

## **Curriculum Report: April 28, 2017**

- Disciplines that were not approved disciplines by the State Chancellor's office were renamed or courses were moved into approved disciplines.
- Non-Credit courses are now able to be put into CurricUNET as we have added fields that are required for non-credit courses.
- The committee was asked to consider moving away from CurricUNET to a curriculum inventory system run by the same company that runs our online catalog. This is to have a seamless integration of catalog and course outlines.
- The following is a summary of the courses approved and programs approved during the 2016/2017 academic year.
