The SEP provides you with a plan to reach your educational or career goal and specifies the courses required to reach your goal. You are asked to meet with a counseling faculty member during the orientation session who will assist you in developing a first semester SEP. After the SEP is completed, you will be able to access it through Campus Central at www.craftonhills.edu at anytime. Financial Aid and EOPS students are required to have a current SEP on file.

The Counseling Office is located in SSB-201. Park in Lot B or C. A decal is required and can be purchased in a lot D for \$1.

Step 4: Select your classes

Take the time to look through the list of course offerings, beginning on page 35 of this schedule or online at www.craftonhills.edu. As you make your selections, think about the hours in the day you have available to take classes, and make sure that the classes you have chosen are not held at conflicting times. Stop by the Counseling Center, SSB-201 if you would like help selecting your classes.

Use the chart on page 53 for guidance on the right level of English, reading and math for you to begin your studies. Remember to select some alternate courses as backups, in case your first-choice classes are already full by the time you register.

Step 5: Calculate your fees. (Fees are subject to change pending legislative action)

Each course listed in the schedule will tell you how many semester "units" of credit have been assigned to it. Your fees will be based on these units. Use Steps A, B, C, D (and E if applicable) below to do a preliminary calculation of your fees:

- A. If you are a resident of California, multiply the number of units you will be taking by \$26.00 and enter the total here: _____
Example: If you are taking 6 units, the total will be \$156.00)

NOTE: If you are a non-California resident, multiply the total number of units by \$186.00 (\$160 + 26).

- B. Add the required Health and Accident Fee of:
Fall or Spring \$14 • Summer \$ 11
- C. Add a \$1 Student Representation fee. This is a fee voted in by CHC students to support student senate and federal lobbying efforts on behalf of the student body. For more information, contact the Student Senate Office, SCC-107 in the College Center, (909) 389-3410. This fee may be waived for moral, religious, political or financial reasons.
- D. Add the Student Center Fee \$1 per unit
(maximum of \$10 per year) Assessed Summer - Spring

Add the totals of items A, B, and C above :

$$A) \text{ ______} + B) \text{ ______} + C) \text{ ______} + D) \text{ ______} = \text{ ______}.$$

- E. If you are both a citizen of a foreign country and a resident of a foreign country, add the Capital Outlay Fee (\$13).

Your preliminary calculations will be confirmed when you register.

At the time of registration, you will also be given the option of purchasing an Associated Student Body Discount (ASB) Card for \$7.50 for the semester or \$15.00 for the year (Fall, Spring and Summer). Showing you ASB card to the campus Bookstore cashier will enable you to receive a 5% discount on your purchases! Once ASB has been selected, it may not be cancelled.

Step 6: Register at www.craftonhills.edu

See pages 13 to 18 for detailed instructions on how to register by Web/Telephone. The first few weeks of Web/Telephone registration are open to students according to a priority system. Use the charts on pages 13 and 14 to identify your priority and the first day you will be able to use Web/Telephone registration.

You can register by Web/Telephone on your assigned priority day or any registration day thereafter. You cannot register before your assigned day. Since classes are filled on a first-come, first-served basis, we recommend that you register as soon as your priority is available.

Step 7: Pay your fees.

After registering for classes, your **entire** registration balance **must** be paid within three business days after the date of registration. Payment by cash, check or money order must be made in person at the Admissions & Records Office walk-up windows. **Outstanding registration fees may result in your classes being dropped.**

Any fees covered by financial aid will be paid automatically at the time you register. The ASB card and a parking permit are optional and at your expense.

Please check your registration statement (printout). You may have a balance due.

Don't forget to include the expense of parking, books and supplies in your calculation of what it will cost you to take classes.

Do you need financial assistance to attend college?

You may qualify for a fee waiver (Board of Governor's Grant) if you or your parents qualify according to one of the following:

- Low income • CalWORKS/TANF recipient • SSI recipient
- Child or spouse of disabled or deceased veteran.

Fee waiver forms are available in the Financial Aid Office, CL-214.

Visit the office for additional instructions and advice on how to proceed in obtaining a fee waiver. The fee waiver must be processed 24 hours prior to registering by Web/Telephone. **Fee waivers do not cover books.**

The Financial Aid Office has a variety of other programs that may assist low-income students in reaching their goals. See page 78 of this schedule for more detailed information.

Questions?

Need help? Problems in School?
The Student Success Program
is here for you

Is it your first semester at Crafton or in college? Are you confused about how to use Web registration, or about what the abbreviations mean in the schedule? Or possibly you are considering dropping out due to financial, child care or health problems? Before you give up or drop out, give the Student Success program a call. The Student Success Program is here to help.

The Student Success Program was created to help students hook up with the resources and support they need to remain in school and be successful. Carlos Maldonado and Rebecca Orta, the Student Services Technicians, are individuals who have successfully completed their goals at Crafton and understand the demands of being a student. Collectively, they share the experiences of the returning student, the single parent, the student fresh from high school, the transfer student and the occupational student. They are eager to help others avoid some of the pitfalls.

We encourage you to give the Student Success Program a call or stop by the office if you have any questions or encounter any problems with attending or successfully completing your course work.

Congratulations!

You have just completed CHC'S On-Line Registration Process

After registering for classes, your **entire** registration balance **must** be paid within three business days. Payment by cash, check or money order must be made in person at the Admissions & Records Office walk-up windows. Outstanding registration fees may result in you being dropped from your classes.

You will be blocked from registering in a class if you have not met the prerequisite.

Q: What is a prerequisite?

