January 2018 Starfish Summary

Kudos to You: This Month's Starfish Superstars!

Congratulations to the Math department. You are this month's most active department in Starfish! Keep up the good work!

Tracking Items Raised:

☐ _142_ Kudos Sent   ☐ _193_ Flags Raised   ☐ _8_ Referrals Made   ☐ _343_ Tot. Tracking items

Canvas and Starfish are now integrated! What does this mean for you?

Aside from being able to access Starfish from your Canvas shell and being able to see students' grades in Starfish, you can now opt-in to automatic flags for low grades and/or inactivity in Canvas.

Automatic flags for low grades: As long as users enter grades in Canvas, Starfish can send automatic flags when a student's current grade falls below a specified threshold. Each instructor can set their own threshold for their courses. In order to opt-in, email Breanna Andrews with the following information:

Low Grade Threshold (%):
Courses (course number and sections) you want to opt in:
Date this flag should be turned on (please allow one week from the date you choose):

Automatic flags for inactivity (not logging in) to Canvas: This is a great flag for online courses, but could apply to any course that requires consistent use of Canvas. This flag will be assigned to students who have not logged into Canvas in a specified amount of consecutive calendar days. To opt your courses into this automatic flag feature, email Breanna Andrews and provide the following information:

After how many days of inactivity would you like this flag to be raised (3-, 5-, 7-, 14-, 21- days):
Courses (course number and sections) to opt in:
Date this flag should be turned on (please allow one week from the date you choose):

Questions, Comments, Concerns?
