Chancellor's Office approval is required for all noncredit courses that receive state apportionment. Ten noncredit categories are established to classify a noncredit category in accordance with its primary objective. These categories of noncredit courses are eligible for state apportionment in accordance with California education Code sections 84757(a) and 84760.5 and California Code Regulations title 5, section 58160.

Noncredit courses offered in the four district categories (instructional domains) of English as a Second Language (ESL), Elementary and Secondary Basic Skills, Short-term Vocational, and Workforce Preparation are eligible for "enhanced funding" when sequenced to lead to a Chancellor's Office approved certificate of completion, or certificate of competency, in accordance with the provisions of the California Education code governing Career Development and College Preparation (CDCP) programs

The enactment of the Community College Funding Legislation (Senate Bill 361, Scott 2006) established the Career Development and the College Preparation (CDCP) program. Certificates are offered in several areas of study. Colleges may offer noncredit programs of two or more courses to prepare students for employment or to be successful in college-level credit coursework.

Noncredit apportionment is limited to ten categories, as such all non-credit courses will fall under one of the following 10 categories. All noncredit courses will be assigned a course identifier followed by a /N, followed by a number from the 600's. (example: WFP/N-601 Essential Workplace Traits and Skills). Noncredit course identifiers will be approved by the CHC Academic Senate.

Noncredit Discipline & course identifiers	Curriculum/course descriptor	Departments involved in the proposed NC courses review and approval process	MQs