A: A prerequisite is a condition of enrollment that a student is required to meet in order to demonstrate readiness for enrollment in a course or educational program. This may be a course that must be taken before another course or a passing score on an accepted placement test. For example, in order to enroll in English 101, you must have completed English 015 (or its equivalent at another college) with a grade of C or better or have received a passing score on the CHC placement test (or acceptable equivalent).

Q: What is a corequisite?

A: A corequisite is a condition of enrollment consisting of a course in which must be taken at the same time as another course. For example, if you wish to take Accounting 220, you must also enroll in Accounting 221.

Q: What is a departmental recommendation?

A: A departmental recommendation is a skill or a defined area of knowledge that the department faculty feel is important, if not essential, for a student to succeed in the course for which it is recommended. For example, the departmental recommendations for Psychology 100 are English 101, Math 090, and passing a reading test at or above the 12th grade level.

Q: How do I meet a prerequisite?

A: There are several ways to meet a prerequisite. First, a student may take the prerequisite course at Crafton Hills College. Second, a student may qualify for enrollment in the course based on the college placement procedure that is given to all new students in the course (students may also provide course placements from assessments taken at other colleges. Scores alone will not be accepted.) Finally, students may meet the prerequisite by having taken the equivalent course at another college. The student must provide a copy of the transcript or grade report (an unofficial copy of the transcript is adequate but official copies submitted to the admissions office are required by the third week of semester) to a counselor who will determine whether the course is equivalent to the prerequisite course at Crafton. If the course was taken at a private or out of state college or university, the student will need to provide a copy of the catalog description.

NOTE: Unofficial transcripts and course descriptions can often be accessed off the college or university website.

Q: If I haven't met the prerequisite, is there any possibility that I can still take the course?

A: A prerequisite challenge is a process that allows students to demonstrate that they can probably succeed in a course even though they have not completed the prerequisite. To begin this process, you need to see a counselor. The Counseling Center is located in the Student Services Building, SSB 201. See page 6 for hours that counselors are available.

NOTE: Prerequisites and corequisites cannot be waived.

Q: How long does a challenge take?

A: The college is required to respond to your challenge within five (5) working days. If the college does not give you a decision within five (5) working days, you are allowed to remain in the class.

Q: What do I do if I've taken the prerequisite course at another college?

A: You need to bring an official copy of your transcript to the Counseling Center so that a counselor can verify that the course you took at another college or university meets the prerequisite. An unofficial copy of your transcript may help, but we need the official one no later than the Friday of the third week after the term starts.

Q: What if I don't like the decision of my challenge?

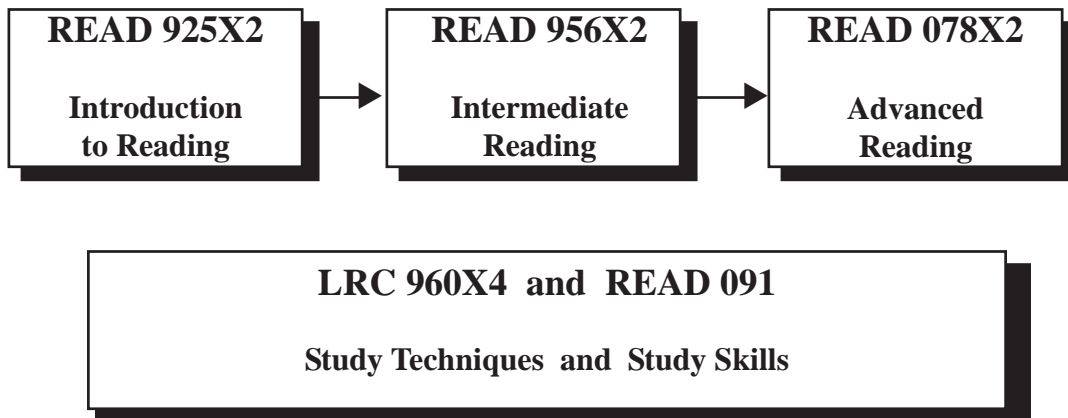

A: You MAY have the right to an appeal. If you think you may want to appeal, check with the Counseling Center.

Students registered in classes in which they have not met the prerequisite requirements will be administratively withdrawn (see refund policy).

Questions: Call (909) 389-3366 or visit the Counseling Center (SSB-201)

Improving your reading, writing, and math skills is an important step in meeting your educational goals. There are several possible starting points for you to enter at the right level. Starting at the right class will let you move from class to class successfully and get to the point you need in the shortest amount of time. **Your Counselor will help you decide** on the best class by using your placement test results, high school and/or college grades, learning skills, motivation, and other factors. **A Counselor can show you the skills needed for each class.**

ARE YOU A CANDIDATE FOR ALTERNATE DELIVERY CLASSES?

This assessment is being provided to help you decide if alternative delivered learning (TV or Online) is appropriate for you. This exercise is an indicator but not a definitive answer. This assessment covers two parts: Learning Style and Technical Aspects for TV and ONLINE.

Learning Style

- Do you stay on task without direct supervision?
- Can you prioritize your own workload and adhere to timelines?
- Do you usually understand and properly interpret written materials especially instructions?
- Could you allocate as much time in your schedule as you would for a "traditional" class but with more flexibility?
- Are you able to attend some class meetings on campus (usually 5 in a semester)?
- Would you enjoy the new experience of learning by way of television or a computer?
- If you answered YES to the "Learning Style" questions, continue to the next section.
- If you answered NO to any one of these questions, speak with an academic counselor before enrolling in a TV or Online class.

Technical Aspects for TV

- Do you have a television receiver available to you that can display broadcast channels?
- Can this television receive KVCR-TV, either with an antenna, satellite or a cable system?
- Do you have a video recorder as an option to record the programs for viewing according to your schedule?
- If you miss a program, could you go to the campus Learning Center to view the program?
- Would you be willing to lease the programs for a course on VHS tape as an option?
- If you answered YES to the "Technical Aspects for TV" questions, you meet the conditions for television delivery.
- If you answered NO to any one of these questions, speak with an academic counselor before enrolling in a TV or Online class.

