2025-2028

EXECUTIVE SUMMARY

STUDENT EQUITY PLAN

Executive Summary

The three-year (2025-2028) Crafton Hills College Student Equity Plan is a result of reflection and evaluation of the 2022-25 Equity Plan. The college used the previous Equity Plan to monitor to lead our institutional self-evaluation process that includes the collection and reflection of five equity metrics on a yearly basis. This yearly evaluation helped us focus on addressing equity in the classroom success, and services, specifically addresses strategies for Hispanic/Latinx and African American/Black students.

This has created a culture of equity demonstrated through Crafton Hills College curriculum and instructional programs, support services, diversity programming, and professional development activities.

Equity Themes and Budgeted Initiatives

The initiatives that Crafton Hills College will undertake and financially support reflect an emphasis on one or more of the following themes: (a) targeted outreach, marketing, and creating a sense of belonging; (b) curriculum review and development, instructional techniques, and student support-based strategies; (c) professional development and hiring practices; and (d) increased data tracking and analysis.

Targeted Outreach, Marketing, and Creating a Sense of Belonging

Crafton Hills College is committed to strengthening its cultural responsiveness and ensuring that students from all backgrounds, particularly African American/Black and Hispanic/Latinx communities, feel seen, valued, and supported. This theme captures our intentional efforts to deepen community connections, enhance our outreach and marketing strategies, and foster a strong sense of belonging across campus.

Targeted Outreach and Partnerships

To better serve our diverse student body, the college is expanding its targeted outreach initiatives by forming strategic partnerships with key community-based organizations such as 100 Black Men of the Inland Empire and 100 Black Women of the Inland Empire. Through these collaborations, CHC will co-host community events, offer college resource workshops, and create pathways that encourage African American/Black, Asian and Hispanic/Latinx students to engage early and often with college services. Outreach activities will not only focus on prospective students but will also include invitations to families, recognizing the key role they play in students' educational journeys.

Culturally Responsive Programming and Learning Communities

In alignment with statewide best practices, CHC is exploring the development and expansion of culturally responsive learning communities for African American/Black and Hispanic/Latinx students. These will be designed to build strong, affirming on campus communities. These programs focus on fostering academic success, leadership development, and personal growth, all within a supportive environment that honors students' cultural identities and lived experiences.

Marketing and Communication Strategies

Crafton Hills College will continue to leverage culturally relevant marketing and communications to ensure that our materials, campaigns, and outreach reflect the diversity of our student body. Marketing efforts will include multilingual materials, inclusive imagery, storytelling that highlights the achievements of diverse alumni, and promotional campaigns tied to cultural heritage months and celebrations.

Creating a Sense of Belonging

Central to these efforts is the intentional creation of a campus climate where every student feels a deep sense of belonging. The college is planning and hosting regular on-campus events that celebrate African American/Black and Hispanic/Latinx heritage, including cultural festivals, guest speaker series, panel discussions, and recognition ceremonies. These events will not only recognize students' cultural backgrounds but will also provide direct access to college resources such as financial aid, counseling, and transfer services.

Additionally, the establishment of a Multicultural Center is a key part of this strategy. This center will serve as a welcoming hub for all students, offering a space for cultural exploration, community-building activities, academic support, and leadership development.

By intertwining targeted outreach, culturally relevant marketing, strategic community partnerships, and intentional efforts to build a keen sense of belonging, Crafton Hills College reaffirms its commitment to being an inclusive and equity-centered institution where all students can thrive.

Curriculum, Instructional, and Student Support-Based Strategies

Crafton Hills College (CHC) is committed to embedding equity and inclusion into every aspect of the student academic experience, from curriculum design to instructional delivery and comprehensive student support services. This theme reflects an intentional and holistic approach to closing equity gaps and fostering an environment where all students can thrive.

