Why do we not have a 100% submission rate for Progress Reports?

ATTENTION FACULTY, we want to hear from you!

Every semester, for just about every class, we are asked to complete Progress Reports for our special population students. This includes EOPS, CARE, CalWORKs, Veterans, DSPS, Probation Students, and Honors Students. These used to be in the form of paper and have since transitioned to Starfish. EOPS in particular, and some others, require this feedback as part of program enrollment. These are looked at and reviewed with the students. This past Fall 2021 semester, we had a total of **584 sections** which were sent Progress Reports. Our of these sections, **383 sections (65.5%) completed** the progress report, and **201 (34.4%) did not**. Progress reports are **NOW OPEN for classes that are 13-17 weeks in length**. Let's increase this number!

If you are not completing your progress reports in Starfish, we would love to know why. We encourage you to send an email (anonymous or otherwise) to StarfishFaculty@craftonhills.edu telling us why you choose not to, and if there is anything we can do to support your use.
