Dear Student Athlete/Parent/Guardian:

We would like to welcome your athlete to the San Bernardino Community College District Athletic Program at Crafton Hills College (CHC). In order to make his or her participation more enjoyable and fulfilling, we are attaching a general information sheet explaining athletic policies and procedures.

Bylaw 3.5 of the California Community College Athletic Association Constitution requires all student-athletes shall complete a thorough pre-participation examination (PPE) prior to any practices or any intercollegiate competitions. This screening shall be performed by a medical doctor (MD) or doctor of osteopathic medicine (DO) licensed and in good standing in his or her state or other qualified medical personnel who are under a MD's or DO's supervision. A MD or DO must sign the PPE Form.

The College (CHC) would like to notify you that athletic insurance coverage provided to athletes of Crafton Hills College is in compliance with the Education Code Sections 32220-24. Coverage is provided on an "excess" or secondary basis to your own private insurance coverage. The policy is not intended to pay medical bills covered by other insurance until your insurance carrier pays the maximum amounts.

Limit of coverage for intercollege athletic accidents is $100,000 accidental medical expense and $1,500.00 accidental death. The policy has limitations and it is important for you to read the insurance information that is provided to your athlete. One hundred percent coverage is not available in all cases.

Notification of injury must be filed with the athletic trainer within 24 hours of the time of injury, whether you do or do not have you own insurance coverage. Claim form must be completed, signed and submitted to Student Insurance as well as to your own private insurance carrier. (It is the responsibility of the athlete or parent/guardian to furnish the hospital and/or physician with the proper insurance identification and/or claim form from the parent's insurance carrier. Failure to do so will cause needless delay in the settlement of the claim and may hinder your credit rating). When your private insurance carrier has made payment, please send a copy of their notification to Student Insurance so that any balance due can be cleared. If the athlete has no other valid collectible insurance coverage, student insurance will respond for the full eligible amount.

To assist the Insurance Company in processing claims we are enclosing an insurance verification sheet, which must be completed fully and returned to the Athletic Trainer prior to issuance of athletic equipment. NO EQUIPMENT WILL BE ISSUED UNTIL THIS FORM IS RETURNED COMPLETED TO THE ATHLETIC TRAINER.

It is important to bear in mind that the college cannot be responsible for medical treatment or hospitalization not previously referred by officials of the college. In addition, the college does not assume responsibility for any pre-existing conditions or any other conditions not directly related to intercollegiate sports competition at CHC. To guard against accident in travel, all members of athletic teams must use transportation provided by the college in going to and from athletic contest.
No liability on the part of the college exists or may be assumed to exist for any amount beyond the limits of any policy carried by the college. No liability on the part of the college exists or may be assumed to exist for off-campus medical or dental treatment or hospitalization of any kind, or athletic injuries without prior referral by the team doctor or in his/her absence the trainer, athletic director or dean.

Yours very truly,

Van Muse
Dean of Natural, Social and Information Sciences

Heather Chittenden
Director of Athletics

This is to acknowledge that we have read and understand the above statements and agree to abide by its provisions as it pertains to competing in the intercollegiate sports program at Crafton Hills College.

CRAFTON HILLS COLLEGE ATHLETIC INSURANCE
POLICIES AND PROCEDURES

I. GENERAL INFORMATION
A. Athlete's personal insurance will be the first company billed whenever claims involve inpatient hospitalization and/or surgery and any outpatient claims over $250.00. What is not covered by personal insurance will be cleared by the college insurance.

B. All athletes are provided with an outline for our college’s insurance policy and at any time can pick up another copy from the athletic trainer. The outline lists the coverage and responsibilities of the college.

C. Athletes are required to pass a physical before the college, athletic department, and athletic trainer take responsibility for any injuries. Athletes are not permitted to participate in workouts/competition until the trainer receives verification the athlete has passed a physical by a physician.

