

Quality Colleges Quality Workforce

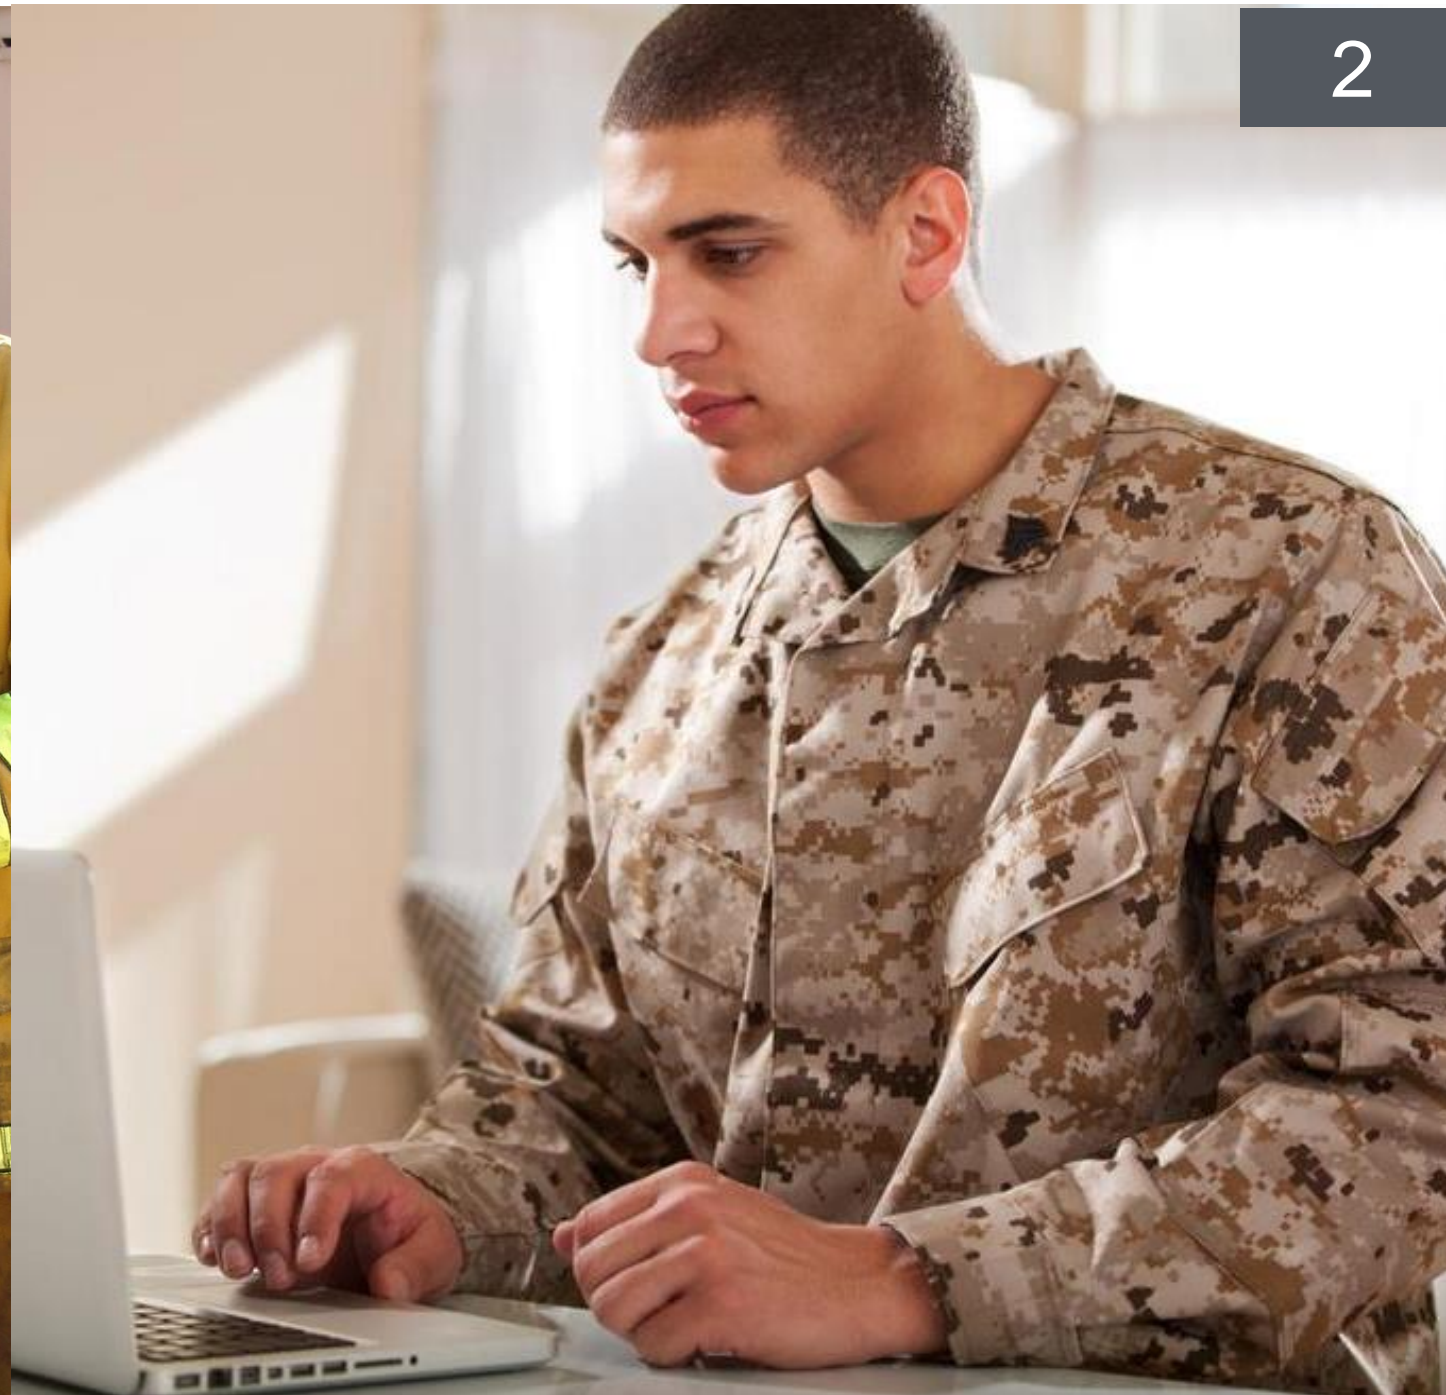

**SAN BERNARDINO
COMMUNITY COLLEGE DISTRICT**

Crafton Hills College
San Bernardino Valley College

Local, high-quality affordable education for everyone

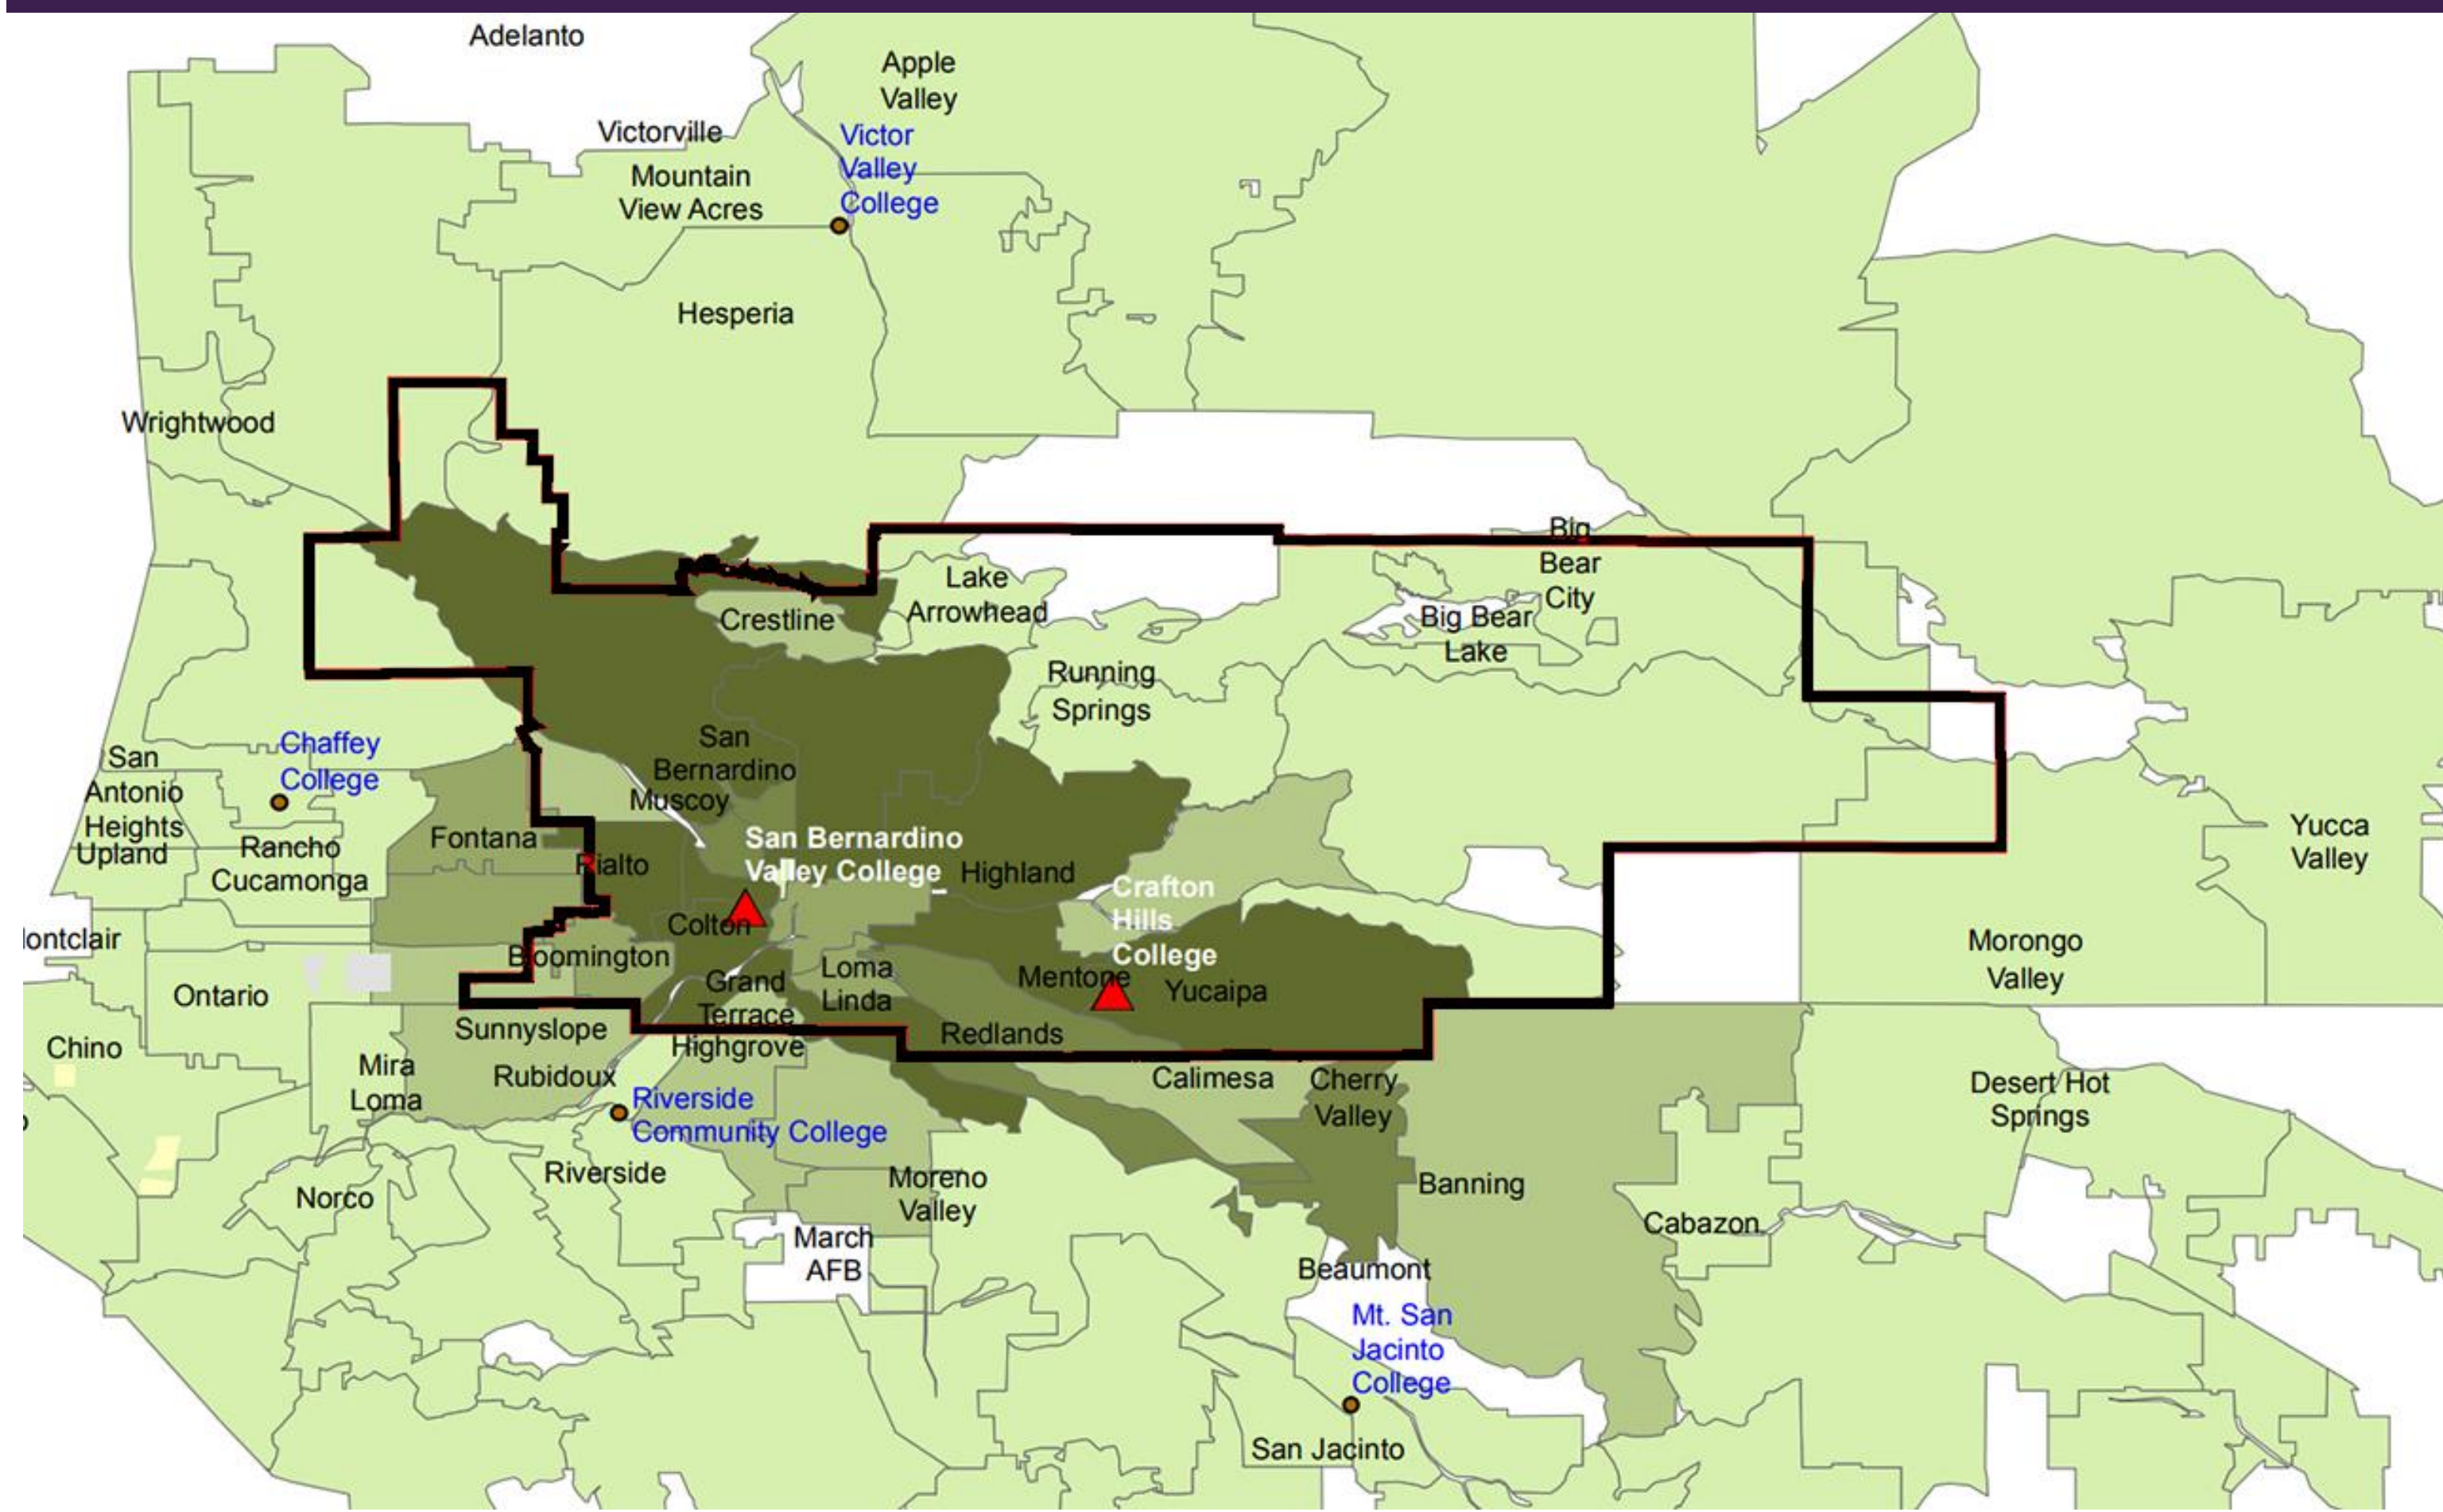

In-Demand Workforce Training
Pathways to UC and CalState

21,000 students from **20 cities** across the Inland Empire depend on Crafton Hills College and San Bernardino Valley College

21,000 students from 20 cities across the Inland Empire depend on Crafton Hills College and San Bernardino Valley College

Our service area includes:

- Big Bear
- Bloomington
- Colton
- Crestline
- Grand Terrace
- Highland
- Lake Arrowhead
- Loma Linda
- Mentone
- Redlands
- Rialto
- San Bernardino
- Yucaipa
- *(Partial list)*

OUR IMPACT:

We add \$621,800,000 to the regional economy every year

Our students re-enter the workforce with new skills, empowering them to earn higher wages and salaries.

