Subject: SBCCD Cybersecurity Awareness Training

To: All SBCCD Faculty and Staff
From: Anthony White, Director of Security and User Services
Re: SBCCD Cybersecurity Awareness Training

Dear colleagues,

As part of our District Technology Master Plan, we will be sending out an email for the Annual Cyber Security Training. These training videos will help prepare you to identify scam emails, understand responsible use of AI, stay safe online, and identify other ways to keep your computer and data secure. This training is required annually and needs to be completed by January 31, 2026.

Attached you will find an example of the email that you will receive for the Cyber Security Training. You can also access the training directly by clicking the following link: [SBCCD Cybersecurity Training Program](#). The videos can be found by clicking on the “Content Library” on the menu. If you have any questions about accessing the learning platform or securing your computer, please contact the Help Desk at (909) 384-4357.

Thank you for your support and we hope that you find this training helpful.

Thank you,

Anthony White