Curriculum and Instructional Innovations:

The college has initiated a systematic review of curriculum with a focus on integrating equity-minded practices into all course outlines. Faculty are encouraged to intentionally design courses that reflect diverse perspectives, reduce barriers to success, and create inclusive learning environments. A major highlight of these efforts is the expansion of Ethnic Studies offerings, including new African American/Black Studies courses, which provide students the opportunity to explore, celebrate, and critically engage with their own and others' cultural heritages through an academic lens.

Instructional support has also been strategically enhanced through the deployment of embedded tutors and supplemental instruction in gateway and high-enrollment courses, particularly those with a significant representation of African American/Black and Hispanic/Latinx students. These academic interventions are aimed at providing students with timely and targeted assistance to improve course success rates and persistence.

Targeted Student Support Services:

Faculty and staff actively use Starfish to identify students at key academic milestones and connect them with critical campus resources, including counseling, and tutoring. The College Library has expanded its collection to include culturally relevant research resources and now offers 24/7 librarian support, ensuring that students have continuous access to academic help whenever they need it.

Redesigned Counseling and Completion Support:

In a bold reimagining of its counseling services, CHC has implemented a redesigned counseling model that aligns support with students' progress toward their educational goals. This model emphasizes initiative-taking engagement and deeper relationship-building through the integration of newly hired Completion Coaches. These coaches work closely with students to offer personalized academic planning, motivation, and connections to campus and community resources, with special attention given to historically marginalized populations.

Institutional Commitment to Equity and Inclusion:

Recognizing that sustainable change requires systemic alignment, CHC has embedded Diversity, Equity, and Inclusion (DEI) principles into all major institutional processes, including program review, curriculum review, faculty evaluation, and the student learning outcomes (SLO) assessment cycle. This ensures that equity is not a peripheral initiative but a core standard by which the college measures the quality and effectiveness of its academic and student services programs.

Through these coordinated efforts, Crafton Hills College is not only advancing academic excellence but also fostering a community of belonging, support, and empowerment for all students—particularly those from historically underrepresented groups.

Professional Development, Hiring Practices, and Data-Driven Strategies

Crafton Hills College (CHC) is deeply committed to advancing equity through intentional, systemic efforts focused on building faculty and staff capacity, diversifying our workforce, and leveraging data for continuous improvement aligned with the CCCCO's Vision for Success goals. Equity work at CHC is embedded across academic instruction, student support services, and institutional operations to foster an inclusive environment where all students can thrive.

Equity-Focused Professional Development

CHC continues to prioritize robust and ongoing professional development to equip faculty, staff, and administrators with the tools necessary to foster equitable learning and support environments. As a partner with the USC Race and Equity Center, CHC provides structured training opportunities on culturally responsive teaching, equity-minded student services, anti-racism, and critical data analysis practices.

In addition to in-house training, CHC actively supports participation in national and statewide conferences that enhance professional growth and equity expertise, including:

- NCORE (National Conference on Race and Ethnicity in Higher Education)
- HACU (Hispanic Association of Colleges and Universities) Conference
- A²MEND (African American Male Education Network and Development) Conference
- APAHE (Asian Pacific Americans in Higher Education) Conference

Workshops and seminars center on the lived experiences of African American/Black, Hispanic/Latinx, and other historically underrepresented students, preparing faculty and staff to effectively address barriers to student success and cultivate more inclusive learning environments.

Equity-Minded Hiring and Retention Practices

Recognizing the vital role of a diverse faculty and staff in advancing equity, CHC has strengthened hiring practices with an intentional focus on recruiting, hiring, and retaining individuals from underrepresented communities, particularly African American/Black and Hispanic/Latinx populations.

Key strategies include:

- Requiring implicit bias training for human resources.
- Proactively conducting targeted outreach to attract a more representative pool of candidates.

These measures aim to create a workforce that mirrors the diversity of CHC's student body and supports a culturally affirming campus climate.