**TAXPAYERS RECEIVE
\$3.30**

For every dollar invested in education

\$528 million

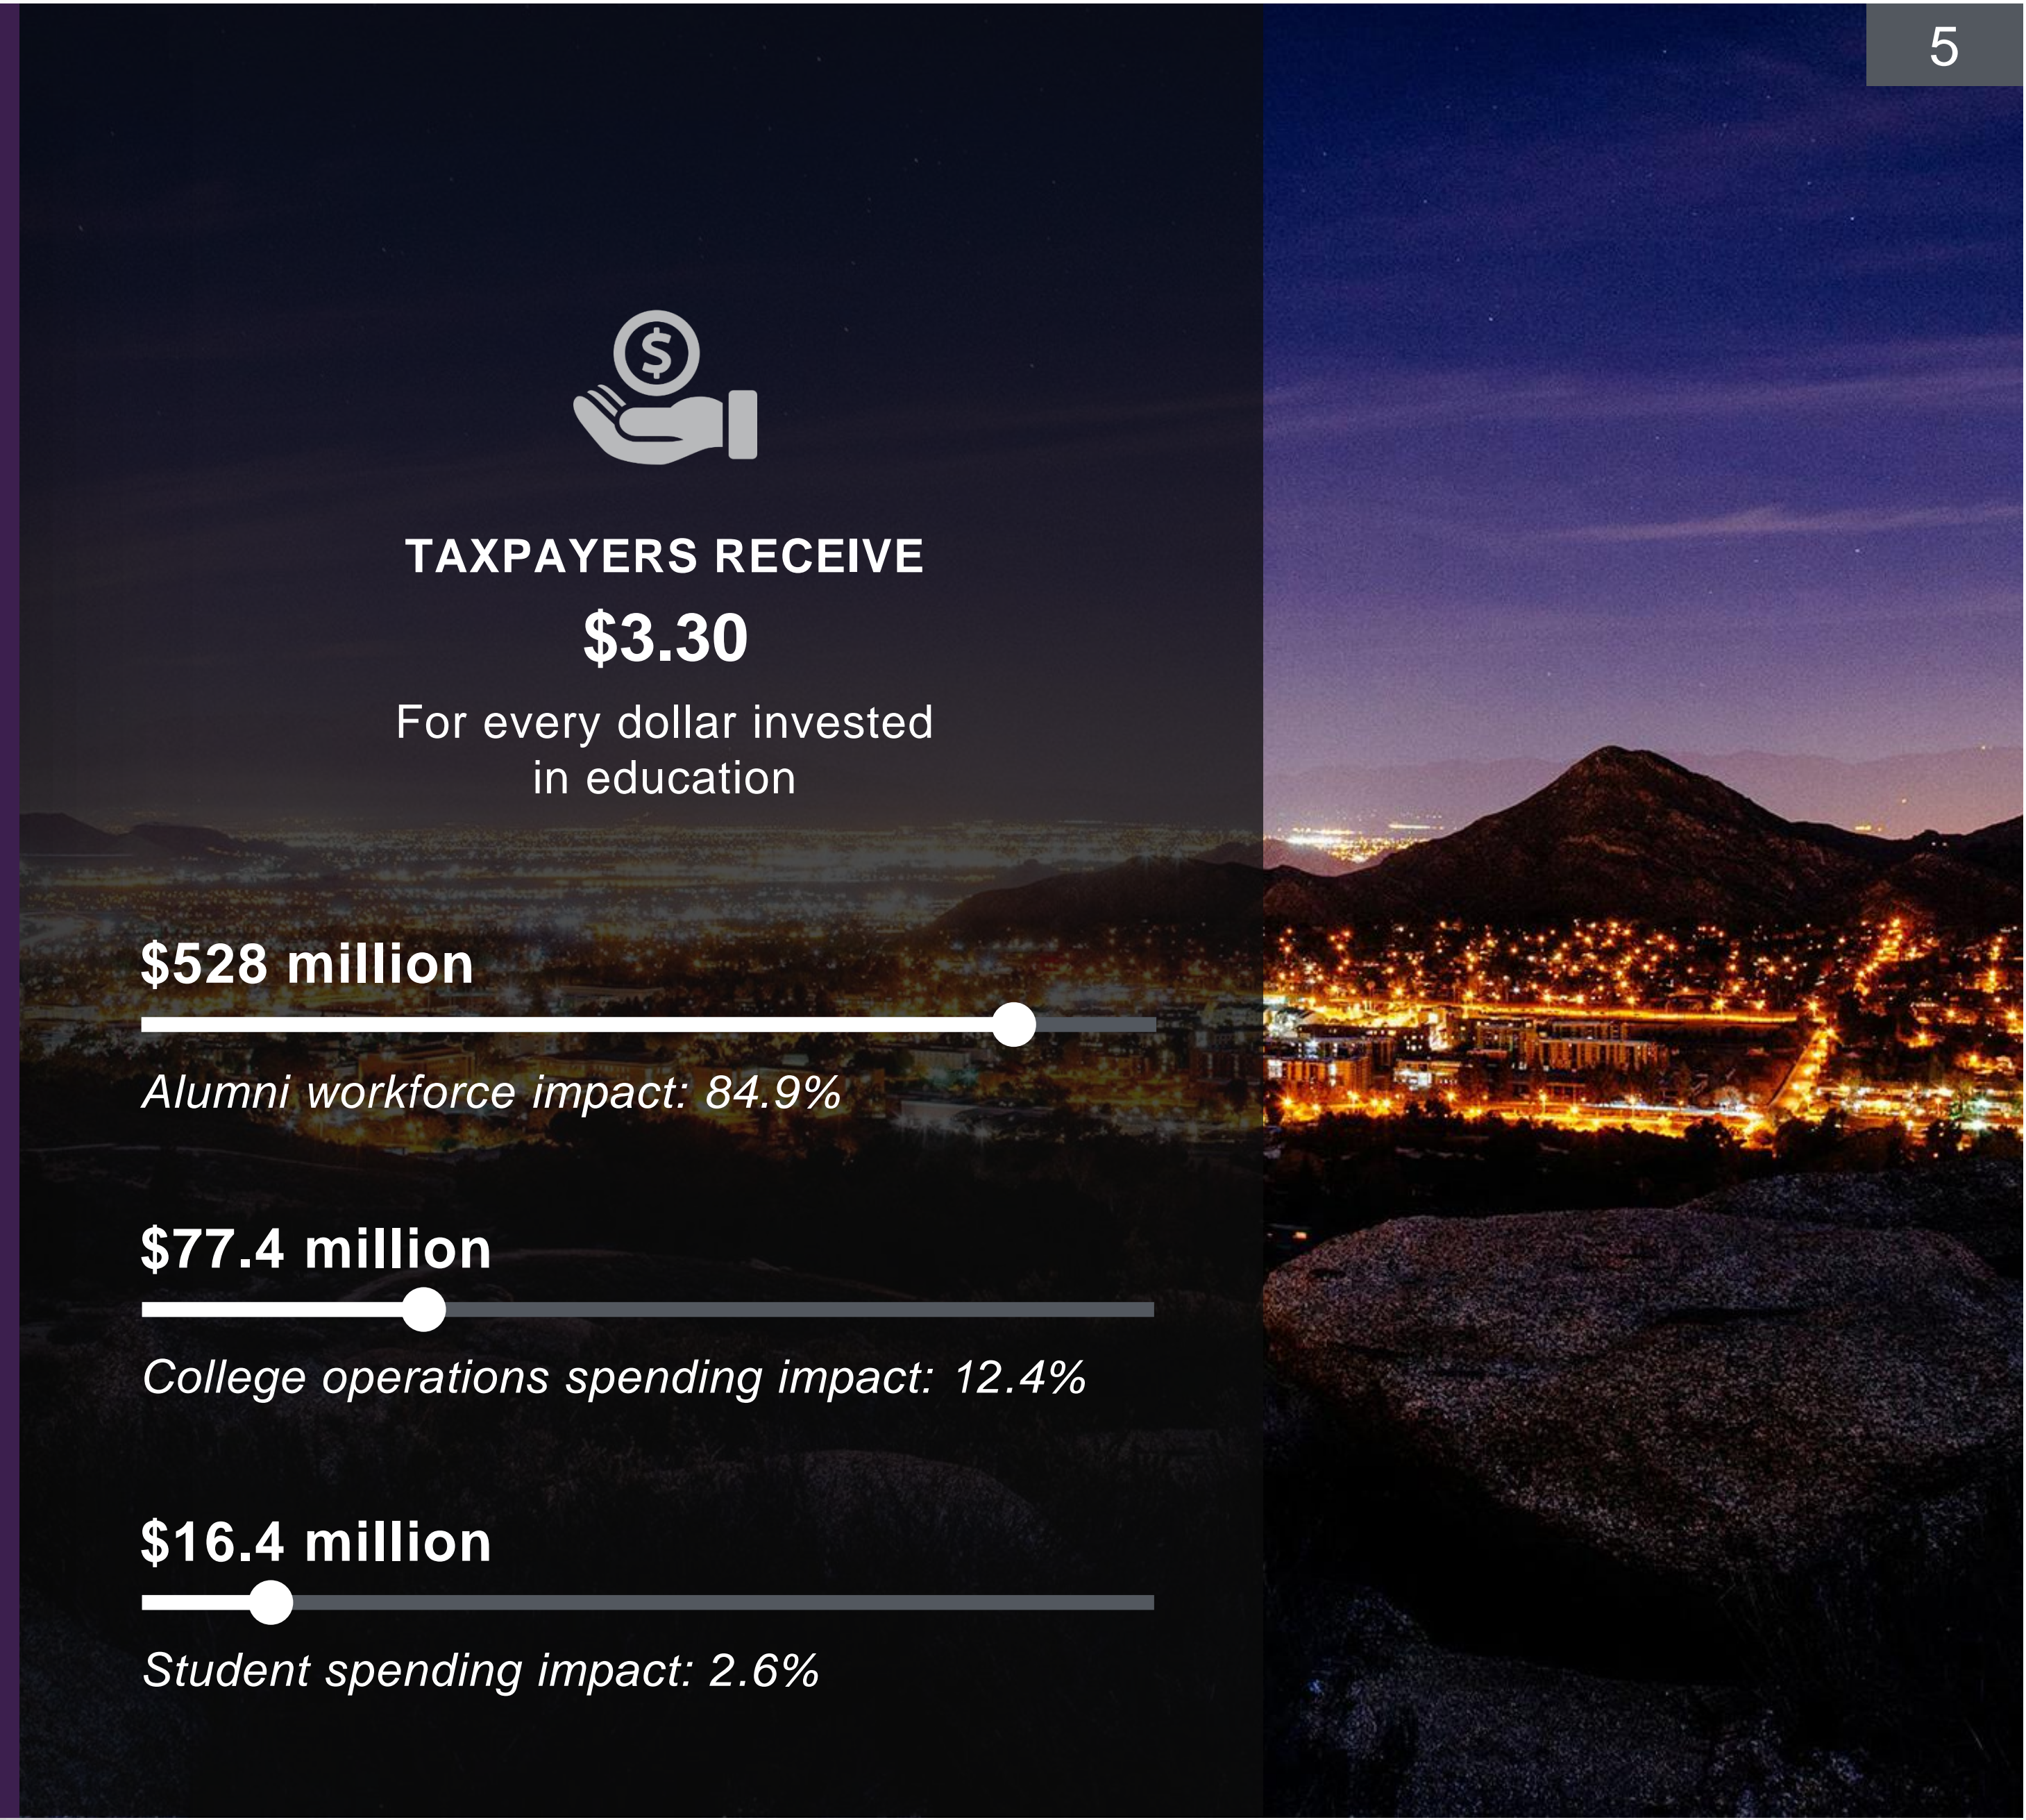

Alumni workforce impact: 84.9%

\$77.4 million

College operations spending impact: 12.4%

\$16.4 million

Student spending impact: 2.6%

OUR IMPACT:

