

Term	RFTEs Target (includes 0 load sections)	Units (excludes 0 load sections)	Notes
2023SM		445.51	549 Over last four summers, the average units were 1.233 times the RFTEs.

**Starting Goal**

The insitutional wide goal for sections is 40% online and 60% in person/hyrbid with a balance of within courses for students.

**Items to Keep in Mind**

Have all three options for students within disciplines and popular/required courses where possible: online, in-person, and hybrid

STEM and occupational fields will have higher proportion of in-person and hybrid sections

As the survey data comes in, schedule will be adjusted based on feedback from students

The unit targets by department and subject are a general guideline based on proportions and prior offerings

**Input from Counseling on Summer 2023 Classes**

Explore offering one section of ANAT-151 and CHEM-151 in the Summer for nursing students.

Offer Science labs (hybrid) in person similar to what we are doing in Spring 2022.

Explore MATH-110 as late start.

Offer in-person science labs.

Offer at least one section of ASL-101. ASL-101 is only FL that meets Area 6 IGETC. Explore adding Spanish to Area 6 IGETC.