Increased Data Tracking, Literacy, and Equity Analysis

Crafton Hills College has committed to building a culture of data literacy to ensure that equity is at the center of all institutional practices. Faculty and staff are being trained to engage in evidence-based conversations that prioritize closing equity gaps through:

- Access to disaggregated course success, retention, and transfer data by ethnicity, gender, and other demographics at the class, program, and activity levels.
- Expansion of real-time tracking tools such as Starfish, the Vision for Success dashboards, and customized internal equity reports.
- Focused analysis on usage of key student services (e.g., tutoring, counseling, financial support) to identify and address underutilization by disproportionately impacted groups.
 This data-driven approach enables timely interventions, supports resource allocation, and fosters continuous institutional learning.

Student Services Leadership in Vision Alignment Report

Student Services has taken a leading role in **Vision Alignment Report** through the development and management of equity audits. This ongoing work includes:

- Tracking progress toward meeting student equity and success metrics.
- Monitoring enrollment, retention, persistence, completion, and transfer outcomes.
- Designing and implementing targeted outreach and support programs for students from historically marginalized communities.

Student Services also coordinates cross-campus collaborations to maintain accountability and ensure that campus initiatives align with statewide equity priorities.

Conclusion

Through targeted professional development, strategic hiring practices, and an intensified focus on data tracking and analysis, Crafton Hills College is building a strong infrastructure for sustained equity advancement. These efforts not only support closing equity gaps but also foster a campus culture rooted in inclusivity, belonging, and student success. Together, these strategies reflect CHC's deep and enduring commitment to creating an equitable educational environment, in full alignment with the CCCCO's statewide equity initiatives.

Student Equity Budgeting 25-2028

In addition to the proposed priorities listed below that are essential in making transformative changes around racial equity, CHC is currently funding a variety of academic interventions, counseling support, administrative and classified positions that align with the Student Equity Plan Goals.

The California Community Colleges Chancellor's Office (CCCCO) and Legislature (SB (Senate Bill) 1456 & SB 860) have provided significant funding to increase student success and equity in community colleges. CHC has used the funding in a variety of ways including the funding of positions, professional development, programs, and services to meet the requirements of the legislature, increase student success, and close equity gaps.

7000 - Other Outgo	\$0	
Total Expenditures	\$2,446,110	

Assessment of the progress made in achieving identified goals

Our college's progress towards achieving our stated goals takes the form of structural institutional processes or practices that are conducive to taking substantive equity-minded action across our programs and the evidence we have to date concerning the effects of those processes.

Structural Processes/Institutional Practices

One institutional practice that is foundational to successfully implementing a broad-based equity agenda is our continued emphasis on working with disaggregated data, both at the class or section-level and the program activity-level, with an eye towards identifying instances of disproportionate impact and employing processes or practices meant to systematically address them. A growing number of our college's faculty examine their disaggregated section-level data and employ a set of effective equity-minded strategies gathered via training received from the USC Race & Equity Center to address observed gaps. Similarly, our student services units examine disaggregated data for African American/Black, Hispanic and Economic Disadvantage students based on specific services they offer with a focus on creating pathways for equitable access to those services. Such work is done on an ongoing basis, with proper support and leadership by key stakeholders, including the college's vice presidents.

A second practice maintaining an emphasis on equity-minded practices is our program review and student learning processes that specifically requires programs and faculty to regularly reflect on disaggregated data—including the forthcoming student learning outcomes and service area outcomes data at the student-level—to develop plans for enhancing equitable student outcomes in their respective programs and support services.

Evidence of Progress Towards Equity Goals

Based on the student success metrics, the college has improved on equity goals but has not closed equity gaps in 4 out of the 5 metrics identified in the original 2022-2025 equity plan:

STUDENT GOALS

Key Metrics

The CHC Student Equity Plan serves an integral role in mapping the College's path to intensify students' sense of belongingness. The College is committed to:

Increase the percentage of Asian, African American/Black, and White students who apply and enroll at CHC in the same year.

Increase the percentage of Hispanic/Latinx and First-Generation students completing transfer level Math and English.

Increase the percentage of Hispanic, First Generation and African American/Black, students persisting from fall to spring.