Technical Aspects for ONLINE

- Do you have a computer system available to you that can access the Internet?
- Could you "go online" on a weekly basis, sometimes twice a week or more?
- Have you opened and sent e-mail messages?
- Have you installed a program after "downloading" it from a remote computer to your computer?
- Do you know how to "copy and paste" text from a word processing document to an email message?
- If you answered YES to the "Technical Aspects for ONLINE" questions, you meet the conditions for online delivery.
- If you answered NO to any one of these questions, speak with an academic counselor before enrolling in a TV or Online class.

Conditions

The TV and Online courses require structure, which you will create for yourself. You will need self-discipline to adhere to your self-made schedule. Much of the material covered in a Distributed Education course will require that you learn from reading textbooks, Internet-based articles, and written materials from the instructor. For some of the courses online, lectures are recorded by the instructor, which means you must use either a cassette player or a CD-Rom drive with a headphone or speaker.

Benefits

The beauty of Distributed Education learning is the flexibility of time available for you, as the student, to access the virtual classroom or to view TV programs. You can set your class time around your work schedule and family or social activities. You will soon realize the savings normally incurred with driving time and vehicle-related costs. If you take only D.E. courses you won't have to deal with parking constraints on a weekly basis. Plus, there may also be a reduction in childcare costs. You could also benefit by combining D.E. courses with traditional classes on campus. Now it's your choice. Check with an academic counselor to determine which classes you need, and see if they are offered via alternate delivery. Distributed Education may not be for everybody. However, for those who are self-motivated, it could prove to be an invaluable

Telecourse Information

WHAT IS A TELECOURSE?

Telecourses are professionally produced programs designed for broadcast in conjunction with classes that meet occasionally on campus, usually 5 meetings per semester. Each series is titled to reflect the subject matter of the course. A set of programs, up to 26, comprises a series and may be 30 or 60 minutes each in viewing time.

Telecourse Viewing Options

The printed airing times of the telecourses reflect those of only PBS affiliate KVCR-24, San Bernardino/Riverside. These telecourse programs are broadcast purposely in coordination with the semester system of the San Bernardino Community College District, CHC and SBVC. Other PBS stations also broadcast telecourses, as do es consumer satellite systems (PBSU). However, those programs might not be shown within the timeframe of the academic courses offered by this Community College District.

The Learning Centers of both campuses accommodate the viewing of current telecourses. Conditions and restrictions apply. Call the Learning Center for specific information.

RMI Media offers a lease of the entire series of telecourse programs for an academic course, at a cost of around \$65. These VHS tapes are to be returned at the end of the academic semester. Seattle Community College District and RMI Media offer some of the telecourses streamed in a "video on demand" format. The service is available to students enrolled in telecourses worldwide (must have Internet Broadband Connectivity such as DSL, Cable Modem, or Wireless). The access fee is \$55 per telecourse. Contact RMI at (800) 745-5480 or access the "www.rmimedia.com" Internet site.

How to Succeed in a Distributed Education Course

Successful students claim that determination, planning, and self-motivation are needed to complete a course that lacks the regular meetings of an on-campus structure. Here is a plan of action that might help you.

1. Attend the first campus meeting to meet the instructor, understand the course goals and requirements, and receive the course syllabus and assignments. Access the instructor's web site to get a copy of the syllabus and learn what is expected of you as an online student.
2. Read the study materials related to assignments as presented by the instructor. Take notes and highlight important information.
3. Watch the telecourse programs weekly. If you have a VCR, record the programs to review them, or make an appointment at the college Learning Center to view the programs. For online classes, log in to your online system weekly to keep up with new messages from the instructor and classmates.
4. Complete the assignments in the telecourse study guide and textbook after each program viewing. For online classes, be aware of due dates and don't wait until the last hour to send them.
5. Formulate a list of questions during your study time to present to the instructor at the telecourse campus meetings or to post by email to your online class.
6. Form a study group with other members of the class to review and discuss the content of the course.

STUDENT MATRICULATION

New, non-exempt students enrolling in California community colleges must participate in a matriculation process. Matriculation is a process which brings together a college and a student who enrolls for credit into an agreement for the purpose of realizing the student's educational objective. The agreement includes an admission process, college orientation, pre-enrollment assessment, advisement and counseling for course selection, a suitable program of studies, and follow-up on student progress. The student agrees to express at least a broad educational objective at entrance. He or she also agrees to declare a specific educational objective within a reasonable period of enrollment, attend class and complete coursework diligently, and maintain progress toward an educational goal. The purpose of Matriculation is to ensure access to appropriate programs and courses offered by community colleges to all students who can benefit, and to facilitate successful completion of student educational objectives in accordance with applicable standards of educational quality as determined by the Board of Governors and local trustees.

MATRICULATION APPEALS

The college provides an appeals process for review of the following matriculation concerns:

1. Review of placement decisions.
2. Waiver & challenge of prerequisites.
3. Complaint of unlawful discrimination: If a student feels that assessment, orientation, counseling, prerequisites, or any other matriculation procedure is being applied in a discriminatory manner, he or she should consult with the Vice President of Student Services or designee (SSA-306).

However, in many courses the student will need the ability to understand spoken and written English and the ability to speak and write English. Any student with limited English language skills who attempts to register will be referred to the Counseling Center in room SSB-201. It is recommended that students with limited English language skills enroll in the courses designed to build those skills (see READ 925X2 and LRC 960X4) in order to acquire the language proficiency necessary for successful achievement or personal safety in other courses.

