

CHC Safety Committee Recommendation to the Crafton Council Regarding the Evolution of the COVID-19 Pandemic

April 11, 2022

The CHC Safety Committee reviewed the student vaccine mandate implementation questions and feedback discussed in the District Reopening Taskforce on Wednesday, 3/9/22 and provides the following recommendation:

- Base SBCCD's response to the pandemic upon regulatory requirements and current public health guidelines.

As guidelines evolve, District directions should evolve accordingly. Based upon the relaxing of pandemic-driven safety measures, we recommend reversing the implementation of the student vaccine mandate and allow for optional masking.

- Monitor the San Bernardino County Covid-19 dashboard and Department of Public Health guidelines for changes. Revise directions as necessary.
- Maintain online course offerings and services to the extent possible for those not yet comfortable with in-person classes and services.
- Provide individuals an opportunity to present views on this matter by polling all students and employees to determine the comfort level with this proposed direction.