Increase the percentage of Hispanics, African American/Black Males, First Generation and Econ Disadvantage students' degree or certificate attainment.

Increase the percentage of Hispanic/Latinx, First Generation and White Male students transferring to a four-year institution.

Additional Goals for Disproportionately Impacted Student Population(s) and/or Overall Student

Population

A primary goal of the Educational Master Plan is to identify and dismantle systemic barriers impeding student enrollment. To support this goal, the plan mandates strategic outreach initiatives specifically tailored to engage and support disproportionately impacted students and other special populations.

SECTION 11: INTENSIVE FOCUS ON POPULATION(S) EXPERIENCING DISPROPORTIONATE IMPACT

Student Population(s) Experiencing DI Selected for Intensive Focus (enter below)

- African American/ Black Students
- a. Current Challenges/Barriers Consider your institutional policies, processes, practices, and culture: what current structures are challenges/barriers for the identified student population experiencing DI at your college? (2500 characters max)

The following analysis, based on institutional data, identifies current challenges and barriers Crafton Hills College faces in its efforts to support student equity. This assessment is based on a review of the college's progress in meeting key metrics related to African American/Black and Hispanic/Latinx student success, as outlined in the Student Equity Plan.

• For African American/Black students:

- o **Persistence:** A significant challenge is retaining African American/Black students from the fall to the spring semester.
- o **Degree or certificate attainment:** The college is working on increasing the number of African American/Black students obtaining degrees or certificates.

Crafton Hills College is committed to addressing the challenges in supporting African American/Black students, particularly in the areas of persistence and degree/certificate attainment. The college will be conducting further investigation into the underlying causes of these challenges to develop and implement effective strategies for improvement.

b. Action Plan

To effectively address and overcome these challenges, Crafton Hills College will implement a comprehensive action plan with the following key strategies:

1. Enhanced Support Services:

- The college will expand and enhance support services specifically designed to address the needs of African American/Black students.
- This will include targeted outreach for tutoring, mentoring programs, and academic counseling, with a focus on culturally relevant approaches.

2. Academic Support and Intervention:

- The college will implement targeted early alert to identify African American/Black students who are struggling academically and provide timely interventions.
- Supplemental instruction and targeted tutoring will be expanded in courses with high rates of failure among African American/Black students.

3. Foster a Sense of Belonging:

• The college will create a more inclusive and welcoming campus environment for African American/Black students.

- This will involve:
- o Providing cultural competency training for faculty and staff
- Establishing student support groups and organizations
- Celebrating Black history and culture through campus events

Collaboration Between Academic and Student Affairs

These strategies will be implemented through close collaboration between Instruction and Student Affairs.

- Instruction will be responsible for implementing changes to curriculum, instruction, and academic support.
- Student Affairs will focus on providing holistic support services, promoting a sense of belonging, and addressing students' non-academic needs.

Measures of Success

Success will be measured by tracking improvements in the following metrics:

- Increased fall-to-spring persistence rates for African American/Black students.
- Increased degree and certificate completion rates for African American/Black students.
- Improved student satisfaction and sense of belonging among African American/Black students, as measured through surveys and focus groups.

Resources, Structures, and Support

To effectively accomplish this action plan, Crafton Hills College will leverage the following resources, structures, and support:

- **Existing Funding:** The college will allocate existing funding from the Student Equity and Achievement Program, as well as other sources, to support these initiatives.
- **Grant Funding:** The college will seek external grant funding to expand and enhance these efforts.
- **Institutional Effectiveness:** The Office of Institutional Effectiveness will play a key role in data collection, analysis, and evaluation to ensure that the strategies are effective, and data driven.
- Faculty and Staff Expertise: The college will utilize the expertise of faculty and staff across Academic and Student Affairs, including counselors, instructors, and student support professionals.
- Community Partnerships: The college will partner with community organizations and agencies to provide additional resources and support to African American/Black students.