Cualquier estudiante, con habilidades limitadas en inglés, que trate de matricularse será dirigido al Centro de Asesores/Carreras en la oficina SSB-201. CHILDREN ON CAMPUS AND IN THE CLASSROOM

Please be advised that children are not to be brought into the classroom or left unattended on the campus.

Crafton Hills College staff are well aware of the fact that in most cases children are brought to class or on the campus due to hardship situations. Children left unattended on the campus are exposed to a multitude of dangers due to the construction of the campus (stairs, ledges, etc.) and the terrain. In addition, they are often a distraction to faculty and others and, therefore, disrupt the educational process.

You are asked to please make arrangements for the care of your children. If assistance is needed in this regard, the Counseling Center is able to provide referral information.

COURSE NUMBERING SYSTEM

Courses offered at Crafton Hills College make possible the selection of curricula that meet the requirements for most regular college and university majors as well as curricula that prepare the student for productive life in the community.

- 010-099** Multipurpose courses, but not generally applicable to the Baccalaureate degree.
- 100-299** Basic lower division courses applicable to the Associate degree; may also apply to Baccalaureate degree.
- 900-999** Courses not applicable to the Associate degree.

COURSE PREREQUISITES

Students planning to take a course that has a prerequisite, must have completed the prerequisite or will be blocked from registering in the class.

If you believe that you have met the prerequisite bring evidence (transcripts or placement scores from another college) to the Counseling Office to determine appropriate placement).

Courses having a prerequisite are identified in this class schedule with a notation of the prerequisite. Course descriptions are found in the current Crafton Hills College Catalog. Contact the Counseling Center during registration if you have questions arising from curricula sequence prerequisites.

WHAT ABOUT GRADES?

The following grading system has been adopted by Crafton Hills College for both day and evening students:

SYMBOL DEFINITION		GRADE POINT
A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Passing, less than satisfactory	1
F	Failing	0
CR	Credit (at least satisfactory; units awarded not counted in GPA)	0
NC	No Credit (less than satisfactory or failing; units not counted in GPA)	0

By law, the instructor is the final authority on assignment of grades. When reported to the Admissions & Records Office on the class roll book, grades represent the instructor's decision as to the student's achievement. Grade changes are initiated through the instructor from whom the grade was received.

No grade will be changed for any reason or under any circumstances after three (3) years from the end of the term in which the grade was assigned. (SBCCD Board Policy 5040) (Title V, Section 55760)

ATTENDANCE

Regular and prompt attendance is expected of every student. Instructors may drop students who incur excessive absences. After a student has been dropped from a class for excessive absences, reinstatement will be at the discretion of the instructor.

Students may be dropped by the instructor for not attending the first class meeting. You are not entitled to a refund.

CREDIT/NO CREDIT GRADE POLICY

If you wish to be graded in any class on a Credit/No Credit basis, you must indicate by the end of the 4th week, or in the case of Summer Session or short-term course(s), no later than the end of the first 30% of the term.

You may take up to fifteen (15) units of Credit ("CR") courses to apply toward graduation requirements.

No course in your major or required by your major may be taken for Credit ("CR"). Courses in your major must be taken for a letter grade. However, if you have completed courses for Credit ("CR") and subsequently declared a major in that course of study, the rule may be waived.

Units from Credit/No Credit courses will apply toward graduation, but are not included in the grade point average. **(Title V, Section 55752)**

REPEATING COURSES

Courses in which a substandard grade (D, F, NC) was issued may be repeated one time. Only the units and the grade for the course taken the second time will be used to compute the GPA and to count for degree or certificate requirements.

Courses in which an "Incomplete" (I) has been recorded may not be repeated until a letter grade has been recorded.

Courses in which a standard grade (A, B, C, CR) was issued may be repeated one time only upon petition establishing circumstances that will justify such repetition. Grades issued for repeating a course under this petition process **will not be counted** in the computation of the GPA.

Grades, once entered on a student's academic record, remain permanent unless changed by the instructor of record or pursuant to Education Code Section 76224. No grade will be changed after 36 months.

Student permanent records shall reflect all work attempted so that the student's transcript is a true and complete academic record pursuant to Administrative Code, Title 5, Section 55761. Prior course repetition actions by other accredited colleges may be honored when a student's permanent record is reviewed for degree or certificate requirements. **(Title V, Section 55761)**

STUDENT WITHDRAWAL

Students are permitted to withdraw from classes with the notation of "W" on their permanent record through the first 75% of a class section. Students enrolled after the 75% will receive a grade in the class from the instructor according to the grading system of the college.

STANDARDS OF STUDENT CONDUCT

Creating a proper campus environment is also very important for academic and individual success. The SBCCD Board of Trustees has established district-wide standards of student conduct which will be enforced at all times. These rules of conduct are particularly important in large common areas such as the cafeteria, bookstore, vending areas, campus quads, and other highly frequented areas.

In the Classroom

Creating a proper teaching and learning environment is imperative for getting a good education. Everyone at Crafton Hills College is responsible for helping to create this environment, including students. Simple rules of courtesy apply.

1. **Respect for the Instructor.** This includes arriving on time, not leaving early, bringing appropriate materials, not speaking with other students while the instructor or another student is talking, not bringing food or drink into the classroom, not being loud, boisterous, or argumentative.
2. **Respect for Other Students.** This includes not interfering with the rights of others to listen and participate, not being disrespectful, not using inappropriate language or harassing others in any way.
3. **Academic Honesty.** Lack of honesty in the classroom is considered a very serious offense. Any form of cheating on tests or assignments, turning in work which is not one's own (i.e., plagiarism), talking during tests, furnishing false information to college personnel, or knowingly misrepresenting oneself to the college is grounds for disciplinary action. The consequences of cheating are severe and may include receiving a grade of "F" for the class or possible expulsion from the college.
4. **Instructor's Rights.** An instructor has the right to remove a student from class at any time he or she considers a student's actions to be interfering with a proper collegiate environment. The instructor may also refer the incident to the Vice President of Student Services for disciplinary action as warranted.
5. **Student's Rights.** All students have a right to due process. If a conflict occurs, the student must first discuss the problem with the instructor. If this does not resolve the problem, the student should follow the procedures detailed in SBCCD Board Policy 5530, Student Grievances.