Opportunities to build a career

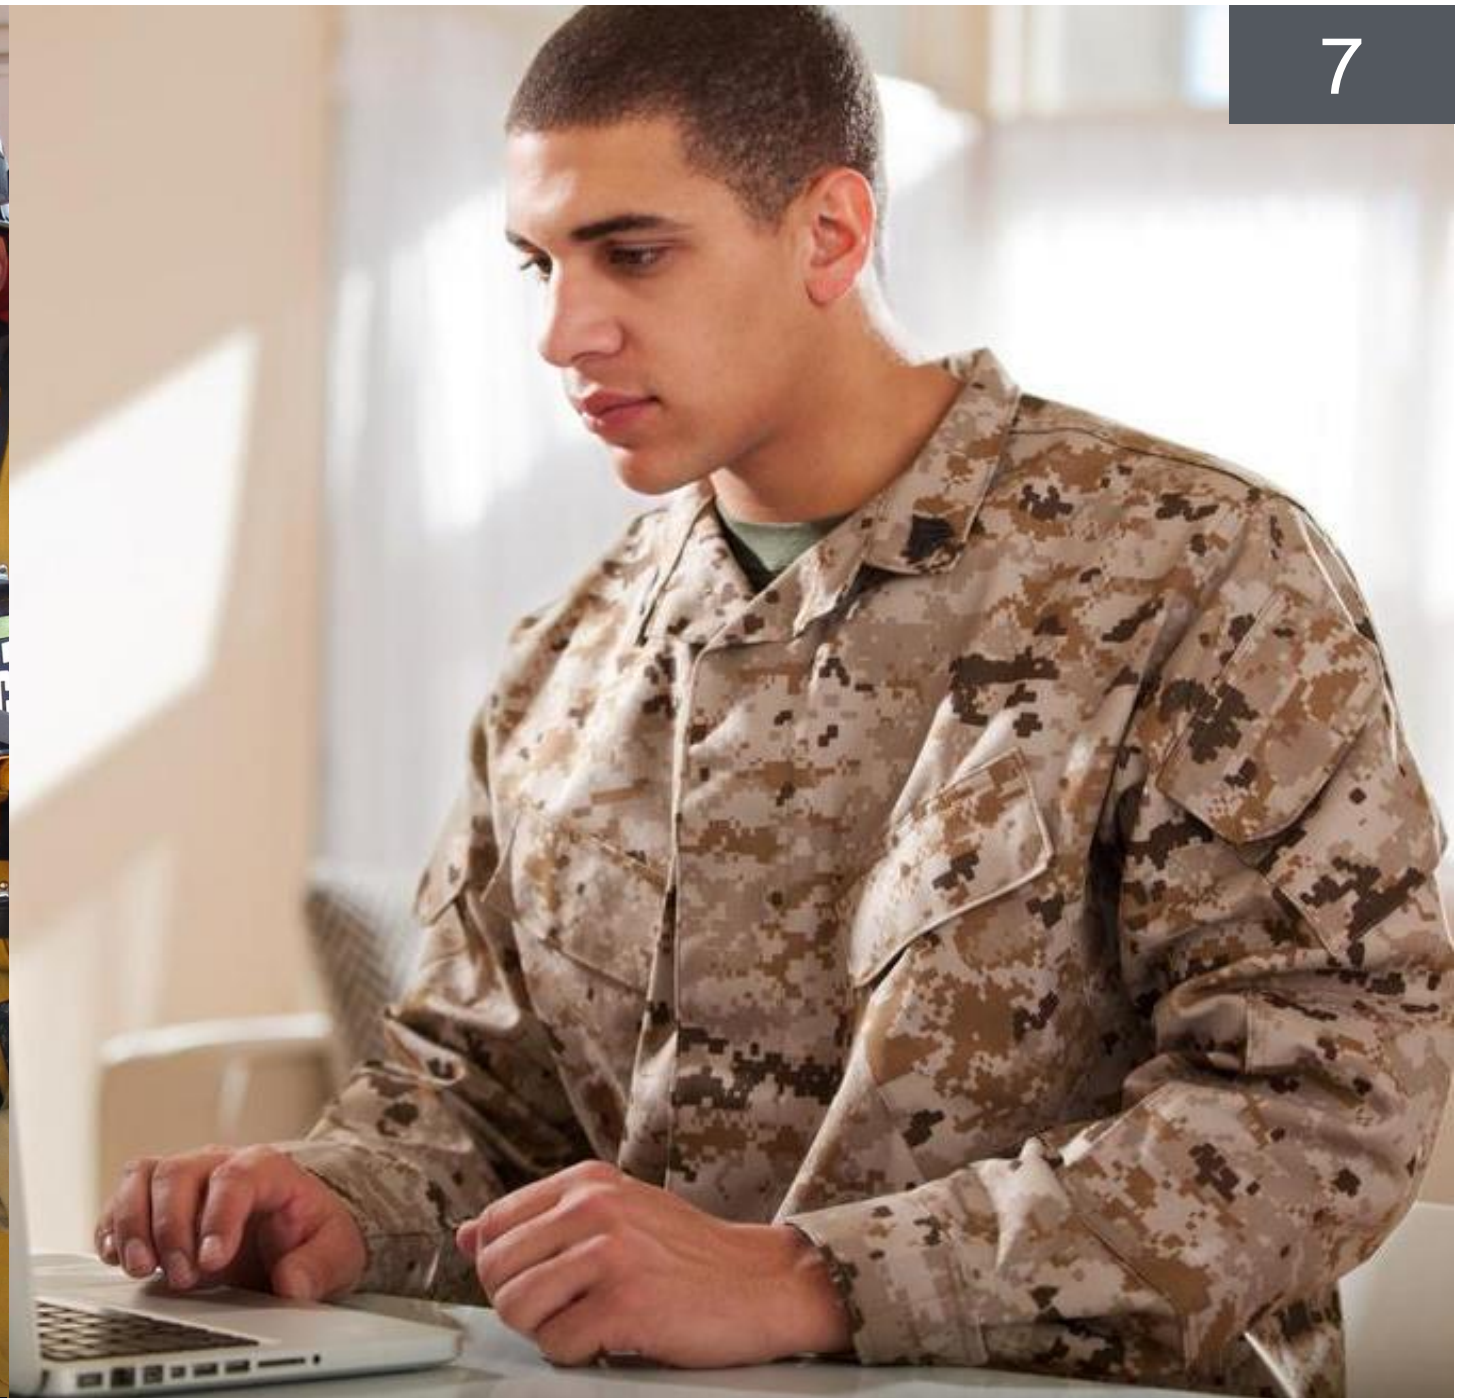

- Working with K-12 on career readiness
- Upgrading skills for 100+ local employers
- Launched fast-track STEM job training
- Simplifying roadmap to bachelor's degrees
- Statewide leader for raising grads' income

OUR CHALLENGE:

To continue building a quality workforce, our students need quality colleges

As local companies expand and demand for skilled workers grows, we need to improve classrooms, labs and career training facilities to provide students with skills required for today's and tomorrow's jobs.

