VPEA Report
November 7, 2011

Breakouts:

Friday, November 4th I attended a Robert's Rules of Order breakout ran by Lorenzo R. Cuesta, a Professional Registered Parliamentarian. Cuesta passionately advocated the importance of running an effective meeting using parliamentary procedure. The breakout was informative and motivating, therefore, I provided a handout with all the information he conveyed and more. I intend to look into having a parliamentarian (hopefully Lorenzo) come before our senate to better educate us upon the use of Robert's Rules.

SSCCC President:

Region 9 delegates, including myself, voted to support SSSCC President Kevin Feliciano.

Resolutions:

The resolution process was extremely informative and enlightening. I discovered how important it is to have a complete understanding of the resolutions prior to General Assembly. Though many of them were made clear through debate and requests for information. Several resolutions and many amendments were added at the last minute, because of this I believe it is necessary to leave the final voting decision to the delegate. There were only a few times that I went against the decision of our Senate, because our information was not sufficient and once made clear, these particular resolutions did not serve the interests expressed in our initial decision. I feel with more preparation this situation is less likely to occur; however,

even with sufficient preparation I believe final voting rights should be left to the elected delegate.

CHC Participation:

I would like to praise our President, Christopher Walsh, for his concise yet epic contribution to an extremely controversial resolution. The resolution was created to oppose the entirety of the Student Success Task Force's recommendations, without discussion or debate on any individual item. As decided by the Senators that attended GA, we were strongly against this resolution.

President Walsh was the second speaker on the con mic and with more eloquent words than mine stated that the 1960 Master Plan for Higher Education was dead and the time to create a better system is now. This controversial statement stirred the audience and was met with both cheers and “boos.”

Moments later, without hesitation, President Walsh approached the parliamentary mic, lacking delegate rights he could only ask for a point of information: what are the consequences should this resolution pass? President Feliciano smiled and answered: any and all student voice on the Student Success Task Force would subsequently be eliminated. Such a seemingly simple question brought the results Walsh expected. The audience was shocked and a deep “ooohhhh” reverberated throughout the conference room, suddenly all those gathered around the pro mic dissolved and people flocked to the con mic. Ultimately the resolution failed with a near unanimous vote. In my opinion, President Christopher Walsh effectively swayed the vote and was the deciding factor in defeating said resolution.

I thank Chris for all of his help throughout the resolution process and I want to express my appreciation for his extensive knowledge pertaining to education and politics. We are lucky to have such a capable President and I hope to take this experience and everything else I can learn to the next GA and hopefully make such an impact while representing Crafton Hills College.
