

**Crafton Hills College  
Curriculum Committee**

Monday, January 22, 2018

2:00 pm –CCR 233

**Members:** Kim Salt (Chair)(I), Brandi Bailes (I), Robert Brown, Kirsten Colvey, Troy Dial, Kristen Garcia, Kenneth George (I), Laurie Green (I), Kristina Heilgeist, Catherine Hendrickson, Rick Hogrefe (II), Van Muse, Shohreh Rabarnia (II), Miriam Saadeh, Michael Sheahan (II)

1. Approval of Minutes December 11, 2017
2. Action Items

**COURSE MODIFICATIONS**

- a. **EMS 921x20 Emergency Medical Technician Refresher** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Jim Holbrook  
**Rationale:** This course need to be modified to meet the new California regulations (July 1, 2017) and the National Registry process  
**Prerequisite:** Student must present copy / proof of a current California EMT certification.  
  
**NOTE: The DE portion of this course is not being approved at this time. Since it is State Mandated Curriculum, we are only approving the course for the Fall**
- b. **RADIOL 110 Radiographic Exposure I** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Melissa Huynh  
**Rationale:** course has not been updated since 2008  
**Prerequisite:** Acceptance into the Radiologic Technology Program  
**Corequisite:** RADIOL 100, RADIOL 103, RADIOL 104, RADIOL 105, RADIOL 106, RADIOL 107, RADIOL 115
- c. **RADIOL 115 Radiographic Clinic I** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Melissa Huynh  
**Rationale:** course has not been updated since 2008  
**Prerequisite:** Acceptance into the Radiologic Technology Program  
**Corequisite:** RADIOL 100, RADIOL 103, RADIOL 104, RADIOL 105, RADIOL 106, RADIOL 107, RADIOL 110
- d. **RADIOL 116 Radiographic Exposure II** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Melissa Huynh  
**Rationale:** course has not been updated since 2008  
**Prerequisite:** RADIOL 100, RADIOL 103, RADIOL 104, RADIOL 105, RADIOL 106, RADIOL 107, RADIOL 110, RADIOL 115  
**Corequisite:** RADIOL 108, RADIOL 109, RADIOL 111, RADIOL 112, RADIOL 113, RADIOL 114, RADIOL 117

**NEW COURSES**

- e. **EMS 066 Introduction – Patient Care Documentation** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Jim Holbrook  
**Need for the Course:** This course assists the EMS 020 student as an introduction to patient care documentation and is an essential occupational function of the job. One of the keys to an advanced integrated patient care system is the ability to use situational documentation and health care components as part of an organized quality improvement program. Essential to out-of-hospital health care is the ability to accurately and effectively document the environment, the patient assessment, and the response to treatments.  
**Corequisite:** EMS 020

**Crafton Hills College  
Curriculum Committee**

**NOTE: The DE portion of this course is not being approved at this time. Since it is State Mandated Curriculum, we are only approving the course for the Fall**

- f. **EMS 067 Electronic Patient Care Reporting - Field** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Jim Holbrook  
**Need for the Course:** This course assists the EMT student with the required patient care documentation required by Title 22. Essential to any out-of-hospital health care system is the ability to accurately document the patient care and response to treatment. This course will store digitally each student's required patient contacts for regulatory and continuous quality improvement processes.  
**Corequisite:** EMS 020  
**NOTE:** **The DE portion of this course is not being approved at this time. Since it is State Mandated Curriculum, we are only approving the course for the Fall**
- g. **EMS 068 Pharmacology for the EMT** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Jim Holbrook  
**Need for the Course:** This course is needed for the certification of EMT in California. This course fulfills the training requirements and updates listed within California Code of Regulations (Title 22, Division, 9., Chapter 2)  
**Corequisite:** EMS 020  
**Departmental Recommendation:** Be able to incorporate basic math skills into the instructional activity  
**NOTE:** **The DE portion of this course is not being approved at this time. Since it is State Mandated Curriculum, we are only approving the course for the Fall**
- h. **KIN/F 109A Aerial Fitness I** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Colleen Maloney-Hinds  
**Need for the Course:** Aerial fitness is a unique class that focuses on building strength, power, balance, cardiovascular fitness and coordination through the use of one's own body weight and aerial fabrics. Unlike aerial yoga which focuses on meditation, breathing and yoga postures in a slow paced fashion, this course is much more geared towards muscular strength, power, coordination, balance and heart rate elevation. Unlike traditional ground based fitness classes, aerial fitness utilizes moves which put a huge emphasis on the core and stabilizing muscles and uniquely train muscles like no other exercise equipment can. The fabrics can be utilized similar to a TRX suspension trainer but also used for more acrobatic powerful moves while being much more comfortable to use for all fitness levels.  
  
This type of course will attract our students looking for a fun new way to exercise. It keeps our college up to date in the fitness industry as well as relevant and interesting to the community. Our community is very interested and involved in aerial arts of all forms. Many local gyms and studios are already offering courses like this and the community is loving it. Throughout the US colleges and Universities are already starting to add classes like this to their curriculum. Our students have been asking for it here for a number of years now and we now have the equipment to offer it.
- i. **KIN/F 110A Aerial Yoga I** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Colleen Maloney-Hinds  
**Need for the Course:** Aerial yoga is a new variation of traditional ground yoga. It has grown in popularity in California over the past couple of years and more and more studios are offering it. Aerial yoga uses a looped fabric called a hammock that allows gentle support and proper alignment of the spine and body. This style of yoga is perfect for beginners to the most advanced yogis. It can assist those you are less flexible or strong by supporting them in a variety of positions and allowing proper alignment and form. The fabric allows for smooth transitions from one pose to the next taking the tension and strain off of the joints like wrists, hips and knees which is a common complaint with traditional ground yoga. The hammocks also allow more advanced students to begin to explore traditional yoga inversions much more safely since they are supported by the hammock.

## Crafton Hills College Curriculum Committee

This course will keep our department up to date in the world of fitness. allow more opportunities for beginners to advanced students and capitalize on our communities love and support of yoga and aerial arts.

- j. **KIN/S 111A Circus Arts I** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Colleen Maloney-Hinds  
**Need for the Course:** The communities surrounding Crafton Hills College have heavy roots in the circus arts. The local Y Circus has been performing since 1929. Quite a few circus centers have popped up in the near-by Redlands community and are heavily attended. However, they are very expensive and many are performance based only. Circus is not only a skill set but is a great way to improve fitness. Currently there are no community colleges in the area that offer classes which cater to those interested in learning these skills either for the first time or using this skills as a transition into fitness.
- This class will help bring the community onto campus and encourage those interested or curious about the circus arts to use it as a form of fitness improvement along with acquiring new skill sets.

### **PROGRAM MODIFICATION**

- k. **Firefighter I Basic Training Academy Certificate** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Dan Sullivan  
**Rationale:** none given
- l. **Emergency Medical Technician – I Certificate** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Jim Holbrook  
**Rationale:** Some clean up on admission listed in document.
- m. **Associate in Science in Computer Science for Transfer** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Margaret Yau  
**Rationale:** remove courses that have been deleted
- n. **Associate of Science in Computer Science** (to see course outline go to *SEARCH, COURSES in CurricUNET*)\*  
Originator Margaret Yau  
**Rationale:** remove courses that have been deleted
4. Operational Issues

**Next Meeting: February 12, 2018**

**2:00 pm – Room CCR 233**
