

EMERGENCY MEDICAL TECHNICIAN - I

EMT BASIC

2016-2017

Student Name: _____

ID #: _____

Date: _____

Counselor: _____

The objective of this certificate is to train students to perform basic life support in the pre-hospital setting. Successful completion of the certificate program identifies the student has met the educational requirements as an Emergency Medical Technician and eligibility to take the National Registry Examination. This is a state certificate program.

Admission: Open to all students who are 18 years of age or greater at the time of registration and meet the reading pre-requisite through the CHC assessment process. Registration is limited to a class size of thirty-six students.

Note: Prior to starting this program the student must show proof of a clear criminal background check.

Certificate Requirements:

Students intending to earn a certificate from the Crafton Hills College EMT Program must complete all of the courses required for the certificate in residence at Crafton Hills College and must earn a "C" (80%) or better in all coursework required as a part of the certificate.

Completion of the following 7.5 (8) units qualifies the student for the Emergency Medical Technician-EMT Course Completion Certificate:

Required Courses:		Units	IP	Need	Grade
EMS-020	Emergency Medical Technician-I/EMT-Basic	6			
EMS-021	Preventing Disease Transmission for Emergency Medical Technician-I/EMT-Basic	.5			
EMS-022	Basic Life Support for Emergency Medical Technician-I/EMT-Basic	.5			
EMS-023	Hazardous Materials First Responder Awareness for Emergency Medical Technician-I/EMT-Basic	.5			
<i>Note: EMS-025 (Customer Service and Professionalism for the Emergency Service Worker) has been added to the certificate requirements - .5 units.</i>		.5			
Total Required Units:		7.5 (8)			

A student receiving a certificate after successfully completing the National Registry examination will be able to:

- Evaluate, treat and transport the ill and injured
- Effectively use adjunctive airway breathing aids
- Administer and monitor medications
- Demonstrate competency in assessing and treating patients with medical or trauma emergencies at a basic level
- Participate in a culturally diverse environment