STUDENT GRIEVANCE POLICY

In accordance with Board Policy 5530, a student may initiate grievance against a college employee for any of the following reasons:

- Any act or threat of intimidation, harassment, discrimination or physical aggression.
- Any arbitrary action without proper regard to academic due process.

No individual or group has the authority to change a grade assigned by an instructor unless persuasive evidence of instructor error, fraud, bad faith or incompetence is presented. Any student who wishes to discuss a grievance must first attempt to resolve the issue by contacting the instructor. The next step requires a conference with the instructor's immediate supervisors (first the department head). If the alleged problem is still unresolved, the student may request a formal hearing by contacting the appropriate vice president. Filing a grievance must be done within 180 days of the event.

Students may submit a petition to the Academic Exception Committee stating any objection and requesting a remedy concerning their academic records.

For further information, you may call the Admissions & Records Office at (909) 389-3372.

IVA CHONG

**LIBERAL ARTS MAJOR AND
 2005-2006 AGS PRESIDENT**

"College here has helped me find direction for a future career," said 20-year-old Iva Chong, who was born in Guangdong, China and lived most of her life in Hong Kong. "In the United States, there are more opportunities to choose what you want to do in life."

In 2003, Chong graduated from Redlands East Valley (REV) High School, where she was attending school as an exchange student. "I like going to school in America," Chong said. "You can learn here, not just get a good grade; and once you get a college degree, you can start in a career you choose."

Chong's parents, younger brother, and younger sister, who live in Hong Kong, are supportive of her college endeavors.

"In the United States, there are opportunities all around you," she said. "People here should appreciate their freedom in all areas of their life, not just school. But one has to have a goal and a good education in order to change one's life and the lives of others around them."

In addition to speaking English, Chong knows three Chinese dialects -- Mandarin, Cantonese, and Hakka. Her educational goal is to earn a degree in international business.

At CHC, Chong, who has a 3.9 grade point average, has taken a diverse selection of classes, including business law, accounting, theatre arts, economics, speech, statistics, English, algebra, biology, and music. "It helps me learn different things," she said. "I can choose the areas I find interesting and not be pushed into something I don't like."

She is president of the CHC chapter of Alpha Gamma Sigma (AGS), a student honor society comprised of outstanding students dedicated to community service. Each year, AGS sponsors a Christmas party for boys, aged six to 16, who were taken away from their parents. AGS also raises funds for student scholarships.

Chong is also a student tutor in the CHC Math Center, and she is listed in "Who's Who Among American Junior Colleges."

"CHC helped prepare me for a four-year school and helped me see if my major is really what I want to pursue," Chong said.

PATTY DALLMEIER

RESPIRATORY CARE MAJOR

Patty Dallmeier, 48, always longed to have job in the health field. "I wanted a job that required more 'hands on' contact with the patients," said Dallmeier, a re-entry student. "I like being with people and helping them."

Dallmeier chose Crafton Hills College to attend college because of the outstanding reputation of the Respiratory Care Department. Also, she took classes at the college in 1985 and liked it, and her brother-in-law and sister-in-law have taken classes at CHC.

"Going to college has given me the opportunity to succeed," Dallmeier said.

"It has helped me develop my self-esteem, my confidence, and my personal life. It's given me a sense of self-worth and shown me that I can accomplish something once I set my mind to it."

"The professors have put a lot of excitement and encouragement into my learning, and I get an overwhelming sense of wanting to learn more," she said.

"I look on them as my role models."

Dallmeier was awarded the Donald W. Hunt and Learning Resource Scholarships in 2005.

The Donald W. Hunt Scholarship is for a student in a health related field who has earned a 3.0 grade point average or higher. The Learning Resource Scholarships are awarded to students who have shown progress and consistency in following a program of study by completing course work in a timely manner.

"These scholarships help reduce my stress level because it helps finance books and supplies," Dallmeier said. "To give me this support to succeed shows me that the Foundation has faith in me. That adds to my confidence."

Dallmeier's goal is to become a Registered Respiratory Therapist and "give the highest quality care I can in my profession."

GABRIEL OCASIO
BUSINESS MARKETING MAJOR

"There are a lot of good teachers here," said 21-year-old business marketing major Gabriel Ocasio. "They give so much of themselves to the students. They care about what you're doing in the class and about what you're going to do in the future. They make sure we have all the information we need to succeed."

Ocasio particularly praised Dr. Donald Schall, business law instructor. "Dr. Schall is an inspiration to me," Ocasio said. "He has had a lot of experience that he brings to the classroom. He has taught us how important critical thinking is in the field of law. We've learned that you have to organize your thoughts, take everything step by step, and match the rules of law to the facts."

"He wants to make sure we succeed, so he always makes himself accessible to us," said Ocasio, who has a 3.7 grade point average. "He pushes us to do our best."

Ocasio also praised business instructor Bob O'Toole and economics Instructor Farhad Mansourian. "They want to make sure the students understand," he said. "They care."

Ocasio originally decided to attend CHC because he wasn't sure about what he wanted to do and the college was close to home and affordable. Also, he had always heard that transferring from CHC to California State University San Bernardino (CSUSB) was a smooth transition.

