

Crafton Hills College Curriculum Committee

Monday, April 24, 2023

2:00 pm—CCR-233

Members: Kim Salt (Co-Chair), Gwen DiPonio (Co-Chair), Debbie Bogh, Jeffrey Burke, Kristen Clements, Troy Dial, Kristin Flores, Andrew Guevara, Kristina Heilgeist, Rick Hogrefe, David Liu, Elizabeth Lopez, Shohreh Rahbarnia, Nicolas Reichert, Joshua Robles, Yuki Toyooka Smith, Michelle Smith, Reyna Uribe, Dan Word, Keith Wurtz.

1. Approval of Minutes April 24, 2023
2. Action Items

COURSE MODIFICATIONS

- a. **CSI 110 Introduction to Computer Science (C++)** (to see course outline go to SEARCH, COURSES in CurriUNET)*
Originator Sandra Ruiz
Rationale:
Departmental Recommendation: CIS 101
DE Approval
Currently equated with CS 110

NEW COURSES

- b. **CSCI 105 Fundamentals for Computer Programming** (to see course outline go to SEARCH, COURSES in CurriUNET)*
Originator Sandra Ruiz
Rationale: Computer programming is a fundamental skill in any field and for so many different applications, not just software development. Programming teaches problem solving skills, encourages critical thinking, collaboration, and planning. It inspires creativity and gives students the ability to develop the technology they need or want. Goals for the course To provide a basic understanding of computer programming and application development for Android and IOS platforms. This course is intended for non-computer science majors.
DE Approval
Not currently equated with Valley
- c. **CNA/N 631 Acute Care Nursing Assistant Theory** (to see course outline go to SEARCH, COURSES in CurriUNET)*
Originator Laurie Green
Rationale: The Acute Care Nursing Assistant Program (ACNA) is an advanced course for the Certified Nursing Assistant (CNA) to be able to perform in the acute care environment (hospital) safely and competently. CNA training must be performed in an acute care environment which is a different environment from a long term care facility. The ACNA clinical is performed in a hospital and CNAs are upskilled with theoretical concepts and skills required in that environment. The students are rotating in medical-surgical, telemetry and emergency room environments.
DE Approval

NEW PROGRAMS

- g. **Acute Care Nursing Assistant – Certificate of Completion** (to see course outline go to *SEARCH, COURSES* in CurriQUNET)*

Originator Laurie Green

Rationale: CNAs are trained to work in long-term care facilities not acute care hospitals. Students are not prepared to work in hospitals without specific instruction. The ACNA class provides theory, skills practice, and clinical time preparing them to work in a hospital environment.
