accordingly, he designed the hat for his teaching in order to protect his head from the pigeons that cohabitated the buildings.

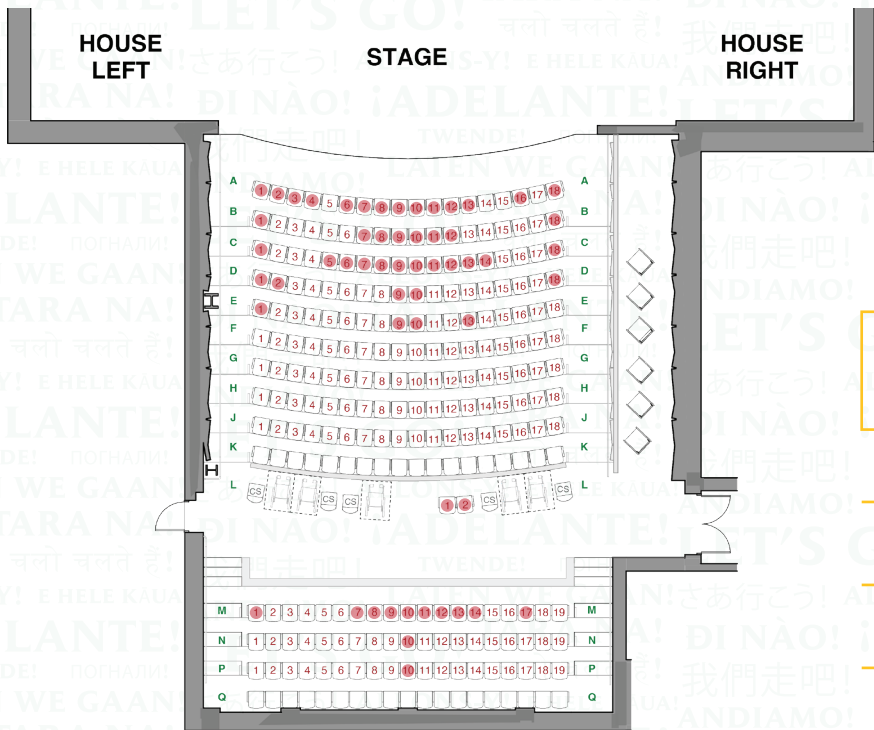

Black tassels are correct for all degrees, but colored tassels also may be worn. Gold metallic tassels may be worn by persons with doctorates and by dignitaries. The following is a partial list of hood and tassel colors established by the American Council on Education to represent various fields of learning.