Ocasio credited the job fairs held at the CHC campus quadrangle with getting him interested in business and helping him learn about higher education opportunities. "At the job fairs, there are a lot of great people helping you out with what you're going to do after CHC," he said.

In addition to his academic pursuits, Ocasio is a member of the CHC chapter of Alpha Gamma Sigma (AGS). "AGS is a community service based honor society," Ocasio said. "I was always raised that when you live in a community, you should be proud of your community and give back to it. It's something I like doing. It just seems a natural thing to go in and help people out."

Ocasio plans to transfer to CSUSB in business and eventually attend law school.

ELSA MONTES

BUSINESS GRADUATE -- CLASS OF '87

"My experience at Crafton Hills College was an affirmation that college was for me," said Elsa Montes, vice president of Membership Services at Arrowhead Credit Union. "It was very encouraging. It made all the difference in my career."

Montes, 39, originally began attending CHC in 1984 after graduating from Aquinas High School in San Bernardino. She believes many people either think they can't afford college, or they've never considered the possibility that they could be college students.

"College gives people opportunity and confidence," she said. "Once you learn your options and capabilities, there is a transformation from who you are to who you think you can become."

When Montes originally chose CHC, she was not sure what field she wanted to study. At CHC, Montes discovered that she enjoyed everything about college—the classes, the library, the cafeteria, the people, and the whole ambience of the campus.

"CHC was such a nice transition between high school and a four-year college," she said. "I loved the complete package. The whole college life felt right to me. I just felt so proud to walk across campus with my backpack. It was exciting to be a part of something new in my family."

Montes particularly appreciated the accessibility and helpfulness of the faculty and staff. "They were very professional," she said. "The two years at CHC were akin to the first two years at a four-year school. It was a university type atmosphere and university type teaching."

Montes also praised the Financial Aid Office. "I was a financial aid student," she said. "I qualified for financial aid, which helped me stay on track with my goal of completing my bachelor's degree in five years."

After earning her associate degree in business administration at CHC, Montes attended California State University, San Bernardino (CSUSB). At CSUSB, in 1989, she earned a Bachelor's in Science (BS) degree in business administration with a concentration in marketing. In 2000, she earned a Master's Degree in finance at CSUSB.

DAVID GARVIN
COMPUTER INFORMATION SCIENCES

Being an avid video game player, as well as being one who enjoys navigating computers, Crafton Hills College student David Garvin decided to investigate a career in computers. He also discovered an interest in business.

Garvin decided to major in computer science and in marketing at CHC.

In addition to his studies, Garvin has taken advantage of internships offered through the CHC Work Experience Program, which offers students the opportunity to receive college credit based on their employment.

"(Work Experience Coordinator) Kim McCormick knows her program," Garvin said. "She is a great person and a great instructor."

"You have to get as much experience as you can and be constantly updating your skills for work in this field," Garvin said. "It's always changing; there's always something new."

He has worked as a web master intern and, more recently, completed a marketing internship for the San Bernardino National Forest Association (SBNFA), where he promoted the organization's volunteer program.

"After my web-master's internship, I decided to go into graphic design," said 21-year-old David Garvin. "I've always wanted to teach computer science with a focus on the web."

He is currently a student worker at the San Bernardino County Superintendent of Schools, where he helps with web-development. Additionally, Garvin, who wants as much experience as possible, is working as CHC computer lab assistant.

He enjoys attending CHC because of the beautiful campus and excellent instructors.

Bob O'Toole, business and accounting instructor, is another of Garvin's favorite instructors. "He involves the students and he is always willing to help you," Garvin said.

Garvin's goal is to attend California State University, San Bernardino (CSUSB) after he graduates from CHC. He plans to have a career as a graphics artist, making graphics for t-shirts and websites, and utilizing his marketing skills with event and business imaging. He also wants to teach web design.

**KEN DALE
KAISER HOSPITAL EMERGENCY
MEDICINE PHYSICIAN
CLASS OF '85**

"I felt that Crafton Hills College was a place where I could find instructors with professional accomplishment," said Kaiser Emergency Medicine Physician Ken Dale. "It's one of the longest standing college paramedic programs in the country with an absolutely phenomenal reputation."

Dale originally chose to attend the CHC Paramedic Program in 1985 because he believed it was a "wonderful stepping stone to be a physician."

Dale, 47, has been the attending emergency physician at Kaiser for three years. Prior to that, he was the emergency physician at St Bernardine Medical Center for six years, and he worked as a resident physician at Martin Luther King Jr. Hospital in Los Angeles for three years. He is a graduate of the Western University of Health and Sciences in Pomona.

In 1979, while attending CHC, Dale initially did not have the grades to get into the program. The experience motivated him to work even harder to achieve the goal of becoming a paramedic. He completed an emergency medical technician (EMT) II course via a CHC off-site program and worked for a local ambulance company. Then, he earned a BS degree in biology at California State University San Bernardino in 1985.

He returned to CHC and entered the CHC Paramedic program. In addition to requiring paramedic students to work rotations for ambulance services, the CHC Paramedic Program requires the students to obtain experience working in hospitals.

"The clinical training is very important," Dale said. "You get exposed to hospital protocol and other experiences that you don't see as an EMT."

"It gave me the job skills I needed to work in emergency medicine," Dale said. "You can only learn it by living it."

According to Dale, the paramedic instructors at CHC, comprised of paramedics and emergency nurses, are renowned for having high standards for the students. He described the CHC paramedic teaching staff as professional, demanding, competent and accessible.

"They don't 'cut you any slack,'" Dale said. "When you pass that program, it certifies that you are prepared to provide care in a life threatening situation. When I completed that program, I was very, very prepared."

