

## Certificates, Degrees, and Transfers

			1.5SD		2.0SD	
	1819	SD	ISS	Stretch	ISS	Stretch
<b>Cert</b>	296	47	225	367	202	390
<b>Degree</b>	472	20	442	502	432	512
<b>Transfer</b>	497	110	331	663	276	718

## Success Rate Approach

Determined the variability at college-level over five-year period => .75 SD (not aligned with disaggregated findings for ethnicity). ISS would be equal to 73.1.

Determined the variability across four largest groups (Asian, African American, Caucasian, Hispanic) for 17-18 and 18-19, and pooled those SDs => 7 SD (outside the likely range for college-level data)

Set to ½ SD => 3.5 SD

			Half Pooled SD (3.5SD)	
	1819	SD	ISS	Stretch
<b>Success Rate</b>	73.8	0.5	70.8	77.3
<b>Note.</b> The ISS and Stretch values are based upon the approach described above, not the actual SD (0.5) reported in this table.
