

Four Point Outcomes Rubric Defined

Departments that want to specifically define their Four-Point Rubric will communicate that information to the Office of Institutional Effectiveness, Research, and Planning. If departments do not have a defined four-point rubric, the following default rubric will be applied. Faculty will be able to view the rubric descriptions in the Outcomes Cloud.

Possible Default Rubric #1

Rubric Value	Rubric Description
1	Below Basic – Student has a little or no understanding of the concept (59% or below). If assessing with dichotomous rubric, choose this option if student has not met outcome.
2	Basic – Student has a weak understanding of the concept (69-60%)
3	Proficient – Student meets or is near standard. There is a good understanding of the concept (84-70%)
4	Advanced – Student displays an advanced knowledge of the concept above the standard level (100-85%). If assessing with dichotomous rubric, choose this option if student has met outcome.