Levels and Order of Mathematics Classes

The ability to think and reason using mathematical concepts is an essential skill. There are several starting points for you to enter at the right level. Starting at the right class will let you move successfully from class to class and to get to the point you need in the shortest amount of time. Start with the assessment test in the Counseling Center. Based on your eligibility determined on the assessment, choose the statement that best describes you, meet with a counselor to discuss the path and to be sure all prerequisites are cleared and follow that path. A counselor can also show you a sheet with the skills needed for each class and help you interpret the assessment scores. They also have a more detailed sheet explaining the differences between MATH 102, 108 and 115.

LUCAS SUTTER
ENGLISH MAJOR

English major Lucas Sutter, 26, was initially reluctant to get up in front of a speech class because he believed that he was more of a writer than a speaker.

By the end of his first semester, this fall, he was awarded first place in an annual intramural speech contest for his presentation on the "History of the Nobel Peace Prize."

Lucas originally signed up for an introductory speech class because it was a requirement for transfer to a four-year school in his major. During the class, he discovered that writing and speech are interrelated.

"That's one of the reasons I like writing. You have to express yourself in as clear and specific a way as possible in both writing and speaking."

Lucas praised Instructor Vonda O'Shaughnessy for helping him succeed in his speaking endeavor. "I would never have been involved in the tournament without her support," he said. "Besides gaining confidence in speaking, I became more comfortable with who I am. It was her belief in me that made me think, "Hey, maybe I could be good at this."

"Speaking successfully requires writing a quality speech and delivering it with confidence and conviction," Sutter said.

In addition to writing and speaking, Sutter's main love is music.

"Music is my passion," said Sutter, who plays the drums. "My choice of English as a major revolved around the idea of wanting to create."

Another factor in his decision to major in English is that he realized "99 percent" of his role models were writers, such as J.D. Salinger, C.S. Lewis, and Bill Cosby.

"I'm super excited about being here," he said. "English Professor (Bret) Scaliter has taken so much interest in my work and has been so encouraging."

"I definitely feel like I'm becoming a better writer and I'm constantly learning new things," he said. "I'm having the time of my life. I feel like I'm really accomplishing something."

Sutter plans to transfer to the University of Redlands or California State University in San Bernardino and major in creative writing and literature.

"What you get out of college depends on how much you put into it," Sutter said. "I'm definitely in college for the learning. Deciding to go to college was the best decision I've made."

**John Sisk
Music Major**

"I've learned to dream big dreams and make them real," said John Sisk, 21-year-old Yucaipa resident and CHC music major. "I've turned my whole life around at Crafton Hills College. No matter who you are or where you've been, you can better yourself through education."

"You can make a difference in your family and in your community. All you have to do is make the choice."

Sisk discovered his love for music after attending Crafton Hills College.

"I was involved in music at a young age," Sisk said. "Coming to Crafton, I discovered music was something I had a passion for."

He credits Mark McConnell, music director at CHC, for his "encouragement and mentorship." Sisk plays several instruments in the college's jazz band, including piano and drums.

Sisk also acknowledges Art Assistant Professor Snezana Petrovic and Theatre Arts Assistant Professor Tom Bryant for being "amazing and inspiring."

While attending CHC, Sisk has participated in several campus organizations, including Alpha Gamma Sigma Honor Society (AGS), Multi-Cultural Student Union, and the Crafton Hills Composers' Collective. He is also president of the Arts League, which supports the fine arts on campus and promotes college art exhibits, concerts, and theatre productions.

Sisk utilizes his financial aid options at CHC, using the Pell Grant and the Bog Waiver. He appreciates getting a "more personal interaction with teachers while paying practically nothing."

He emphasized that lack of finances should not prevent a person from getting an education and recommended that all students check to see what financial aid opportunities and other student support services are available.

Aside from CHC, Sisk also teaches music lessons, specifically the drums, at *Yucaipa Music*, enabling him to share his love for music with others. Sisk recently applied to the California Institute of the Arts, which he believes to be a beneficial transition from CHC, since both schools are multi-disciplinary. He wants to eventually go into composition and performance.

Interested in a rewarding career earning \$18-\$22 per hour as a RESPIRATORY THERAPIST? CHC offers an accredited Associates Degree program. Lots of job opportunities.

ERA OF THE "SMART CLASSROOM"

The advent of faster computers, the Internet, digital equipment, and new software is giving instructors a whole new set of teaching tools to add to their repertoire.

At Crafton Hills College, the Technology Services Department equipped seven classrooms with the newest in technological equipment to enhance the teaching process.

The classrooms, called "Smart Classrooms," include projection devices, multimedia computers, smart boards, easy access Internet connectivity for laptops, enhanced sound, DVD players, and a host of other items specific to the needs of CHC's students and instructors. The instructor operates all the devices from a control panel in the corner of the classroom. The Smart Classrooms are in addition to the already existing computer labs and computer classes on campus.

"These Smart Classrooms have been strategically located throughout the campus and provide instructors with the ability to deliver sophisticated content to students in their courses," said Technology Services Department Head Ted Phillips.

Currently, the Smart Classrooms are being used in some of the psychology, speech, history, English, math, biology, chemistry, and health classes. CHC Instructional Media Technician Shane Veloni oversaw the creation of the Smart Classrooms and provides orientations to the presenters.

CHC speech Instructor Rick Hogrefe believes it is important for his students to be aware of the different types of technology widely used in modern day presentations.

"In this era, professionals who deliver speeches are expected to integrate technology effectively into their presentations," Hogrefe said. "Having the technology permanently installed in the classroom is great because it approximates what students will find once they are in the world of work."

"Students have come to expect technology in the classroom," he said. "Using even basic techniques such as MS PowerPoint to deliver lectures has led to increased student success in my speech communication classes."