D. The college is not responsible for any pre-existing injuries or physical disorders discovered during the athletic physical by the attending physician. Pre-existing injuries and physical disorders would include such items as joint disorders, back problems, high blood pressure, concussions, etc. Any athlete with any disorder of significant magnitude resulting in failure to pass the physical will be referred to the Athletic Trainer. The athlete is not permitted to participate until the proper medical clearance is provided to the trainer and approved by the Athletic Director.

E. Injuries are to be immediately reported to the trainer in which case the injury will be properly documented and reported to the insurance carriers within 20 days of injury. The college, its employees and its carriers are not responsible for injuries not reported or documented within the time limit.

II. ATHLETE'S OBLIGATIONS BEFORE PRACTICE OR PARTICIPATION
A. Return insurance verification form indicating personal or family insurance coverage.

B. Return medical release form for emergency medical treatment, signed by the athlete of legal age or by parent/guardian of minor age.

C. Supply verification of physical performed by College Physician (a fee will be charged) or physical performed by personal physician.

D. Report complete accurate physical history on the form provided during physicals.
III. INSURANCE CLAIM PROCESS

A. Athlete will report injury sustained in practice or competition to trainer within 24 hours of injury.*

B. Trainer determines proper course of action.
   1. Doctor referral (see "C" below)
   2. College treatment program

C. If referral is made to a physician, the following steps will be adhered to:
   1. Athletes will choose between team and/or personal physician.
   2. Student accident report will be completed by trainer.
   3. Athlete will take the original of the student accident report form when a visit is made to attending physician, as selected (College is not responsible for transportation)
   4. Athlete will initiate appropriate action with personal or family insurance company for claim payment to physician within 24 hours.*
   5. The trainer will retain a copy of student accident report and a photocopy will be placed on file in the Business Office.
   6. Athlete will report to trainer within 48 hours after diagnosis by physician.*
   7. The attending physician will send the student accident report to the college insurance carrier.
   8. College insurance carrier will contact athlete’s private insurance company to confirm and coordinate payment of claim.
   9. College insurance carrier will return copy of claim itemization payment to trainer.

D. Athlete can return to practice or competition only after release from attending physician is on file in the trainer’s office.

NOTE:

1. Any questions regarding insurance or injuries by athlete or parents should be directed to the head Athletic Trainer or Athletic Director.

2. The college insurance policy is secondary and neither the college nor insurance carrier is responsible to pay complete eligible benefits unless the athlete has no primary insurance.

3. The college will be liable only for the limits specified in the college insurance policy.

* The Athletic Director must approve any extension of the 24 or 48-hour time limit.

A concussion is a brain injury and all brain injuries are serious. A bump, blow or jolt to the head or blow to another part of the body with force transmitted to the head can cause concussions. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious. You cannot see a concussion and most sports concussions occur without loss of consciousness. Sign and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If you notice signs of a concussion seek medical attention right away.

### Symptoms may include one or more of the following:

Student-Athlete Concussion Statement

- I understand it is my responsibility to report all injuries and illnesses to my athletic trainer or team physician.
- I read and understand the concussion fact sheet.
- After reading the concussion fact sheet I am aware of the following:

<table>
<thead>
<tr>
<th>Initials</th>
</tr>
</thead>
<tbody>
<tr>
<td>A concussion is a brain injury, which I am responsible for reporting to my team physician or athletic trainer.</td>
</tr>
<tr>
<td>A concussion can affect my ability to perform everyday activities and affect reaction time, balance, sleep, and classroom performance.</td>
</tr>
<tr>
<td>You cannot see a concussion, but you might notice some of the symptoms right away. Other symptoms can show up hours or days after the injury.</td>
</tr>
<tr>
<td>If I suspect a teammate has a concussion, I am responsible for reporting the injury to my team physician or athletic trainer.</td>
</tr>
<tr>
<td>I will not return to play in a game or practice if I have received a blow to the head or body that results in concussion related symptoms.</td>
</tr>
<tr>
<td>Following concussion the brain needs time to heal. You are much more likely to have a repeat concussion if you return to play before you symptoms resolve.</td>
</tr>
<tr>
<td>In rare cases, repeat concussions can cause permanent brain damage and even death.</td>
</tr>