SECTION 12: STUDENT EDUCATION PLANS

Spring 2024 Cohort (Comprehensive Ed Plan by 12/30/2024)	820	183	22%	202	25%	

7. Summarize key strategies to continue to proactively ensure the identified disproportionately impacted (DI) student populations receive a comprehensive education plan early in their journey – with a primary goal delivery in the first semester, and a secondary goal of delivery by the end of their first academic year.

At Crafton Hills College, we have implemented a Student Success Team model that intentionally incorporates Completion Coaches to proactively ensure disproportionately impacted (DI) students receive a comprehensive education plan early in their academic journey. This model is aligned with our equity-focused Unit-Based Counseling structure, which organizes students into caseloads by unit ranges to ensure targeted support at critical milestones.

Leveraging Starfish, our Completion Coaches identify students who have not yet completed a comprehensive educational plan. We collaborate with our Office of Institutional Effectiveness to disaggregate this data by race, ethnicity, and other equity metrics to ensure DI students are prioritized in our outreach efforts. Campaigns are then launched by the Counseling Department during designated periods throughout the semester.

During these campaigns, Completion Coaches use a multi-tiered outreach strategy, including emails, phone calls, and text messages, to contact students who are missing an educational plan. These efforts begin with DI students and continue until all students in this group have been contacted at least twice before expanding outreach to the broader student population. Outreach efforts are warm, student-centered, and designed to reduce barriers to scheduling counseling appointments, following scripts that highlight the importance of planning and affirm the student's progress and potential.

This initiative-taking model represents a structural shift away from a traditional, student-initiated counseling approach. By embedding Completion Coaches in our Student Success Teams and using milestone-based data, we are transforming educational planning from a one-time transactional activity into a high-touch, equity-minded intervention.

Crafton Hills College remains committed to closing equity gaps and ensuring every student, especially those historically underserved, receives timely and comprehensive guidance to reach their educational goals.

8. Summarize key strategies to the strategies for the DI student populations and transferintending students summarized above, your college plans to implement or continue to proactively ensure all students receive a comprehensive education plan early in their journey – with a primary goal delivery in the first semester, and a secondary goal of delivery by the end of their first academic year. This will help support equitable outcomes and prepare students for transfer, employment, and economic mobility.

Crafton Hills College has restructured its counseling services through the implementation of a Unit-Based Counseling Model designed to ensure all students, and DI students in particular, regardless of background, major, or goal, receive a comprehensive education plan early in their academic journey. This structural shift organizes students into caseloads based on unit completion (e.g., 0–14 units, 15–29 units, etc.), allowing Counseling Faculty and Completion Coaches to deliver timely, personalized guidance that aligns with a student's academic progress and career goals.

To promote early educational planning, our Completion Coaches initiate targeted campaigns each semester using Starfish data to identify students without a comprehensive plan. These campaigns involve multi-touchpoint outreach (text, email, and phone) that continues until students are scheduled with a counselor. While initial efforts prioritize DI populations, these campaigns expand to serve the entire student body once equity benchmarks are met. This model ensures a

scaled approach that is both equity-driven and inclusive.

Beyond outreach, the college integrates education planning into its onboarding experience, including within Summer Bridge cohorts and categorical programs. Our SOAR student onboarding process includes structured education plan development, and follow-up counseling appointments are scheduled to revisit and update these plans as students advance.

To maintain momentum, students are re-engaged at key academic milestones: undeclared students receive major exploration support between 15–30 units; transfer-intending students are encouraged to complete IGETC or CSU GE certifications between 30–45 units; and those nearing 60 units receive outreach for graduation checks. Our counselors also collaborate with instructional faculty, completion coaches, and career services to integrate career exploration into planning conversations, ensuring plans reflect long-term employment and transfer goals.

Through these intentional strategies, rooted in structure, accountability, and equity, Crafton Hills College is ensuring that all students are supported with timely, comprehensive planning that promotes academic momentum, enhances retention, and prepares them for successful transfer and career outcomes.
