## **Online Tutoring**

All online (distance education) students at Crafton Hills College can access free, live online tutoring through Canvas integration with NetTutor.

### **What is NetTutor?**

NetTutor offers live sessions with trained tutors 7 days a week. All tutors hold a bachelor's degree or higher and work to give insightful feedback in order to encourage students to grow ideas and engage in their own learning process.

### **How do I access NetTutor?**

To Access NetTutor sign in to your Canvas course and select the NetTutor link on the left-hand side (Don't see the link? Email your professor or the Distance Educations Leads for CHC ([DEFacultyLead@sbccd.onmicrosoft.com](mailto:DEFacultyLead@sbccd.onmicrosoft.com))). After selecting the NetTutor link, you will need to select the subject you for which you would like online tutoring.

### **What does Canvas integration mean?**

Canvas integration means that the service is directly embedded into Canvas courses. This typically means that no other sign on (other than Canvas and an initial account signup) is required to access the service.