"It's very motivating to be around this technology in class," said 26-year-old CHC student Andy Loera. "My first experience with this type of classroom was in history, and now I have a psychology class in one. What I like about it is that the instructors have access to the internet and can project the subject on the screen. It's visual and it's quick. It keeps you focused and makes you want to learn more."

Psychology Department Head T.L. Brink likes to utilize the PowerPoint set up and occasionally movies. "The students find the smart system to be very helpful and stimulating," he said. "The internet is the mainstay of my courses outside of the classroom."

REUBEN HARRISON
THEATRE MAJOR

"I was always interested in the technical aspects of theatre," said 21-year-old Highland resident Reuben Harrison, who is a CHC theatre major with an emphasis on theatre production. "I decided to enroll in theatre stagecraft, and I got 'bitten by the theatre bug.'"

Harrison initially chose CHC to attend college because he decided it would be a great stepping stone into a four-year college and it was affordable. Although he was originally a business major, Harrison had experience working with sound equipment and lighting at high schools, churches, and the Loma Linda broadcast-network.

"My experiences in theatre at CHC have been great," Harrison said. "I've stayed here an extra year because I enjoy theatre so much."

His work at CHC has led him to get involved in other endeavors, including working as a resident theatre technician at the Redlands Theatre Festival, starting his own sound company, and participating as a founding member of the CHC Arts League, a student club dedicated to promoting the fine arts on campus.

Harrison credits the CHC Theatre Program, headed by CHC Theatre Director Tom Bryant, with teaching him "how to get a show off the ground and how to work together as a team."

"You have to do what's best for everyone," Harrison said. "In theatre, your main goal is the success of the show."

"I also learned dedication," he said. "Theatre is a major investment of your time, and it is a test of your mental and physical capacity. I've spent many late nights hanging up lights and putting up sets."

"Tom (Bryant) is absolutely devoted to the students," Harrison said. "His goal is to get as many student productions up and running as he can. It gives students opportunities to get experience as technical designers, directors, writers, and actors."

"It's been an incredible experience. I've had a very, very good time here, learned an incredible amount, and I'm ready for the next step in my college education."

In addition to theatre, Harrison is a musician, playing in the CHC percussion ensemble. He also plays piano and guitar.

Harrison plans to transfer to a four-year university next year.

If you need help with the cost of attending college, the Financial Aid Office may be able to help. The Financial Aid Philosophy is "No Student should be denied access to an educational experience because of a lack of funds." The distribution of these state and federal funds is closely regulated by laws & regulations designed to direct support to those who need them most.

Determining Need

The process starts with the Free Application for Federal Student Aid. Based on the information you provide, the Department of Education established a contribution from you and/or your family toward your educational expenses. Your financial need is the difference between the cost of attendance and the contribution from you and/or your family.

Refund Policy

Students receiving Federal Aid Title IV funds who withdraw or drop without notice from all classes prior to or during the 10th week of the semester (60%), will be subject to Federal refund policies. Students who receive federal financial aid and do not attend any classes will be required to repay all the funds they received. Students who withdraw from all classes prior to completing more than 60% of the semester will have their financial aid eligibility recalculated based on the percentage of the semester completed, and will be required to repay any unearned financial aid they received. Examples of refunds are available from the Financial Aid Office. The college will bill the student and holds will be placed on records until the funds are repaid by the student.

Satisfactory Academic Progress

Satisfactory Academic Progress is required of all Financial Aid students. If the college places you on probation you are automatically on probation with the Financial Aid Office. Satisfactory progress will be monitored at the end of each spring semester for all Financial Aid students who apply for Aid for the next school year. Detailed information on standards required are available in the Financial Aid Office.

FINANCIAL AID RULES for 2006/2007

There is a new federal law this year about paying back money if you leave school

If you get a GRANT and then WITHDRAW from all your classes, you will OWE money back to the federal program. Here's how it works:

According to the day you withdraw, the Financial Aid Office will calculate the part of the grant that you have "earned".

NOTE: If you withdraw after you have earned 60% of your grant, you do not owe any repayment. (Don't worry if you don't understand, the Financial Aid Office will calculate the amount for you.)

Example: Say you get a \$1000 grant. If there are 100 days in the term and you drop out on the 26th day, then you earned 26% of your grant

The Financial Aid Office will multiply your grant money and figure out what you earned, and did not earn.

\$1000 grant x 26% = \$260 earned; \$1000 x 74% = \$740 unearned.

The college will owe some of the money back depending on the number of units you took:

You took 12 units at \$26 each = \$312 x 74% (unearned) = \$231 the college has to pay.

You will have to pay back the unearned amount, minus the college share, times 50%.

\$740 - \$231 = \$509 x 50% = \$255 you have to pay the federal program.

If you receive Federal Work Study (FWS) money and withdraw, you do not owe any FWS money back. You always get to keep the salary you have earned.

If you are thinking of withdrawing or Just leaving... Please think again!

Immediately see a counselor or advisor and discuss your academic or personal reasons for leaving. Perhaps you can stay but take fewer courses. Maybe there are services (like tutoring or personal support) that will help you stay. Talk to your instructors, see what advice they can offer.

Don't leave unless you must But if you must, take care of business before you go.

Begin the withdrawal process at the Admissions and Records Office. This office will tell you the process and the rules.

Immediately go to the Financial Aid Office in the Classroom Building, Room 214. Learn how much you will owe and how you will have to repay it.

Please work with the Financial Aid Office. You can arrange for regular payments with the Federal government without losing your student aid eligibility, so it's important to take care of the details before you go. If you leave without taking care of this business and you owe money, the Financial Aid Office will have to put a national HOLD on your student aid eligibility.