We need to upgrade classrooms and labs to prepare students for future success

- Repair or replace leaky roofs, old rusty plumbing, and faulty electrical systems
- Upgrade classrooms, labs and career training facilities for biology, physical sciences, information technology, engineering, industrial technology, manufacturing, automotive technology and logistics, emergency medical services, anatomy and nursing
- Improve student safety and campus security systems including security lighting, security cameras, emergency communications systems, smoke detectors, fire alarms, and sprinklers
- Improve student centers to provide job training, job placement, counseling, and support services to students
- Improve access for students with disabilities
- Upgrade libraries to accommodate modern technology, digital resources, and improve instructional support for students

IN FACT:

Community colleges in San Bernardino County have been overlooked – no Prop. 51 dollars

55% of California voters approved Prop. 51 in 2016 to fund new construction and modernization of K-12 schools and community colleges.

OUR STUDENTS CAN'T WAIT ANY LONGER:

Local funding solution to help repair, upgrade and improve our community colleges

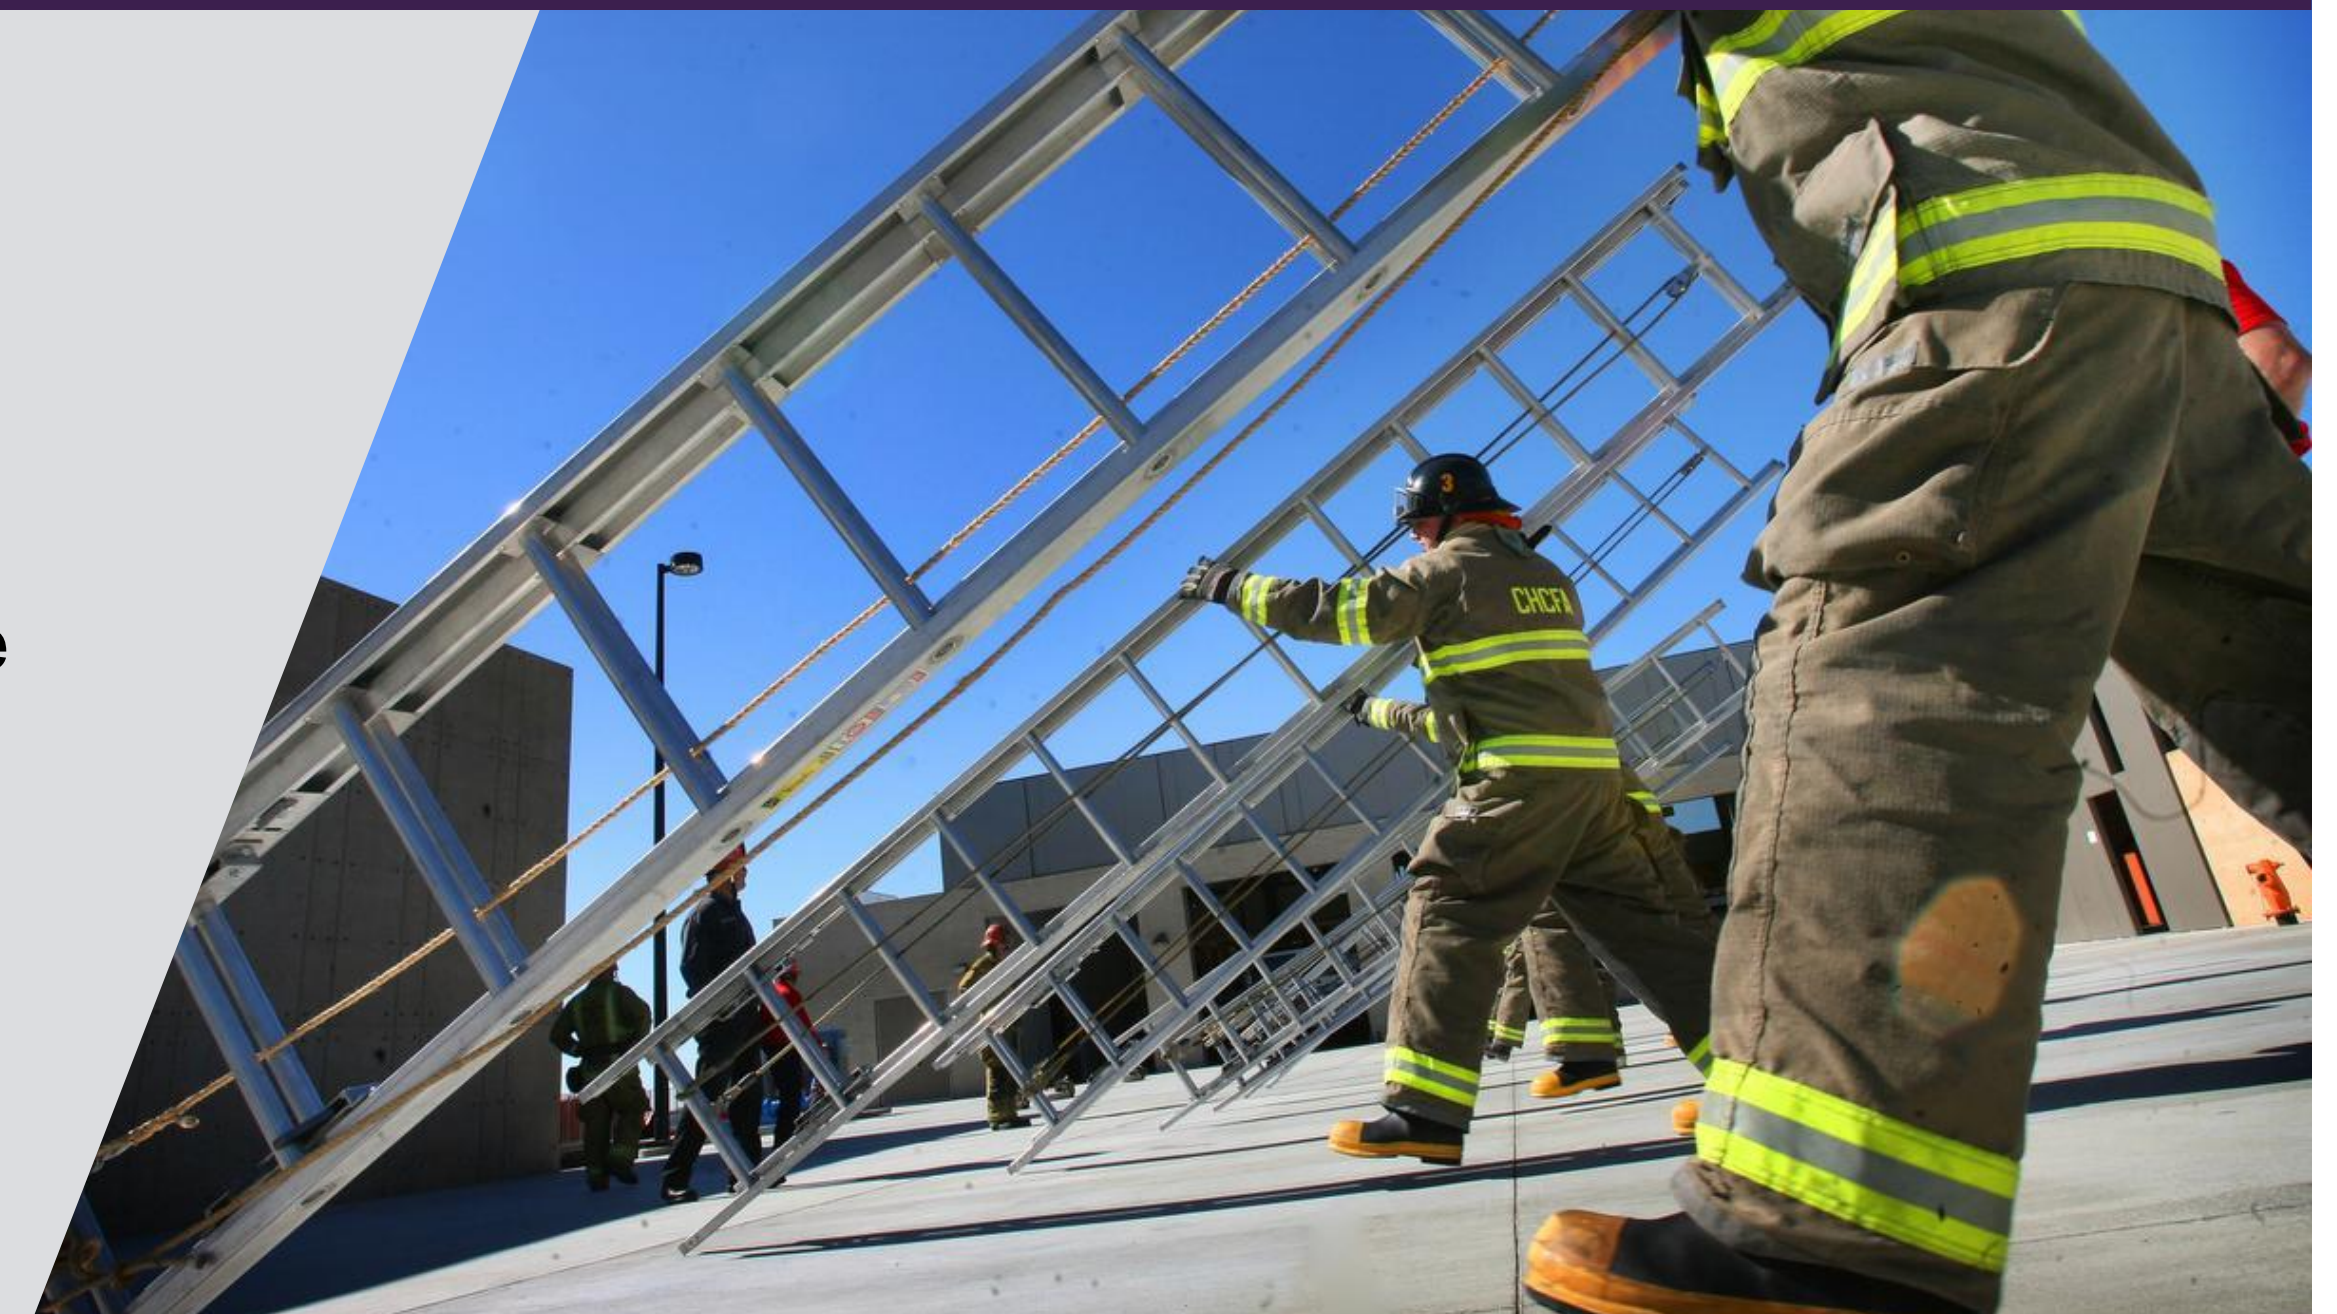

A November 2018 bond measure will give local students quality workforce preparation by:

Bringing colleges up to basic health and safety standards

Repair or replace leaky roofs, old rusty plumbing, faulty electrical system, fire alarms, smoke detectors and security cameras. Improve building access for students with disabilities.

Fixing and updating older classrooms and job-training facilities

Address a long backlog of crucial repairs and upgrades to rebuild and modernize classroom technology, STEM labs, and student centers to provide job training and counseling.

OUR STUDENTS CAN'T WAIT ANY LONGER:

Local funding solution to help repair, upgrade and improve our community colleges

Strict taxpayer accountability

Independent taxpayer's oversight committee and regular audits would ensure funds are spent as promised, and not on college salaries or operating expenses

\$470 million local funds could not be taken away by Sacramento ensuring that every penny raised would be spent to improve local colleges

Colleges could qualify for state matching funds if SBCCCD has local funds to construct safe, secure and up-to-date facilities

THANK YOU FOR HELPING US BUILD

Quality Colleges Quality Workforce
