Emergency Medical Technician - I Certificate

The objective of this certificate program is to document that the student has successfully completed an approved Emergency Medical Technician (EMT) course that meets the requirements of the California Code of Regulations, Title 22. Social Security, Division 9. Prehospital Emergency Medical Services, Chapter 2. Emergency Medical Technician and has passed all required tests required by the California certifying agency.

The EMT program is open to all students who meet the age and physical requirements. There are additional requirements for initial certification (written and skills testing, state and federal criminal history background check).

Major/Program Requirements
