Graduation Requirements

For students wishing to complete an undergraduate degree at Crafton Hills, the college offers both discipline-specific and multidisciplinary associates degrees to build competency in a desired field. Students who choose these degree options will need to fulfill either [Cal-GETC](#) or [Crafton Hills College Local](#) general education requirements. For students who plan to transfer to a four-year university, specific courses may need to be completed to meet their perspective university's transfer admission requirements. Both the CSUs and UCs have their own sets of general education requirements, which are described in their respective sections. Major preparation courses also differ, depending on the college and the program.

Students are encouraged to meet with a counselor to discuss their general education selection and create a [Student Education Plan \(SEP\)](#) appropriate to their goals.
