

Demystifying SLOs: THE TRUTH IS OUT THERE

Prepared and Presented by Keith Wurtz, Ph.D.
Dean, Institutional Effectiveness, Research, and Planning

Session Objectives

- Current progress on outcomes assessment
- Incorporating what you learn from outcomes assessment into your program review
- Review Standard I.B.6, what it means for Crafton, and different options for how to address Standard I.B.6
- Learn how to enter outcomes into the SLO Cloud and actually enter outcomes assessment results into the SLO Cloud

Current Methodology for Percent of Courses Assessed

- The SLO Course Assessment Rate includes the following courses:
 - Courses that have been offered in the last two years and primary cross listed courses.
- The SLO Course Assessment Rate excludes the following types of courses from the denominator:
 - Secondary cross listed courses
 - Honors courses
 - Courses with enrollments of less than 8
 - Courses that are not offered during the reporting year will be removed from the denominator.
- A course was identified as needing to be assessed if hasn't been assessed in the last two complete academic years

Incorporating what you have learned from outcomes assessment into program review

- Login to the SLO Cloud (Enter your District login username and password)

The screenshot shows the top navigation bar of the Crafton Hills College website. The navigation bar is orange and contains links for "Find People", "Departments", "Mission", "Give to Crafton", and "Logins". The "Logins" link is highlighted with a dashed box. A dropdown menu is open from the "Logins" link, listing various services: "Blackboard", "WebAdvisor", "Student Email", "Faculty/Staff Email", "Program Review", "SLO Cloud", "CurricUNET", and "Forgot Password". A red arrow points to the "SLO Cloud" option in the dropdown menu. Below the navigation bar is the Crafton Hills College logo, which features a stylized mountain range in green and orange. Below the logo is a dark green navigation bar with links for "Prospective Students", "Current Students", "Online Students", and "Faculty". Below this is a light blue banner for the "Office of Institutional Effectiveness, Research & Planning". At the bottom of the page is a breadcrumb trail: "Home » About CHC » Institutional Effectiveness, Research & Planning".

#	SLO Statement	# of Students Meeting SLO Rubric				# 3 or higher	% 3 or higher
		1	2	3	4		
1	Expressive Communication: Students will demonstrate language proficiency by signing American Sign Language at a beginning to intermediate level.	23	26	70	61	131	72.78%
2	Receptive Communication: Students will interpret visual/signed ASL at a beginning to intermediate level.	35	27	68	49	117	65.36%
3	Deaf Culture and History: Students will demonstrate appropriate knowledge of the Deaf community regarding social interactions, beliefs, values, arts, literature, entertainment, and diversity.	15	26	71	71	142	77.60%
4	Cultural Diversity and Appreciation: Students will define the concept of culture, appreciate other cultures and interact with members of those cultures in relation to their own.	34	1	60	50	110	75.86%

Incorporating what you have learned from outcomes assessment into program review

- One of the reflections from the outcomes assessment identified the creation of an ASL Lab to help advance student skills and spend more time being exposed to the language.

7 Reflection(s)

- This class really struggled with their receptive skills. I do not assign homework but instead give it daily as an option for students to do for extra practice. In situations such as this, I may need to start requiring it. In regards to their expressive skills, I am surprised it is not higher since this was a "tablet pilot" class where they were required to sign each night and share it with their peers the following class. I will work to make this a more effective process and hold students accountable for providing good feedback.
(ASL-101-15 for 2014FA)
- This class was amazing! I loved their energy and motivation. I don't see a need for further action in regard to the performance of this class.
(ASL-101-40 for 2014FA)
- Provide more variety or teaching techniques, dialogue practice, and role play. Sometime students show a lack of motivation.
(ASL-101-35 for 2014FA)
- Receptive skills need to be improved. More hands on videos and in-class reflections will be added to the course next semester. **An ASL lab (in the future) would be a great tool for students to further advance their skills and spend more time being exposed to the language.**
(ASL-101-25 for 2015FA)
- Provide more learning opportunities and practice activities throughout the semester that will be similar to the format of the final.
(ASL-101-55 for 2016SP)

Incorporating what you have learned from outcomes assessment into program review

- **1 - Goal - Promote student success**
 - **1.1 - Objective - Increase student services to support classroom learning.**

Resource Requests

- **Purchase resources for language lab**
- Provide standardized material (DVDs) and webcams for students to practice both receptive and productive ASL skills.
- Expenditure Category: Supplies (4000)
- First Year Cost/Savings: \$850.00/\$0.00

Actions/Activities:

- **1.1.a3 - Establish a language lab** - Provide students with the ability to practice their receptive and productive language skills in monitored setting with standardized material.
- Waiting to hear from management if this is a possibility with the new buildings coming online in the next couple of years.

Standard I.B.6

- The institution disaggregates and analyzes learning outcomes and achievement for subpopulations of students. When the institution identifies performance gaps, it implements strategies, which may include allocation or reallocation of human, fiscal and other resources, to mitigate those gaps and evaluates the efficacy of those strategies.

Standard I.B.6

A person is walking through a field of tall grass, moving away from the camera. The background shows a hazy landscape with rolling hills under a bright sky.

- Possible Options
 - Record outcomes assessment results by student
 - Administer campus wide ILO assessments, collect SID with assessments, and disaggregate results by subpopulation

Current Method for Entering Outcomes Data is by Outcome

SLO Cloud

The background of the slide is a faded, high-angle photograph of a large, open field, possibly a farm or a park. Two people are walking away from the camera towards the horizon, leaving long shadows on the ground. The overall tone is light and airy, with a soft focus.
