

Academic Senate | Resolution S22.03 | Approved 5.18.2022

---

## Reestablishing Academic Senate's Role in Policies For Faculty Professional Development Activities.

---

Whereas Faculty Professional Development falls within the purview of the Academic Senate as the primary recommending body in alignment with the 10+1; and

Whereas faculty and staff do not have the same Professional Development requirements, needs, or obligations; and

Whereas while the shared governance process linked to the Professional Development involves faculty, it does not rely on Academic Senate as the primary recommending body;

Resolved that the Crafton Hills College Academic Senate will establish a sub-committee of Faculty Professional Development and the chair of this committee will be a member of the Academic Senate Executive team; and

Further resolved that the Academic Senate will have direct input on any further Faculty Professional Development activities.
